

Position Title: Software Engineer (.NET)

Status: Full-Time

Reports To: Senior Vice President, Technology

FLSA: Exempt

Location: Glendale, CA

COMPANY OVERVIEW: Health Data Vision, Inc. (HDVI) is a rapidly growing California based healthcare technology company providing a state of the art medical record retrieval SaaS platform and services to support health plan risk adjustment and HEDIS compliance initiatives. HDVI is backed by Redhills Ventures, LLC and Upfront Ventures, a leading SoCal VC firm. We seek a full-stack .NET Software Engineer who can help us continue to grow and scale our industry leading SaaS platform. The ideal candidate is comfortable working with across the stack in a .NET environment and collaborating with the larger technology organization within a quickly growing, start-up environment.

Responsibilities include:

- Participate in the architecture and design of new and existing products. Work with stakeholders to define constraints and develop requirements.
- Develop functionality across the stack for our SaaS platform.
- Ensure guidelines and process across all technology initiatives are aligned properly.
- Contribute to continuously improving team productivity, code quality, tool and technology adoption.
- Provide solutions to complex problems with solution architectures and technical documents.
- Conduct peer code reviews as well as vendor code reviews.

Qualifications:

- **Education:** BS/MS in Computer Science or a related technical field preferred
- **Experience:**
- 1-2 years' experience with Knockout JS framework or something similar (Angular/Backbone)
- 2+ years' experience with C# API backend RESTful Web Services
- 1-2 years' experience with SQL Server – especially writing/troubleshooting stored procedures
- SPA experience
- Experience in front end MVC application architecture
- Experience with Object oriented javascript/jquery, html 5 and css 3
- Experience in creating re-useable UI components
- Experience with unit testing and TDD
- Experience working in a fast-paced Agile environment, preferably at a Start-Up
- Experience in full software life-cycle (SDLC) -- develop/test/build/deploy/etc.
- Excellent communication skills and ability to work in a team

Interested Candidates should send a resume to: Jason.colbert@healthdatavision.com

All qualified applicants will receive consideration for employment without regard to race, color, religion, age, sex, national origin, disability or protected veteran status, other protected status, or any other characteristic protected by local, state or federal laws, rules or regulations.
