

Reactivation or Addition of a
Network License

Description: After purchasing a new network license seat, modifying products owned, or updating versions, a reactivation will be required on the SolidNetwork License Manager (SNL).

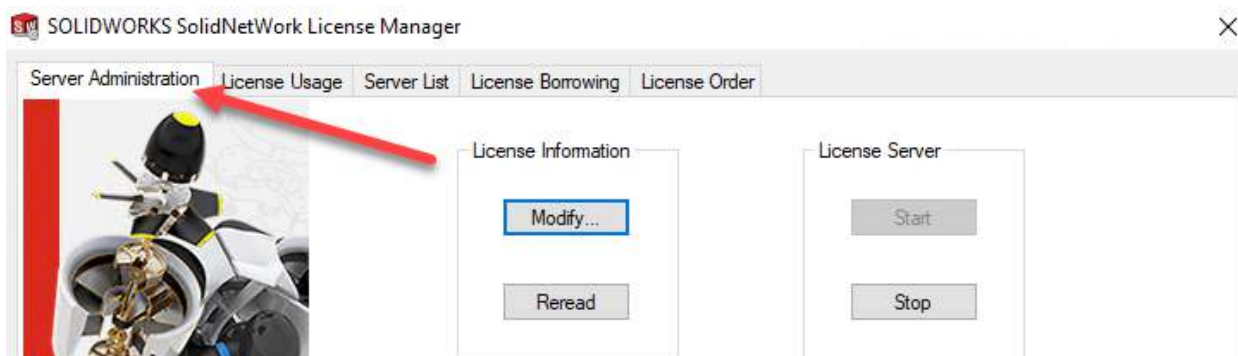

Note: For the SOLIDWORKS server administration to recognize your purchase it may take up to 24 hours to complete.

From the server running the SolidNetwork License Manager:

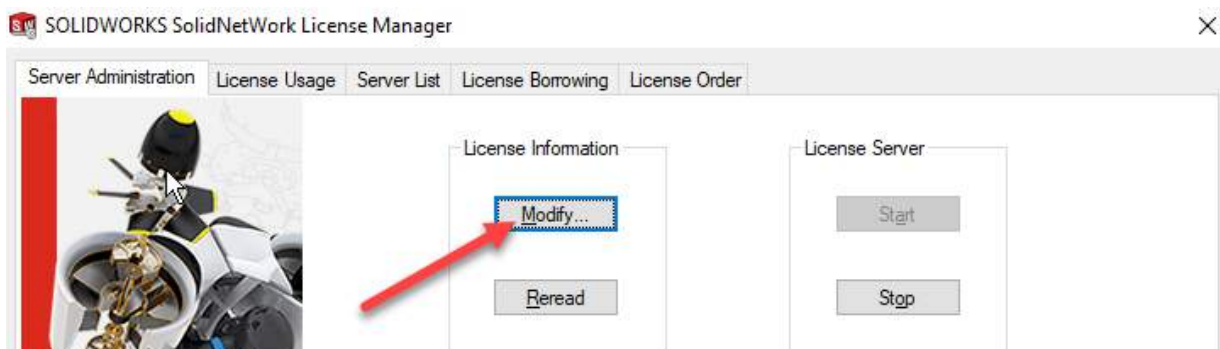

STEP 1: Browse the Start menu into the **SOLIDWORKS Tools** folder and select the **SolidNetwork License Manager Server**.

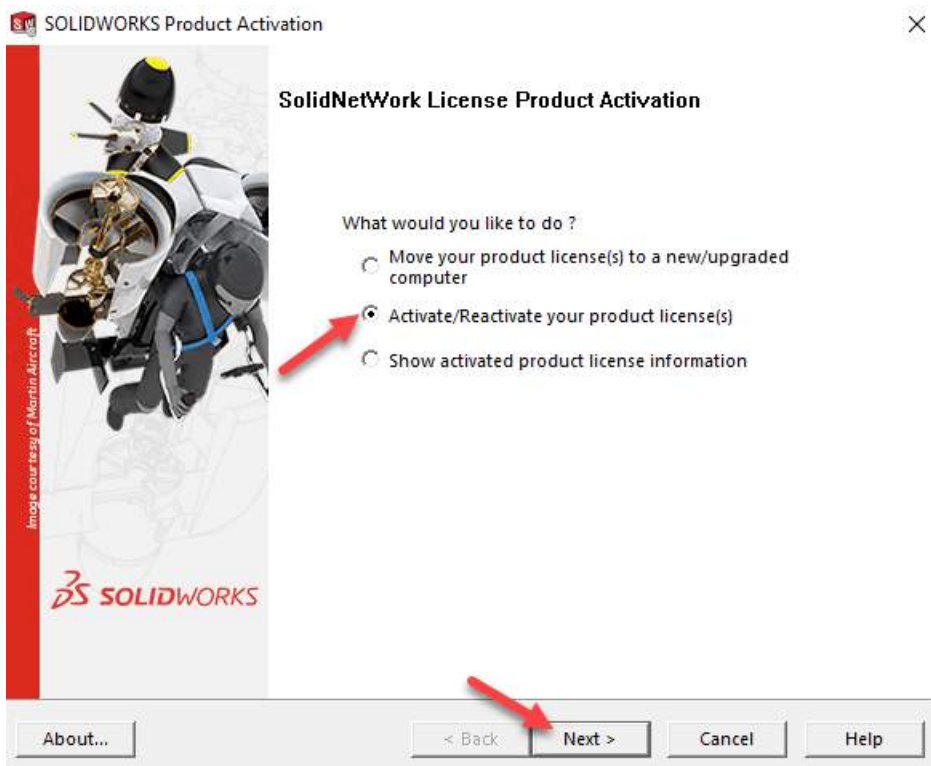

STEP 2: Select the **Server Administration** tab.

STEP 3: Choose **Modify** to access the activation options.

STEP 4: Choose **Activate/Reactivate** your product license(s) and then click **Next**.

STEP 5: Ensure that the **Firewall Option** is checked if in use. Check if the **Computer Name** and default **Port Numbers** (25734) and **Daemon** (25735) are correct. Click **Next**.

SolidNetWork License Server Information

A firewall is in use on this server

Computer Name:
