1094-C / 1095-C Reporting

Stay compliant by reporting and filing directly to the IRS.

Native 1094-C / 1095-C Reporting

Forget about normal ACA reporting, BerniePortal has build a native ACA solution. This eliminates the need for a third party because everything is in BerniePortal and goes directly to the IRS.

Simplify Filing

Since your information is kept within our platform, at the end of the year you can focus on auditing data rather than entering data. By holding all benefits information in an all-in-one software platform, you can cut down on manual data entry and errors.

File Directly with the IRS

Employers are required to fill out and submit their 1095-Cs electronically if they have more than 250 employees. Since the IRS has granted BerniePortal a Transmitter Control Code, BerniePortal is able to file these forms directly to the IRS for you.
