

12 Bay Charger

For Motorola®
 TLK-100™

*battery not included

part # AT6088A

PRODUCT FEATURES:

- Charge up to 12 batteries at once
 - Use as desktop or wall mount
- Rapid and simultaneous charging
- Batteries can be charged anytime
 - Weight 18 lbs.
 - Dimensions 10.5" x 6.6" x 18"
 - Input voltage 110/240VAC
- Output per bay: 4.2V +/- 0.2%, 1A
 - Heavy-duty, robust aluminum construction withstands rugged use

Designed to support today's Li-Ion batteries. As public support agencies and commercial enterprises deploy more and more mobile devices, the need to charge and maintain larger quantities of batteries rapidly becomes critical. Managing dozens of individual chargers is not practical and no longer necessary.
