

RealJams Audio Production

Students ages 10+

“Audio production was really cool because I got to create my own music with virtual instruments and then mix & master it”

Gavin R, 2017 alum

\$649 Non-Members
\$549 Members

Multi-week and sibling discounts available.

Program Highlights:

- **Learn the art of recording, mixing and mastering.**
- **Gain experience with EQ, Compression, FX, and MIDI programming.**
- **Create high quality audio songs & samples.**

Songwriter Production

July 20-24 (Burlington only)

Are you writing songs but don't know how to get them from your phone to the real world? This program is designed to help guide you through not only the composition process, but also the techniques that help bring your song to the next level.

Pop/Rock Production

August 17-21 (Burlington only)

Have you ever wondered why and how a song sounds the way it does? This program provides an in depth look at how top producers work with artists like Billie Eilish, Shawn Mendes, Imagine Dragons and more to create EPIC sound mixes.

Synth Production

July 6-10 (Andover only)

July 27-31 (Burlington only)

Synths are everywhere in music. You may not know it when you hear one, but chances are they're in just about every song you're listening to. This program will provide you with an in depth look into all the ways you can use a synthesizer to improve your songs using state of the art virtual and analog synthesizers.

Demo to Final

July 13-17 (Burlington only)

August 10-14 (Burlington only)

Learn to demo a song while writing it! You'll join forces with other like-minded musicians to write and record an original song using real and virtual instruments.
