(800) WOLGAST**

DENTAL DESIGN & CONSTRUCTION EXPERTS

Wolgast Corporation is the leading provider of construction services in the Great Lakes Bay Region. For over 70 years, we've delivered specific, customized solutions to each of our clients. As one of the few local firms offering our own staff of experienced construction professionals and a team of architects and engineers, Wolgast provides tailored construction solutions to solve the individual construction needs of our clients at an expedient pace. Because we're a systems driven company, we can keep our promises for your project to be on time, every time.

Solid Foundations...Solid Results...the Wolgast Way!

DENTAL CONSTRUCTION SERVICES:

The advantage of Design/Build for Dental Offices is the simplification that it offers Dentists who may be too busy to focus on a construction project, or who need their building built quickly and professionally. As the Design/Builder, Wolgast becomes the owner's advocate, leading them through site planning, permitting, design, value engineering, and construction. Also, a cost to build is established early and having the architect on the construction team provides open communication throughout construction.

SPECIALTY SERVICES:

Design/Build - Architectural Drawings
Inclusion of Special Equipment
Consideration of Patient Flow & Comfort
Shielding for X-rays
Accommodations of Supplier Relationships
