

Highlights from Manufacturing Day Across California

10-6-2017

Here are highlights from the organizations that participated in Manufacturing Day 2017. These are just a few of the events that CMTC actively participated in by sponsoring, organizing, matching up manufacturers with schools wishing to participate, or by lending our support by exhibiting or attending. We are proud that so many of the manufacturers featured here are CMTC clients and/or participants in our Made in CA program.

CMTC has supported Manufacturing Day events and activities since 2012

"Manufacturing Day is a special day where the small and medium-sized manufacturers, that fuel the economic engine of California, have an opportunity to showcase their products and capabilities. This opportunity to visit a manufacturer is particularly important for local area high school students who will be the next generation of manufacturers and workers"

James Watson, President & CEO of CMTC

Manufacturing Day has always been an important way to spread the word about the benefits that manufacturing provides our wonderful State of California. This year, Manufacturing Day was actively promoted throughout the state via a variety of methods. Some of the various outreach programs focused on:

- Manufacturers
- Our partners and other stakeholders
- Middle schools, high schools, vocational schools and home school organizations
- City, county and state officials
- Current and prospective CMTC clients
- Members of the media

Outreach efforts included; phone calls, e-mails, social media and in-person meetings. We also featured upcoming events in our monthly newsletter "News for Manufacturers" and in our CMTC blog. In addition,

we created a "Manufacturing Day - See Who's Participating" webpage to keep everyone informed about Manufacturing Day and provide the most up-to-date listing of California companies hosting events.

CMTC has actively participated in, and promoted, Manufacturing Day since its inception in 2012. This year, we were much more active in sponsoring, organizing and coordinating events statewide. We were also very committed to pairing up schools wishing to attend Manufacturing Day events with manufacturers and other organizations hosting open houses, career fairs, and expos. CMTC's efforts directly resulted in over 50 schools attending events, giving more than 1,000 students first-hand exposure to learn about today's manufacturing technologies.

We would like to extend a special "Thank You" to all of the manufacturers, schools, stakeholders and other organizations and individuals who helped make Manufacturing Day 2017 such a huge success.

LOS ANGELES COUNTY EVENTS

Manufacturing Day was celebrated throughout the month of October at 22 locations in Los Angeles County. Over 40 manufacturers participated either by hosting an open house or by participating in an event in their community.

LATTC and CMTC co-sponsored a Manufacturing Day Expo on the LA Trade-Tech campus

It was an exciting day with over 750 students in attendance from local high schools. Prior to the start of the program, Mayor Garcetti met with students from Marshall High School for a discussion session about careers in manufacturing. He then took the stage for a rousing speech in which he encouraged students to “go out and make things” and “look to the future” -- especially in Los Angeles -- for careers in manufacturing. After his speech, Mayor Garcetti presented CMTC’s Director of Advanced Manufacturing Technologies, Gregg Profozich, with a Certificate of Recognition thanking CMTC for their support of Manufacturing Day in Los Angeles.

Everyone was then treated to an informative panel discussion on advanced manufacturing technologies, which included:

- Chris Wentworth, CMTC Practice Lead, Additive Manufacturing
- Aditi Majumder, Ph.D., Prof. UC Irvine, Interactive Graphics & Visualization Lab
- Neil Gupta, President Kinetic Analytics - Digital Manufacturing
- Shekhar Chandrashekar, CMTC Smart Manufacturing Practice Lead - Moderator

After the panel discussion, the students interacted with a variety of exhibitors and enjoyed eating their lunches on the campus grounds. Exhibitors included: Asia Enterprises, CMTC, Hartmark Cabinet Design, Intel Corporation, Kinetic Analytics, LA Propoint, LA Trade-Tech (various departments), MAKEIT, Inc., Micro Surface Engineering, Perception Robotics, UC Irvine, and the U.S. Army.

Thanks to the staff at CMTC, LA Trade-Tech and Mayor Garcetti’s Office, for all of their hard work in creating this extremely successful event!

College of the Canyons - along with the City of Santa Clarita, the Santa Clarita Valley Economic Development Corporation, CACT, the Hart School District, Pathway to My Future, and CMTC

This two day event at the College of the Canyons campus began on the evening of October 12th. Representatives from local advanced technology companies lead a panel discussion about career paths and opportunities in manufacturing and advanced technology. The evening's keynote speaker was Titan Gilroy, the owner of TITANS of CNC, an elite aerospace CNC Machine shop in Northern California. He is also the Executive Producer and Star of the television series, TITANS of CNC. Students were introduced to college level programs to support the manufacturing skills needed to sustain and expand U.S. manufacturing, including machining, welding, robotics, engineering, mathematics, programming, and more.

The next day, a Manufacturing Expo and Career Fair was held. Interactive classes on calculator deconstruction were given which covered re-engineering, top U.S. manufacturers, advanced manufacturing, solar energy technology, and various careers involved in the production of hand-held calculators. All of the classes were extremely well received by the Hart School District's middle school and high school students.

Among the many exhibitors were LSL Instruments (makers of electric guitars), SPOD Precision Design (makers of accessories for electronic controls in automotive vehicles) and Remo (makers of drums and accessories). LSL founder, Lance Lerman, and SPOD owner, John Angelastro, were presented with Certificates of Recognition by the City of Santa Clarita for their participation in Manufacturing Day 2017.

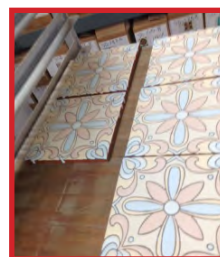

Los Angeles Valley College: “Pathways to Apprenticeship”

For the third consecutive year, Los Angeles Valley College, in conjunction with Goodwill Industries of Southern CA and the Office of Congressman Tony Cárdenas of the 29th District, hosted a Manufacturing Day event on October 17th. The theme this year was “Pathways to Apprenticeship.” Over 25 manufacturing companies showed their products to the local high schools, community college students, and other attendees.

Arto - Gardena

Arto, based in Gardena, CA, joined in the Manufacturing Day celebrations this year by opening their facility for a presentation and a tour on October 6th. Local students, bankers, and others came out to support Arto which has been making handcrafted concrete and ceramic products in Southern California since 1966. Attendees experienced the full manufacturing process, including mixing and molding concrete, extruding and firing clay, packaging and logistics, and (always the highlight) handpainting of the ceramic decos.

Bay Cities Container Corp. - Pico Rivera

Bay Cities Container Corp., based in Pico Rivera, joined in the Manufacturing Day festivities on October 6th by conducting a factory tour and presentation. Students from Rio Hondo College participated in the event. Everyone was shown how product packaging and displays are made from concept to reality. A group photo was taken and Bay Cities' digital printer produced life size prints. Digitally printed Manufacturing Day Thank You packages were given to all attendees.

Electron Devices - Torrance

ELECTRON DEVICES

On October 5th, L3 Electron Devices, located in Torrance, hosted State assembly member Al Muratsuchi, representing California's 66th Assembly District. The events began with Assemblyman Muratsuchi presenting the President of L3 Electron Devices, Murray Kennedy, with a Manufacturing Day Certificate. In attendance for the ceremony were various L3 executives and Jim Watson, President & CEO of CMTC. Afterwards, everyone toured L3's facility. L3, which manufactures traveling wave tubes for satellite and defense platforms, then gave a presentation on their expected growth and their commitment to their Torrance facility.

Los Angeles Cleantech Incubator (LACI) - Downtown Los Angeles

The Advanced Prototyping Center (APC) at Los Angeles Cleantech Incubator (LACI) held a Manufacturing Expo, facility tour, and a presentation on October 6th. Local area students and others who attended were able to interact with local entrepreneurs who are developing their products on site. Participants were also treated to tours of the APC Training Center rooms, and heard presentations from representatives in the design, prototyping and manufacturing departments.

Make it in LA - Downtown Los Angeles

Maker Walk LA held their inaugural Manufacturing Day event on October 6th. The event was open to the public and those who attended were able to interact with local entrepreneurs, creatives, manufacturers, local brands, and the business community for an afternoon of self-guided factory tours, tastings, workshops, and demos at businesses within walking distance around the Arts District Neighborhood. Businesses that participated in Maker Walk LA were Lalaland (leather shoe and bag factory); Oblong (collaboration systems); HIVE (LED lighting systems); Angel City Brewery (beer); Greenbar Distillery (spirits); Blue Bottle (coffee roasting); COMUNITY (locally made shoe brand); LADWP (power substation); Sew FYI (apparel); Arts District Co-op (artisanal goods); Advanced Prototyping Center w/ LACI (mini-workshops).

Hi Tech Precision - La Verne

Hi Tech Precision in La Verne participates in Manufacturing Day annually by opening their doors to students and the community for facility tours and presentations. This year they had a special guest in attendance, Congresswoman Grace Napolitano. The Congresswoman, students, and others were given a 30 minute tour showing Hi Tech's CNC Lathes and CNC Mills in action. Hi Tech Precision, a family-owned business, is committed to showcasing modern manufacturing to future machinists!

City of Torrance - Torrance

On September 26th, Steve Brand, CMTC's Strategic Communications Manager, was presented with a Proclamation by Mayor Pat Furey of Torrance, CA, recognizing CMTC and its partners for their efforts in promoting National Manufacturing Day and CMTC's efforts in increasing public awareness of modern manufacturing.

ORANGE COUNTY EVENTS

Reborn Cabinets - Anaheim

As they did last year, Reborn Cabinets in Anaheim, CA hosted a fun Manufacturing Day event on October 6th, including a facility tour, job fair, and presentation. Juniors from Sunny Hills High School arrived in the morning for the facility tour, which included viewing the office processes (engineering/design, customer service and purchasing), the manufacturing area, and finally the assembly and shipping departments. In the afternoon students participated in the job fair and interacted with the local businesses that exhibited at the event.

Hydraflow - Fullerton

HYDRAFLOW

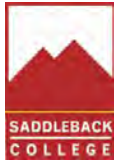

Hydraflow, located in Fullerton, CA, participated in Manufacturing Day by opening up their doors on October 5th for a facility tour and brief presentation. Seniors from Sunny Hills High School, and other attendees, viewed videos about Hydraflow's fluid transfer solutions, toured various departments, were given hands-on exposure to product examples, and were able to participate in a question and answer session.

North Orange County Community College District

NORTH ORANGE COUNTY
COMMUNITY COLLEGE DISTRICT

ORANGE COAST COLLEGE

SANTA ANA COLLEGE

Fullerton College

The North Orange County Community College District participated in Manufacturing Day by organizing a week full of events from October 2nd through the 6th. The week began with students from the following high schools visiting Orange County manufacturers who opened their doors to give tours of their facilities.

*Kennedy High School ■ Valley High School ■ Costa Mesa High School
Anaheim High School ■ Mission Viejo High School ■ Foothill High School
Sunny Hills High School ■ Anaheim Union High School District*

Manufacturers the students visited included:

Urban
Workshop
What will you make?

M&R
Engineering

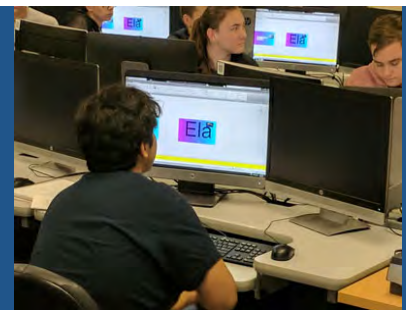

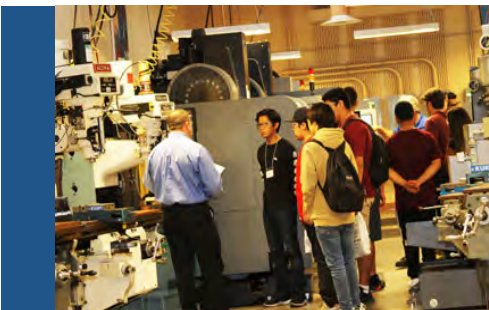

HYDRAFLOW

On Friday, the events continued with students from the following high schools visiting the advanced manufacturing departments at Saddleback College, Santa Ana College, Orange Coast College, and Fullerton College.

*La Vista High School ■ Savanna High School ■ Trabuco Hills High School
El Toro High School ■ Mission Viejo High School ■ Valley High School
Kennedy High School ■ El Modena High School*

At Fullerton College, Assemblywoman Sharon Quirk-Silva presented a Certificate of Recognition recognizing CMTC, and its partnering organizations, for their efforts in organizing and promoting Manufacturing Day events. On hand to receive the award was CMTC's President and CEO, James Watson. Also present were Greg Schulz, Ed.D (President of Fullerton College) and Cheryl Marshall Ed.D (North Orange County Community College District Chancellor) who spoke to the students at the presentation ceremony.

RIVERSIDE COUNTY EVENTS

Brenner-Fiedler - Riverside

On October 6th, Brenner-Fiedler, located in Riverside, CA, hosted a Manufacturing Day event which included a facility tour, games and presentations. The day began with five bus loads of students arriving from Alvord Continuation High School, Ramona High School, and Colony High School. Brenner-Fiedler, a premier Automation & Pneumatic provider for original equipment manufacturers (OEMs) and end-users, provided students and other attendees the opportunity to see manufacturing in action -- from panel building to robot planning.

A special thank you to Dr. Virginia Kelsen, Executive Director of Career Readiness of the Chaffey Joint Union High School District, for coordinating the effort so that the seniors from Colony High School Video Game Design and Pathway classes could participate in the days' activities. And another big thank you to Danny De La Mora, Relationship Manager/Commercial Banking for arranging for Bank of America/ Merrill Lynch to provide lunches for the Colony High School students. After all, what's a field trip without some good food!

Deborah Kloman Lichter, Vice President of Operations at Brenner-Fiedler who, along with the rest of the staff at Brenner-Fiedler, did a great job in organizing the fun day of activities for everyone that attended.

SMS Fabrications - Riverside

Not to be outdone by Brenner-Fiedler, SMS Fabrications, also in Riverside, hosted a Manufacturing Day event on October 6th. Attendees, which included students from Colony High School, were treated to a tour of the facility where they learned about laser/waterjet cutting, sheet metal fabrication, and precision welding.

California Manufacturing Technology Consulting® (CMTC)
690 Knox Street, Suite 200 | Torrance, CA 90502 | 310.263.3060 | www.cmtc.com

City of Murrieta - Murrieta

The City of Murrieta and CMTC held their second annual Manufacturing Day Event this year. The celebration began on October 3rd at City Hall where CMTC was presented with a proclamation officially designating October 6th as Manufacturing Day in Murrieta. The City held their #MadeinMurrieta event on October 6th at the Murrieta Innovation Center. Mayor, Rick Gibbs spoke to the students and others in attendance about the importance of the manufacturing sector to the City of Murrieta. Various local companies exhibited at the Expo where lots of great discussion and networking took place. Students, school district personnel, city dignitaries, and other attendees were then treated to a tour of two local manufacturing facilities, Cryoquip and iA-Robotics. Cryoquip is a leading fabricator of high quality cryogenic vaporizers and industrial gas equipment and iA-Robotics provides global robotics automation solutions.

SAN BERNARDINO COUNTY EVENTS

Goodyear Rubber - Rancho Cucamonga

On October 6th, Goodyear Rubber of Southern California, located in Rancho Cucamonga, CA, participated in Manufacturing Day by hosting small private group tours of their facility. On hand for one of the tours was Assemblyman Marc Steinorth, from the 40th District, along with Jenny De La Mora, Business Services/ Special Projects at County of San Bernardino. Attendees then took an informative tour to learn about diversified rubber manufacturing and Goodyear's operations.

690 Knox Street, Suite 200 | Torrance, CA 90502 | 310.263.3060 | www.cmtc.com

SAN DIEGO COUNTY EVENTS

San Diego EDC - El Cajon

San Diego County held several Manufacturing Day events over the course of the week of October 2nd.

On October 3rd, The East County Economic Development Council, the San Diego East County Chamber of Commerce, Grossmont-Cuyamaca Community College District, and San Diego Workforce Partnership hosted a Manufacturing Expo

& Resource Fair at Allen Airways Flying Museum in El Cajon, CA. The event attracted elected officials, manufacturers, students, and community members. Approximately 22 resource providers and 35 manufacturers, including CMTC clients Deering Banjo, Taylor Guitars, DaMar Plastics, and Precision Metal Products exhibited at the on-site expo. The Expo also included a variety of sector-focused and employment-focused workshops for the attendees.

During the festivities, CMTC was presented with two Certificates of Recognition. The first Certificate, from California Senator Joel

Anderson, was in recognition of CMTC's "Outstanding Community Service," for our commitment to fostering economic growth in San Diego, and our dedication to providing employment opportunities through our participation in East County's Manufacturing Day 2017. The second Certificate, from Assemblyman Randy Voepel from the 71st District, was in conjunction with the 2017 East County Economic Council - Resource Fair, recognizing CMTC's contributions and commitment to influencing a strong economy in San Diego and for our support of the Manufacturers Expo.

Mira Costa College - Carlsbad

**COMMUNITY EDUCATION
& WORKFORCE DEVELOPMENT**

MiraCosta College's Technology Career Institute (TCI) (part of MiraCosta College's Community Education & Workforce Development department) hosted a Manufacturing Day Expo on October 4th on their campus in

Carlsbad, CA. The Expo included a "Manufacturers Networking Hour," the "North County Resource Fair" (which hosted almost 30 exhibitors, including manufacturers and companies providing employment and other business resources), and the "Third Annual Open House" (which included guided tours of the Technology Career Institutes' engineering, technician and machinist labs and facilities). Among others, attendees included students from the Vista Unified School District, school administrators, elected officials, and community members.

California Manufacturing Technology Consulting® (CMTC)
690 Knox Street, Suite 200 | Torrance, CA 90502 | 310.263.3060 | www.cmtc.com

On October 5th, the San Diego Business Journal hosted their 2017 Manufacturing Awards “Celebrating Regional Excellence” at the Westin Hotel in San Diego, CA. The awards were categorized by company size: small company (1-49 employees), medium company (50-99 employees), large company (100+ employees), and mega company (1,000+ employees). A sampling of finalists, included: Carlsbad Technology, Evison Solar International, Federal Health Sign Company, Hardy Process Solutions, nonComposix, Saint Gobain Performance Plastics, Sidus Solutions, Space Micro, Spectrum Assembly, Inc., Valley Box Company, Inc. and Vet Powered, LLC. Congratulations to Auroralight, Inc. for winning the award in the small company category.

San Diego Regional Economic Development Corporation - San Diego

On Manufacturing Day, October 6th, the San Diego Regional Economic Development Corporation (SDREDC) hosted their annual Manufacturing Day Breakfast at Liberty Station Conference Center. The event began with opening remarks by Mark Cafferty, President & CEO of the SDREDC. The agenda also included presentations by Andrew Oram, Client Consultant for Arthur J. Gallagher & Co., and Rafael Castellanos, Commissioner of the Port of San Diego. Also included in the day's events was a panel discussion which included Darryl Anunciado, CEO of Action Drone Inc.; David Jacobs, Chairman of Anchor Audio; Kim Michaels, Director of Turbomachinery Operations at Solar Turbines; and Bill Raggio, founder of Rayotek. On hand to enjoy the festivities were college students, elected officials, community leaders, manufacturers and various resource companies.

Did you know? Manufacturing Day was designed to expand the knowledge about and improve the general public's perception of manufacturing careers and manufacturing's value to the U.S. economy. Manufacturing Day is for students, parents, educators, media, customers, suppliers and the community at large. Visitors to the organizations that sponsored Open Houses and other events learned about real career opportunities, training, new manufacturing techniques and resources.

Acknowledgment: We would like to thank all of the organizations and personnel that participated in Manufacturing Day, along with all of our own personnel who worked tirelessly throughout the year to contribute to the success of Manufacturing Day. The list below represents the **California organizations** that participated in Manufacturing Day on October 6th (and on various other days). Their contribution to the local economy and their involvement with California manufacturing is to be commended.
