

Whether on Land, Air, or Sea...
Bryant Fuel Systems Help
Keep Your Fuel Flowing

ABOUT BFS

Core Competencies

Bryant Fuel Systems, LLC (BFS) is a Veteran owned small business with abundant Engineering and Manufacturing capabilities. BFS has been manufacturing high quality, turn-key, rugged terrain tested, above ground fuel delivery systems since 1989. Our systems are in service with every branch of the U.S. Armed Forces at over 60 installations around the world and are in operation at commercial and government sites in 35 states, 2 territories and 21 countries. BFS is a preferred manufacturer for military, commercial and government clients worldwide.

Partnership Expertise

BFS attributes much of its success to a philosophy of teamwork and partnership. Though we strive to be the best in the industry and are equally competitive, we are willing to engage with good partners who understand the need for cooperation and collaboration in order to serve the highest needs of our clients.

Key Clients and Installations

Boeing	NASA
General Atomics	Grimmway Farms
SpaceX	Chevron
Lockheed	CH2M Hill
Ft. Irwin	State Department Panama
US Army Corp of Engineers	State of California
Midway Island	Perini
US Navy	Union Pacific
LAFD .	TRC Solutions, Inc
USAF	Interstate Oil
USMC	Fluor Irvine

OUR PRODUCTS

Military, Commercial and Government Sectors

Above Ground Fuel Systems

Bryant Fuel Systems, LLC, (BFS), has been manufacturing high quality turn-key, rugged terrain tested, above ground fueling systems since 1989.

- Manufactured to ISO 9001 Standards
- Material: Carbon Steel or Stainless
- Fuel Delivery/Pump Rates From 10 GPM to 600 GPM
- Single Tanks or Large (Multiple Tank) Fuel Farm Systems
- Tank Sizes: 250 Gallons – 75,000 Gallons
- Tank Types: Single Wall(UL 142), Double Wall(UL 2085), Fireguard Rated, BattleJacket Coated, 110% Containment, Internally Coated, UL Listed, ISO Certified, Containerized and Design Patented
- Tanks for Petroleum Products: Gas, Diesel, Biodiesel, Jet A, Avgas, E-85 Alternative Fuels and Unleaded/MOGAS (California Air Resources Board (CARB) Certified)
- Tanks for Many Industries and Applications: Aviation, Petroleum, Education, Construction, Agriculture, Law Enforcement, Mining, Industrial, Military, Municipal Government, Federal Government, Space, Fire, Heavy Equipment and Maritime/Marine
- System Components with the Highest Quality and Reliability (Meters, Piping, Electrical, Pumps, Valves, Switches, Hoses, Hose Reels, Dispensers, Card Readers)

Key Industries Served

Agriculture

ISO Containment Systems

Introducing Bryant Fuel Systems (BFS) International Standards Organization (ISO) Containerized Fuel System for Tactical Ground and Aviation Jet Fueling Operations. These systems meet all requirements for intermodal transportation on land, sea or air and give clients the versatility to deploy fueling resources anywhere in the world.

- Highly Transportable
- Incredibly Durable
- Rugged Terrain Tested
- Fully Integrated
- Easy to Use
- Quickly Deployed Anywhere Using Military Aircraft

Our ISO Contain have been sold to every branch of the U.S. Armed Forces including: the U.S. Army, U.S. Air Force, U.S. Navy and U.S. Marine Corp.

Available Sizes Include:

- 2,000 Gallon (8' X 8' X 10')
- 4,000 Gallon (8' X 8' X 20')
- Designed for CH-46, CH-47 and CH-53 Military Transport.

Industrial Storage Tanks

For over 30 years, Bryant Fuel Systems (BFS) has been manufacturing high quality industrial storage tanks that offer clients dependable turn-key solutions for any fuel related or other industrial fluid storage needs. Whether you require waste oil tanks, generator support tanks, water storage tanks, chemical storage tanks, potable water tanks or petroleum fuel tanks, we design and engineer our tanks to your specific needs and requirements.

We manufacture our tank storage systems to be self-containerized, relocatable and externally coated with a highly effective corrosion preventative primer SteelShield RTT-3 that extends the life of the tank. Additionally, because we build to ISO Quality Standards, tanks can be moved around easily without having to worry about them falling apart...this enables you to place them where the highest demand is.

Structural Fabrication

With Certified Welders and an ISO 9001 Quality Process, Bryant Fuel Systems, (BFS), can Design and Manufacture any of the following:

- Pipe Supports
- Stairs and Platforms
- Tank Manways
- Pipe Manifolds
- Steel Ladders (With or Without Cages)
- Safety Railings
- Fueling Cabinets
- Fueling Trailers
- Welding Repairs

SteelShield RTT-3

Bryant Fuel Systems has teamed up with an innovative coatings manufacturer to bring you a robust anti-corrosion primer called SteelShield RTT-3. This primer will be sprayed on the exterior surfaces of all BFS Tanks as an essential primer coat that we believe will result in extra protection against the possibility of corrosion, especially for tanks being installed in corrosive, rugged terrain environments. SteelShield RTT-3 has the unique ability to create an ionic bond with the metal and contains oxygen scavenging properties which prevent corrosion from ever taking root.

Battle Jacket®

BattleJacket® Technology is designed to aggressively bond to the outside of a tank, offering intimate secondary containment. Each of the three layers in the patented structure performs an important function.

Equipment Partners

BFS is a distributor/dealer for several of the OEM's listed below. We use only the highest quality components in our Turn-Key Systems and are happy to provide quotes or product information upon request.

- Fluidall DEF and Lubrication Equipment
- GIR Fleet Fueling Card Access System
- Skybitz Cellular Tank Monitoring System
- Dover/Wayne Dispensers
- Blackmer Pumps
- Facet Filtration
- FE Petro Submersible Turbine Pumps
- Fill Rite Pumps
- TCS Fuel Dispensing Meters

Service Partners

- RHC Constructing Quality/MidCon)
- Falcon Services
- Rugged Terrain Technologies

Services

- Rental Units (Monthly/Term Rentals)
- NACE Level 3 Inspection Services
- Fuel System Upgrade Services
- Fuel System Maintenance Program
- BattleJacket® Coating Services
