

# RealJams Audio Production

Students ages 10+

*“Audio production was really cool because I got to create my own music with virtual instruments and then mix & master it”*

Gavin R, 2017 alum

## 2-Day Program

**\$250 Non-Members**

**\$200 Members**

## 5-Day Program

**\$649 Non-Members**

**\$549 Members**

### **Program Highlights:**

- Access to our recording studios & music community.
- Learn a variety of industry techniques.
- Gain experience on popular software.
- Study with Real School recording engineers.

### **Demo to Final**

April 15-16 (2-day) **Andover Only**

July 29- Aug 2 (5-day)

Learn to demo a song while writing it! You'll join forces with other like-minded musicians to write and record an original song using real and virtual instruments. Explore how to use microphones, understand EQ, compression, FX, and the ever evolving art of mixing and mastering!

### **Pop/Rock Production**

July 8-12 (5-day)

Have you ever wondered why and how a song sounds the way it does? This program provides an in depth look at how top producers work with artist like Bruno Mars, Ariana Grande, Twenty One Pilots, and more to create EPIC sound mixes.

### **Synth Production**

July 15-19 (5-day)

Synths are everywhere in music. You may not know it when you hear one, but chances are they're in just about every song you're listening to. This program will give you an in depth look into all the ways you can use a synthesizer to improve your songs using state of the art virtual and analog synthesizers.

### **Songwriter Production**

Aug 12-16 (5-day)

Are you writing songs, but don't know how to get them from your cellphone to the real world? This program is designed to help guide you through not only the composition process, but also the techniques that help bring your song to the next level. Learn how to record real and virtual instruments, MIDI programming, and make your song sound like the writers you love to listen to!
