

Rack-ups®

Rack-Ups are straps designed to help manage electrical, CATV and fiber-optic cables without pinching and damaging like plastic ties. Plus, Rack-ups make it easy to adjust, remove or add cords, and the 0.25" brass grommet allows the strap to nailed, screwed or bolted to a variety of surfaces.

CG Series

Center Grommet Rack-ups allow you to organize portable rack-mounted gear.

EG Series

The End-Grommet Rack-ups are a great choice if you need to run cables along shelves, walls or ceilings.

BG Series

The Buckle-Grommet Rack-ups are great for attaching cables to equipment racks.

N Series

The N Series is our simplest strap, designed to keep long stretches of cables bundled together neatly, yet still accessible.

Customizable

Quick turn around
