What to Expect

Students will work with a team of musical theater experts and highly trained educators to put on a kids or junior Broadway production in just two weeks! You'll experience auditions, call-backs, casting, daily rehearsals, costume design, and set building. From choreography to tech crew, you will experience everything that goes into creating a musical theater production. Each show caters to a range of kids ages 6-14 with each performer given a speaking role. Our intimate performance space allows for actors to work on projection and audience interaction in a safe and enriching environment. Daily rehearsals culminate in a musical theater masterpiece of their very own with a final performance performed on Friday evening of the second week.
