Kidde Engineered Fire Suppression System

Designed for use with 3M™ Novec™ 1230 Fire Protection Fluid

Pressure Operated Switch, Explosion Proof

Data Sheet

FEATURES

• For Use with UL Listed, ULC Listed, and FM Approved Systems

P/N: 981332

Notes:

• The toggle switch may be mounted in the base for either N.O. to N.C. or N.C. to N.O. contact transfer upon operation. The illustration above shows the position of the toggle when the switch is in the set position.

• Any load connected to the switch must not exceed the switch rating, and shall utilize a suitable protection device (i.e., circuit breaker, fuse)

• Remove the operating head to make electrical connections to the toggle switch. When replacing the operating head, ensure that the toggle engages the clutch. Tighten the cover screws securely.

• Class I, Group D Caution: To prevent ignition of hazardous atmospheres, disconnect the device from the supply circuit before opening. Keep the assembly tightly close when in operation.
