IVA ACCURACY & FINANCIAL PERFORMANCE

The Affordable Care Act (ACA) requires all insurers to hire independent auditors to validate the following data:

- Member demographic and enrollment
- Medical claims
- Health status

These validations must be in accordance with Health and Human Services (HHS), Risk Adjustment Data Validation (HHS-RADV), and Initial Validation Audit (IVA) procedures.

WHY CHOOSE HDVI AS YOUR IVA AUDITOR?

- End-to-end solution from the IVA to the SVA handoff
- Purpose-built platform to accelerate execution of individual reviews
- Real-time monitoring of audit progress through Tableau® driven dashboards
- Multi-channel approach to maximize record retrieval and minimize provider abrasion, utilizing our Secure Virtual Print technology (SVP)
- Member-centric audit approach presents a full picture of audit compliance and allows plans to prioritize actions through our proprietary wizard
- Experienced provider with proven technology and services to expertly manage a complex and time sensitive process
