“Clearwater Consulting Group was the keynote speaker for a WAVE (Women Adding Value and Excellence) event on having difficult conversations. They are polished, professional and engaging. With great insight into the content, they sought and encouraged audience participation. Most importantly, there were meaningful take-a-ways that were realistic and actionable. Based on the positive feedback, the event was beneficial to the audience. I would welcome the chance to work with Clearwater in the future. The Clearwater team would be an asset to any business seeking guidance about addressing business challenges.”

Anne Holder, UPS Director of Sales

Clearwater Consulting encouraged participation and the take-a-ways were meaningful, realistic, and actionable.

Authored by Clearwater Consulting principals Andrea Hopke and Becky Dannenfelser, the book *TOUGH TALK* is an ideal companion to the presentation on disarming difficult conversations.
