

How-To: The Art of Collaboration

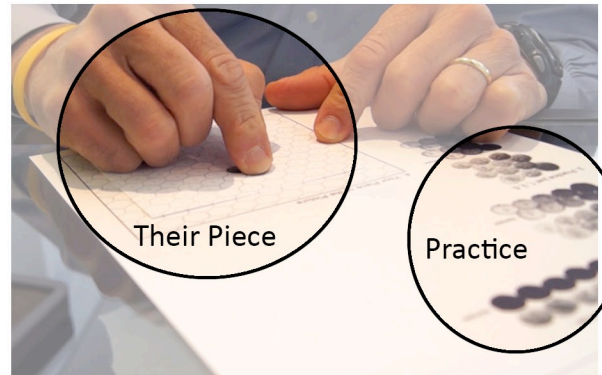

Whether you have an audience of 10 or 500, creating an incredible work of art with all your participants is a great way to make everyone feel connected. And it's something you could proudly hang in your Headquarters for years to come! This uniquely designed interactive art project with artist Phil Hansen can be done in just 3 simple steps.

Step 1 Creation (20-30 minutes)

Phil leads the group through an exercise using their fingerprints.

Each participant creates a piece of the larger picture.

The pieces are collected.

Step 2 Assemblage (2-10 hours depending on group size)

Phil departs from the group, assembles the artwork on his own and makes a fun video showing the creation process.

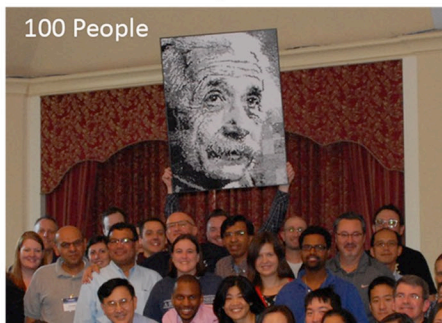

Step 3 Reveal (5 minutes)

Phil returns to the group, plays the creation video, and the artwork is revealed!

Hang the artwork in your office for years of memories and conversations to come!
