

# EMPLOYER

## October 2018 Release Notes

---

**1**

### **Indeed integration: automated job posting to Indeed**

- a. This aspect of the integration saves you time from having to post jobs both in BerniePortal and then also on Indeed.
- b. Once you publish the job from within BerniePortal, Indeed grabs that job posting and publishes it on Indeed for you.

**2**

### **Indeed integration: automated posting of candidates and their applications from Indeed to inside BerniePortal**

- a. This aspect of the integration does a few things for you. It gives a more seamless experience to candidates which should mean that you'll get more candidates faster. This means you should be able to hire the right person faster. It also saves you time on manual processes.
- b. When a candidate submits an application for your job on Indeed, all of the candidate's information and their application is routed by Indeed into BerniePortal. The candidate and their application will appear directly in BerniePortal for you, the hiring manager, and any hiring influencers who you have named.
