

BerniePortal

January 2018 Release Notes

Two areas of improvement:

1 BernieBill: clean bill guarantee

- a. Have you ever had a client who wanted the insurance company to remove adjustments from a bill - and just give them a clean bill for the month? And then the insurer says to pay as billed and the adjustments will cycle themselves out over 90 days?
- b. The insurance companies that offer BernieBill are now enabling employers to always be able to get that clean bill. So if your client makes a mistake that causes an adjustment on their BernieBill, they can get a clean bill with all of the back-up information they need for cost allocation purposes.

2 BernieBill: ability to write notes on past bills

- a. HR can now write notes on past bills
- b. For example, HR may want to keep track of date paid and check number.
