Fujinon 50x Optical Zoom (24mm-1200mm)* & Super Macro.

Fujinon optical 50x zoom lens (24 - 1200mm)* incorporates a combination of aspherical lenses and ED lens. It provides a bright aperture rating of f/2.9 - 6.5 with 17 elements in 12 groups, the lens combines aspherical and ED elements to good effect for reduced aberration and superior image quality. With Super-Macro Mode capturing subjects as close as 1cm from the lens, the FinePix S9400W / S9200 seamlessly covers an enormous focal range with no need to ever change lenses.

* 35mm format equivalent.

Electronic Viewfinder

The FinePix S9400W offers the flexibility of framing your shots through the crisp, clear electronic viewfinder.

16 million pixels CMOS sensor.

16M BSI-CMOS makes even dark scenes bright for high-quality images.

*Only for S9400W.

Wireless transfer to your smartphone or PC lets you share high image quality on the spot.

You can easily transfer images wirelessly from the FINEPIX S9400W to your smartphone or tablet after installing the free FUJIFILM Camera Application app. There are no troublesome ID and password settings; press the MENU button of the back of the camera and then add the images instantly to your blog or share them with friends on your social networking site. You can also use the FINEPIX S9400W's built-in Wi-Fi to save your photos to your PC.

Continuous Shooting.

Continuous Shooting 10fps at full resolution. (max. 10 frames*)

*Fujifilm research based on CIPA standards.

Full HD Movie (1080i/60fps) with OIS and DIS.

Movie scene recognition ensures that settings are optimized according to your subject. Full HD Movie shares your memories with family on the big screen, using the mini HDMI connector. Optical image stabilization OIS and electronic image stabilization DIS effectively function during movie shooting. Therefore, movies can be shot with less blur and without stress.
