

Position Title: HEDIS Abstractor (RN, LPN or Certified Coder)

Status: Contract for HEDIS 2018 (February through early May)

Reports to: Manager of Clinical Operations

Location: Work from home (Remote)

Company Overview:

Health Data Vision, Inc., is a fast-growing tech company that provides a SaaS-based healthcare analytics platform for medical records analysis and targeted solutions for HEDIS® Hybrid, Medicare and Exchange Risk Adjustment, year-round clinical data analysis efforts. Our mission is to deliver the technical innovation and expertise that enable payers to streamline risk adjustment and HEDIS® medical record retrieval and validation. The platform provides flexible scalable workflows and automation for medical records to support intensive project needs of health plans in the United States.

Job Summary:

The HEDIS abstractor is responsible for the review of medical records and documenting critical elements in HDVI's data entry system (MRCS).

Responsibilities Include:

- Attendance to online training course for medical record abstraction and data entry training
- Successfully passing post training exam with 95% or high accuracy
- Post training/testing - reviewing medical records to capture appropriately documented numerator events (e.g., blood pressure readings, cervical cancer screenings, etc.)
- Post training/testing – performing data entry into HDVI's data entry system (MRCS)
- Maintaining an accuracy score of 95% on all work submitted

Preferred Skills:

- Ability to adapt to changing priorities in managing a wide range of projects
- Must be able to work independently and in a team environment

Required Experience / Education:

- Active RN or LPN license - or -
- Certified coder from either AAPC or AHIMA
- Minimum of 1-year HEDIS abstraction experience
- Minimum of 3 years coding experience

Interested Candidates should send a resume to:
