### DESCRIPTION

The HRAM-208 Remote Annunciator is a multiplexed annunciator that provides control, indication of common annunciator functions and 8 zones of LED annunciation. The HRAM-208 Remote Annunciator comes standard with 8 Bi-Colored LEDs which are automatically configured for either Alarm (Red) or Supervisory (Amber) to match the HCP-204 Series Fire Alarm Control Panels. The unit mounts in a 4 gang electrical box.

The HRAM-208 also comes equipped with common control switches for Signal Silence, Buzzer Silence, Lamp Test and System Reset. In addition it has LEDs for Power On, Common Trouble and Signal Silence. The HRAM-208 is equipped with a keyswitch which allows for the enabling and disabling of Common Control functions.

All points are identified by the corresponding label the slides in beside the LED. Up to three HRAM-208 remote annunciators can be used with the HCP-204 and HCP-204E Fire Alarm Control Panels.
