WELCOME to CMTC's "News for Manufacturers" eNewsletter!

In this issue: Should I Hire A Consultant - Advantages and Considerations; Understanding Manufacturers' Challenges Entering the New Year; Big Ideas Conference & Expo; Closing the Skills Gap for California's Manufacturing Sector; ExporTech™ Inland Empire (Corona) Begins in March; 2019 Inland Empire Manufacturing Summit; An Exciting Event for Made in CA Members; Manufacturing Automation Via Robots & Software Technologies; and more!

Industry News

SHOULD I HIRE A CONSULTANT - ADVANTAGES AND CONSIDERATIONS The thought of hiring a consultant doesn't always

appeal to manufacturing leaders. It's easy to think, why should I hire an outsider to come in and tell me how to run my business? But, unless your business

consistently hits its goals, maintains perfect quality control, has secure sources of raw materials, regularly finds ways to reduce costs, and maintains a satisfied customer base, an outsider may be exactly what you need. A good consultant doesn't come in and tell you how to run your business, but rather works with your team to improve your business. That's not to say there may not be some drawbacks. So, here's a closer look at what a consultant does, the advantages, and additional considerations. Read More>>

UNDERSTANDING MANUFACTURERS' CHALLENGES ENTERING THE NEW YEAR

In 2018, the Manufacturing Extension Partnership (MEP) program celebrated their 30th anniversary.

The mission of the MEP program has always remained the same throughout those 30 years ... to help strengthen and empower U.S. manufacturers. And, for the last 10 years, the MEP program (which includes CMTC as the largest MEP Center) has conducted a survey of its clients to ask about their most pressing challenges. The responses to the survey helps the MEP Network to remain flexible in responding to the problems clients are facing.

So, what exactly are the challenges manufacturers are currently facing?

FOR UV+EB

BIG IDEAS CONFERENCE & EXPO TECHNOLOGY CMTC is proud to be a sponsor of the The BIG IDEAS

for UV+EB Technology Conference set for March 19 and 20, 2019, at the Crowne Plaza in Redondo Beach, California. This event focuses on the BIG IDEAS in the global space for UV+EB

technology and will include 3D printing, additive manufacturing, UV LED, printing, automotive, data-driven materials and more. The BIG IDEAS conference offers the industry a forum to discuss the future of UV and EB technologies while learning more about the applications and science that will enable developments two years, five years and ten years down the road. Spotlight on CMTC & California's

Manufacturing Network INDUSTRY VOICE: CLOSING THE SKILLS GAP

Jose Anaya, who oversee's the Community Advancement Division and Business Training Center at El Camino College (one of CMTC's partners in

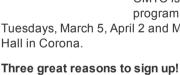

FOR CALIFORNIA'S MANUFACTURING SECTOR

California's Manufacturing Network) recently authored the "Closing The Skills Gap For California's Manufacturing Sector" article for Company Week, an online publication geared toward the manufacturing sector. This informative article sheds light on the upcoming skilled worker shortfall that will face all industries by 2030, California's passage of the 2016 bill to fund the Strong Workforce Program, and the response by Community Colleges throughout California to address the skills shortages and work

closely with local partners in education, government and industry to train a new generation of workers. Read Article>>

BEGINS IN MARCH!

EXPORTECH™ - INLAND EMPIRE (CORONA)

EXPORTECH"

An Export Acceleration System for Achieving Profitable Growth

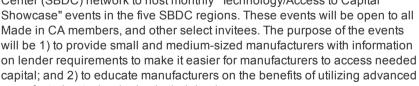

CMTC is excited to bring our next ExporTech™ program to the Inland Empire. Sessions will be held Tuesdays, March 5, April 2 and May 7th in the Multi-purpose Room at City

 ExporTech is the only national program that helps individual companies develop an export plan (in 10 weeks!) Exporting companies tend to grow 22% faster than non-exporters

Through CMTC's ExporTech Scholarship Program, your initial investment for the entire three sessions is only \$750!

Via Robots & Software **Technologies** (a blog posted by CMTC Service Partner, Manex)

Many people may hesitate

when it comes to automating their workforce. One can speculate that robots or other types of automation will require significant start-up costs, as well as the resources (such as programmers and engineers) to handle the implementation. However, manufacturing automation can offer your business four critical benefits: higher productivity, lower costs, workplace safety, and high-level focus. Read More
