The Camera for Active Lifestyles
All purpose to meet everyday needs

● Graphite Black

● Yellow

● Blue

The perfect camera, indoors and out!

4 Way Proof

Integrates four rugged protection features: waterproof to 50ft/15m, shockproof to withstand drops from 5.8ft/1.75m, freezeproof to temperatures as low as 14°F/-10°C and dustproof to protect the body from sand and dust.

Capturing every photo opportunity

Continuous and Interval shooting modes

Continuous shooting

The continuous shooting mode is capable of capturing up to 10.0fps (maximum recording of 10 images at full resolution). This ensures you never miss a photo opportunity, even in scenes featuring fast moving action.

Interval timer shooting

The interval shooting mode takes pictures at set intervals, ideal for time-lapse photography of sunsets, opening flowers or other transitions in nature. Intervals can be set to 10 minutes, 5 minutes, 60 seconds, 30 seconds or 15 seconds.

Record action-packed movies

Action Camera Mode

Action Camera Lens
ACL-XP70

Optional accessory, not included with camera

The Action Camera Mode* allows you to record action packed movies during activities. The camera can be fixed to your body or sporting equipment so you can record even when your hands are full.

*In Action Camera Mode, the XP80's lens turns into a fixed 18mm (35mm format equivalent), and the LCD monitor automatically turns off when you start to shoot movies.

Wireless functionality with your smartphone

Easy photo transfer and Remote shooting

Easy photo transfer*

A single push of the Wi-Fi button transfers photos to your smartphone or tablet without having to enter an ID or password, allowing you to share photos with friends or upload to social media.

Remote shooting*

Remotely shoot pictures from your smartphone or tablet. This function allows you to adjust zoom settings, making it a particularly useful feature when shooting wildlife that is difficult to approach.

*Install the free FUJIFILM Camera Remote app onto the smartphone or tablet first.
