

INSTAX-FRIENDLY TRAVEL CHECKLIST

1

KEEP YOUR INSTAX FILM IN A DARK AND COOL PLACE

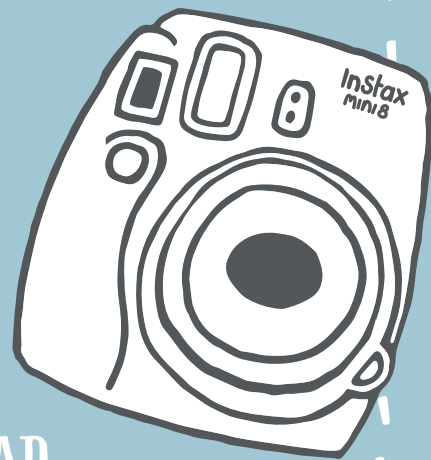

Both heat and sunlight can compromise your film.

2

X-RAY MACHINES AND INSTAX FILM

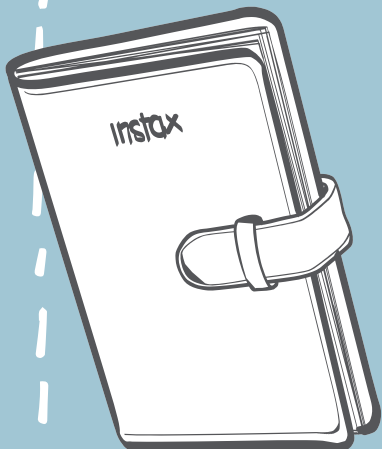

The best precaution is to bring your camera and film in your carry-on bags.

3

CARRYING YOUR CAMERA ABROAD

Cases customized for Instax cameras will not only make travelling with your camera easier, it will also keep your camera secure as you move about.

4

TAKE MEASURES TO PREVENT THEFT

Keep your camera on your person and, if you have to set it down, be sure it remains within your sight.

5

PHOTO STORAGE

Keep a travel journal or mini photo booklet so your awesome snaps can be stored safely.
