

Rauland

Great People.
Great Accomplishments.
Great Products.

Manufacturing

Sales & Marketing

Engineering

“The company we have today is tightly focused.”

We know why we're here. We know what we do. Our customers know what they can expect in innovative solutions. At Rauland, we're committed to innovation, and we're committed to growth — growth of the company, growth of the individual that works here, and in creating the environment where they can continue to grow as a professional. ⚠️

Great People

As a global company with over 300 team members, everyone's contribution here is recognized... at all levels and all departments.

CULTURE & LOYALTY

Team members get involved in interesting, challenging projects from day one. In a high-tech, high-turnover industry like ours, it's notable that Rauland team members on average stay with the company 10, 20 years or more. We take pride in our ability to attract and retain smart, creative, dedicated people long-term. That says something about our willingness to do what it takes to build long-term relationships with them, as well as with our customers.

Sales & Marketing

"The people that are here want to stay here, and make it a career, not just a job."

RAULAND-BORG FOUNDED

1948

Norm Rauland partnered with George Borg in 1948 to create Rauland-Borg and become market leaders in critical communications for hospitals and schools.

GLOBAL TECHNOLOGY

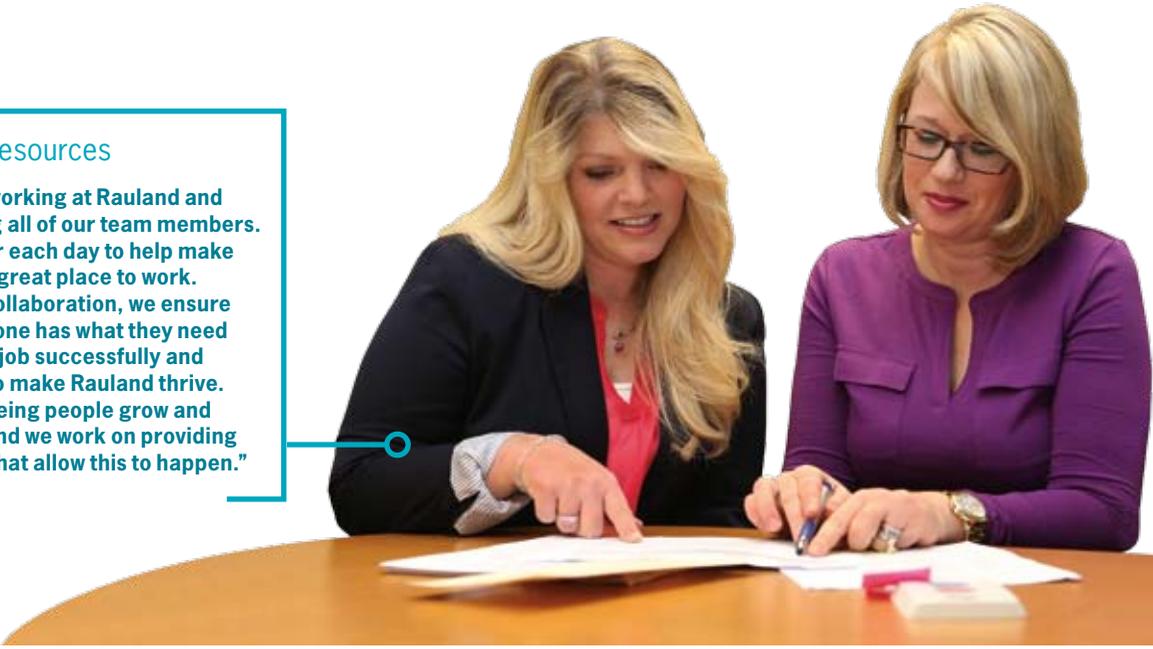

40

Rauland's technology solutions are in use in more than 40 countries on six continents around the world.

Human Resources

“We enjoy working at Rauland and supporting all of our team members. We partner each day to help make Rauland a great place to work. Through collaboration, we ensure that everyone has what they need to do their job successfully and continue to make Rauland thrive. We love seeing people grow and develop, and we work on providing solutions that allow this to happen.”

Great Accomplishments

Our customers depend on us for reliable, quality products, and also for our ability to anticipate their future needs. Behind Rauland’s industry leadership is a commitment to consistently anticipate and deliver that customer satisfaction.

PRODUCT HISTORY

From our earliest days, we’ve been able to think and perform several steps ahead of our competition. To accomplish that, we foster an environment that encourages and values initiative, independence, creativity and teamwork – by the individual and by the organization. Our legacy, which is leading-edge, continues to break new ground in our core markets of healthcare and education.

MARKET GROWTH

Customers and markets can change frequently, with fast-paced technology advancements, so we are consistently re-investing significantly more than industry averages in developing new products. Our goal? Exceed our customers’ expectations by focusing on innovation, quality, and service.

VISION AND VALUES

Rauland employees value teamwork, the opportunities presented by change, and the rewards of professional and personal growth.

AMETEK, Inc.

2017

Rauland became a part of AMETEK, Inc. and continues to be a leader in education and healthcare markets.

Great Products

Rauland's emphasis on innovative products is integral to everything we do at Rauland, and it flows across the organization from the top down. It's in the way we engineer and manufacture our products, and in the unprecedented level of service and support we deliver to our customers.

QUALITY

By sharing ideas, collaborating within and across departments, and by being willing to venture outside our comfort zones, we can ensure that our products are leading edge, easy to install, and defect-free at the targeted cost. That effort promotes, supports and delivers growth and innovation for ourselves and for our customers.

INNOVATIONS

Technology alone cannot produce a consistently high-quality product, of course, or create solutions for our customers. It's team members who care about their work, strive for continuous improvement, think creatively, and act resourcefully that make the difference.

Engineering

"Rauland is a market leader in critical communications solutions, and we are highly successful in innovating products to meet customer needs."

GLOBAL SOLUTION

Rauland Responder[®] is the leading global nurse call solution, in more than 4,000 hospitals around the world.

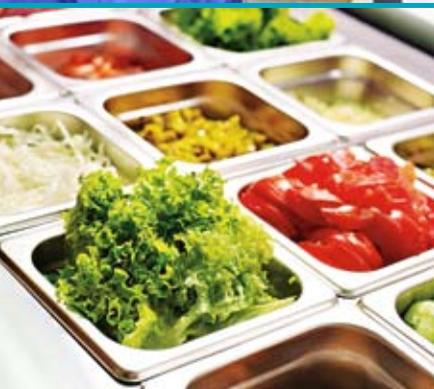

CRITICAL COMMUNICATIONS

Rauland Telecenter[®] critical communications systems help schools manage safety, events and everyday communications.

Great People. Great Accomplishments. Great Products.

Rauland cultivates a positive, caring environment that respects every member of the team. Every achievement is the result of a group effort. That makes you an integral part of the team focused on the big picture.

Everyone here knows that their efforts make a difference because we are dedicated to designing the best critical communication products for hospitals and schools. This is how we deliver global market-leading solutions and superlative customer service.

As a Rauland team member, you will have an experience that will broaden your knowledge, skills, and abilities while making a contribution to saving lives. Our legacy is a testament to the power of collaboration.

Team members are always a priority at Rauland, where colleagues work together to focus on the challenges our customers face when striving to sustain a safe work environment.

Rauland, a division of AMETEK, Inc., is a respected leader in the design and delivery of critical communications, workflow and life-safety solutions for hospitals and education worldwide. AMETEK is a global leader in high-technology electronic instruments and electromechanical devices with manufacturing, sales and service locations across the United States and around the world.
