What to Expect

The Advanced program takes the RealJams experience you’ve come to know and love to the next level! Students will be placed into bands according to their skill level and musical interest. Once placed, they will be off and running on a 2-week creative journey writing their own original music and preparing to record at Q Division, one of New England’s top studios in Somerville, MA. It’s here where they will record the 3 songs they’ve been working on and experience a world-class recording studio with a 28-year history at the center of the Boston’s music scene. Two consecutive days ensures the highest possible quality recordings. Students will also shoot a music video that consists of live stage shots as well as conceptual ideas related to the lyrics and themes of their songs.

Student Life

Students will also participate in 2-3 offsite fieldtrips where they are bused to the music industry’s top local facilities. Past fieldtrips include: Berklee College of Music, Zildjian, Fishman, UMass Lowell, and Mix 104.1 — all places where students can learn about the industry in real world practice and prepare for college and beyond.

Music Education

Throughout both weeks, students will attend instrumental labs led by experts. This class is an instrument proficiency group class where students will learn essential techniques specific to their instrument. All lab classes are designed to be “hands on” and high energy. The advanced program also includes 5 seminars — each focusing on specific areas vital to being a successful musician.
