

DRUCKER SCACCETTI

TAX AS A BUSINESS STRATEGY®

All:

Our firm is actively addressing the coronavirus threat on our operations. The health and safety of our team members, our clients and our communities is imperative as we all closely monitor the situation and prepare for the possible impact on our area.

Should the situation escalate to where it is strongly suggested or mandated to take precautionary action, including vacating our offices, we will adopt our contingency plan to allow uninterrupted service to our clients. Our advisors and staff will continue to be accessible via a temporary mobile workforce plan. If an office closure is necessary, we will communicate it by email, Twitter and LinkedIn, and through our website.

Please stay vigilant and be safe as we all continue to monitor the situation.
