SAP BPC TRAINING FOR **IT PROFESSIONALS**

SUMMARY

Formal, structured training beyond consultant-led knowledge transfer has been shown to be a foundational component of a successful EPM program and critical for customer independence. Column5's EPM Academy offers an array of training options, courses, and delivery methods dedicated to maximizing business value with SAP's Enterprise Performance Management (EPM) Suite, including SAP BPC.

Column5's industry leading team of experts provides skilled resources, best practices, and proven approaches to implementations and knowledge transfer sessions covering topics such as:

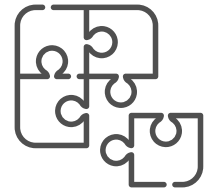

Reporting Skills

Business Rules

System
Administration

EPM Process
Integration
