

Seamlessly manage interdisciplinary care teams while performing individual member assessments and monitoring interventions.

A visually intuitive, tremendously powerful and intelligent solution for today's care management challenges.

HMS Essette's Care Management platform provides unique and proven solutions that, combined with evidence-based content and cutting-edge technology, help you increase efficiency, meet your specific business requirements and react quickly to changing market and regulatory challenges. Our ongoing commitment to connecting fragmented IT systems and finding novel and better ways to use data, continues to enhance our uniquely agile care management platform.

Essette's Care Management platform's

advanced, modular architecture—engineered to interface with your existing vital organizational tools including eligibility/claims systems, analytics and portals—puts personalized, data-driven and actionable care plans at your fingertips.

Case Management Module

Our highly regarded clinical and technical experts listen to hundreds of stakeholders representing health plans, third party administrators, management service organizations and independent practice associations who all use the **Essette Case Management module** to continuously enhance its capabilities. All these constituents use **Essette** to reduce care delivery costs, control resources, improve quality scores, retain members, attain regulatory compliance and enhance revenue—including Medicare, Medicaid and commercial plans.
