

Jatheon cCore Overview

DISCOVER INFORMATION ARCHIVING SOLUTIONS THAT SET THE INDUSTRY STANDARD

Jatheon's cCore is a robust, secure and scalable on-premise archiving solution made with enterprise-grade hardware and equipped with sophisticated proprietary archiving software. cCore's software captures and indexes all incoming, outgoing and internal messages, checks them against user-defined rules and stores them for future search and easy retrieval.

We created an all-in-one on-premise archiving solution that's cost-effective, comprehensive and easy to deploy. With cCore, you'll simplify archiving, retrieval and management of corporate email and social media, meet compliance standards easily, respond to eDiscovery requests quickly and increase your overall productivity and efficiency.

Comprehensive Search Functions

cCore contains cutting-edge search functions and operates through a secure, web based interface or an integrated Microsoft Outlook Plugin.

Customized Message Monitoring and Easy Compliance

You can monitor messages for company policy violations or regulatory compliance. Users have access to all of their personal data and compliance officers can package information as PST files or export messages as PDF.

Advanced Reporting and Exporting

All cCore appliances include advanced message reporting, exporting to PDF, PST or EML file formats, the ability to save common searches, searchable audit trail for all activities, LDAP and Active Directory integration and secure access via a web browser or Outlook Plugin.

Compatible with All Major Platforms

cCore works across many network platforms and email systems with interfaces available for platforms such as MS Exchange, GroupWise, Lotus Notes and others.

Proprietary Self-Healing Storage Technology

Email archives are precious corporate assets. To protect them from potential damage or loss, we employ self-healing storage technology which continuously repairs damaged data caused by deterioration of magnetic disks.

24/7 Proactive System Monitoring and Response

Jatheon cCore is backed by Jatheon Care, our unique, comprehensive customer service and support plan that includes 24/7 remote monitoring, tech support, hardware maintenance, software updates, free hardware refresh and more.

Extensive system status and performance data are delivered directly to Jatheon technical support. This allows a rapid, proactive response and intervention for any software, hardware or network connectivity issues, reduces the load on your IT team, increases your organizations' efficiency and productivity and adds to your peace of mind.

The modular design of our on-premise archiving solution allows users to easily add modules to cCore for additional storage needs (Jatheon Xpand) or archiving capabilities (our social media and mobile archiving module, Jatheon CTRL).

Choose Your Perfect Match: Jatheon's Ultimate Price / Performance Solutions Lineup

With Jatheon cCore, your organization will have the tool for simple archival, management and retrieval of corporate email, social media and other unstructured data. Requiring minimal IT support, Jatheon cCore product line offers scalable turn-key solutions suited to small, medium and large enterprises in regulated industries such as government, healthcare, education or legal.

About Jatheon

We founded Jatheon Technologies Inc. in 2004 to empower companies in their efforts to ensure email compliance and facilitate eDiscovery.

Today, we are leaders in the archiving industry, with **5+ billion processed messages** and unique on-premise and cloud archiving and governance solutions. We continue to raise the bar throughout the industry with our latest enterprise-grade **cCore** archiving appliances, a powerful archiving, retrieval and dynamic monitoring software and best-in class tech support, **Jatheon Care**. In 2017, we built **Jatheon CTRL** - a social media and mobile archiving add-on that smoothly integrates with our email archiving software.

It is our mission to ensure security and bring peace of mind to businesses, government agencies, educational, financial and healthcare institutions across the globe. We're headquartered in Toronto, but we serve clients worldwide through our network of global business partners. For more information, please visit www.jatheon.com.
