Benivo for Verizon Connect delivers an excellent experience to international early career employees who relocate to Europe.

With the integration of Fleetmatics and Telogis, Verizon offers a full range of fleet and mobile workforce solutions. As the company is rapidly expanding, it needs to attract the best talent regardless of where they are located. Making new recruits feel welcome is a top priority for Verizon Connect.

With a mix of local and international recruits, the HR team was overloaded with questions and administrative work. In order to deliver a better experience to the employees and ensure the HR team focus on strategic work, Verizon Telematics partnered with Benivo to deliver a pre-boarding and relocation support to its international recruits.
