EDUCATOR RESOURCE LINK	DESCRIPTION
Active Learning Templates	Interactive student documents designed to develop critical thinking and illustrate relationships between concepts, components of the nursing process and client care, client-related priorities, and more.
Civility Mentor	Learning tutorials and simulated scenarios address the role of civility in nursing, as well as civility in the academic environment, clinical environment, and professional practice. Virtual Interactions include resolving conflict in peer-to-peer, student-to-preceptor, and other conversations.
Dosage Calculation & Safe Medication Administration	An online study program including in-depth tutorials, interactive drills, assessments, and case studies that allow students to master pharmaceutical math skills at their own pace.
EHR Tutor	EHR Tutor offers your students a realistic charting experience with all standard charting, as well as specialty items, including Behavioral Health, Labor and Delivery, Newborn, Pediatric, Outpatient, and Home Health Care modules.
HealthAssess	Prepares nursing students to perform health assessments and builds their clinical judgment skills in a virtual learning and practice experience on authentic virtual clients. Virtual Practices include four focused client assessments, and a Virtual Challenge includes one head-to-toe assessment.
Learning System	A rich bank of 34 quizzes covers 10 content areas, including a comprehensive cumulative quiz. Perfect for formative quizzing to help educators determine if students understand specific content areas.
Nurse's Touch, Becoming a Professional Nurse	Active learning modules communicate the skills needed to become an effective, ethical, and valuable member of an interprofessional healthcare team and prepare students for life in a real clinical environment where professionalism is crucial.
Nurse's Touch, Professional Communication	Students learn how to communicate professionally with clients, clients' significant others, and members of the healthcare team, with the ultimate goal of client safety.
Nurse's Touch, The Communicator 2.0	Guides students through therapeutic communication techniques, providing them with repeated opportunities to engage with virtual clients in key client conversations — including those with high-risk clients.
Nurse's Touch, Wellness and Self-Care	This active learning tutorial provides health and wellness insights for both student nurses and their clients. From diet and exercise to sleep and disease prevention, students will learn about wellness principles and how to integrate necessary lifestyle changes into their practice.
Real Life	Uses screen-based simulation to encourage critical thinking, clinical decision-making, and clinical judgment with deep engagement in realistic client scenarios. Students are challenged to make important healthcare decisions as they progress through each scenario, significantly impacting client outcomes.
Skills Modules	Guides students step-by-step through essential nursing skills with media-rich tutorials, checklists, assessments with remediation, and more.
Video Case Studies	Offers students exposure to clinical scenarios and practice in clinical judgment responding to prompts, watching expert responses, reflecting, and quizzing.
