

DeepMind - Maximum Welcome for Top Talent

“
It's just awesome.”
Eunbyung, a DeepMind intern

“
Very good assistance.”
Valerio, a DeepMind intern

Founded in London in 2010 and backed by some of the most successful technology entrepreneurs in the world, DeepMind (now an Alphabet company) is the world leader in artificial intelligence research and its application for positive impact.

The DeepMind PhD program is one of the most prestigious in the computer sciences field and, as such, it aspires to attract the best talent. The programs are important to the company as they pave the way to finding exceptional new hires to join DeepMind once they complete their studies.

Benivo began supporting DeepMind's Global Mobility team in 2017 with the objective of providing an enhanced welcome experience to interns while allowing the recruitment team to focus on finding great people.

Benivo's solution created a uniform experience for interns to ensure they feel completely welcome and supported by DeepMind.

Standardise the welcome experience

Challenge

Make all interns feel supported regardless of their preferred relocation package.

“

We needed a single solution to provide for interns who opt into a range of different benefits. The Benivo platform enabled this.

Gavin Bailey | Global Mobility Lead

”

Solution

Benivo provides a relevant experience and supporting tools to different populations, all hosted on the same branded platform.

Improve the experience with digital solutions

Challenge

DeepMind wanted to provide a digital experience which could match the experience of other digital platforms.

“

Benivo helped us deliver a digital experience with peer insights for our interns.

Gavin Bailey | Global Mobility Lead

”

Solution

Benivo uses social insights and cutting-edge user experience to deliver a relevant and personalized experience.

Less admin, more strategic work

Challenge

Initiating and supporting interns throughout their stay required several stakeholders taking action over multiple channels.

“

Each initiation or accommodation-related question lead to long and complicated email threads. Benivo helped us simplify our process and improve the intern experience.

Abby Pounder | Recruitment Team

”

Solution

Benivo identified which processes could be automated, and streamlined them to be part of the branded digital platform.

We help you make all employees welcome
