Introduction to TransPix

TransPix is a mobile application for iPhone or Android that will allow you to wirelessly transfer your photos to one of our in store photo kiosks! Easy to download and use, TransPix is the perfect answer for how to get all your beloved digital photos from your phone to a printer, enabling you to turn your memories into stunning photo products.

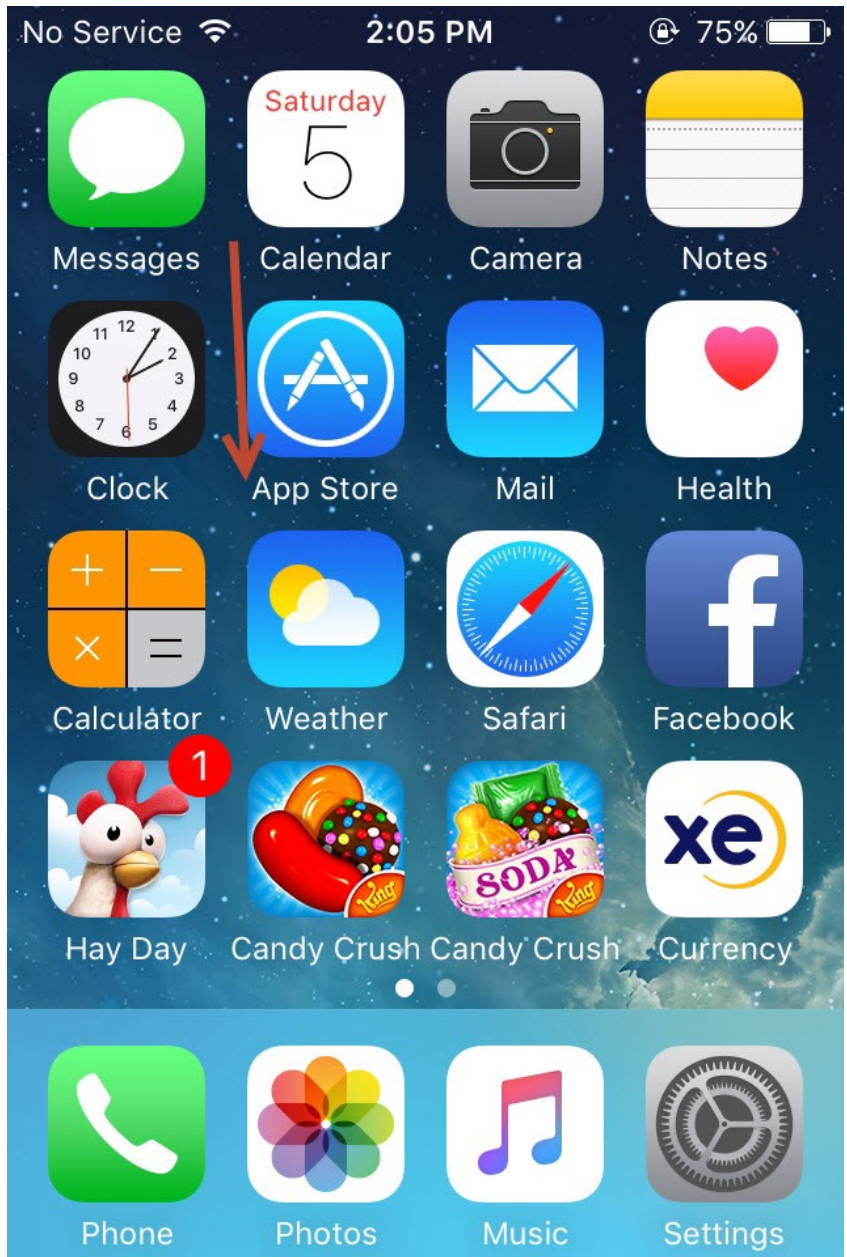

To use TransPix, simply go in to your local store, download the application, and connect with the photo kiosk to begin working on your order.

The staff in store will be happy to assist you with the process, or please see the User Guide and FAQ included in this document!

User Guide and FAQ

iPhone

1. How to Download the TransPix Application

01	Open the Apple Store	 A screenshot of an iPhone home screen with a dark blue space-themed wallpaper. The status bar at the top shows 'No Service', a Wi-Fi icon, the time '2:05 PM', and a battery level of '75%'. The home screen is organized into a 4x4 grid of app icons. The icons include: Messages (green speech bubble), Calendar (white calendar page showing 'Saturday 5'), Camera (grey camera), Notes (yellow notepad), Clock (black clock face), App Store (blue icon with a white 'A' and crossed pencils), Mail (blue envelope), Health (white heart on a pink background), Calculator (orange and grey calculator), Weather (blue sky with a sun and cloud), Safari (blue compass), Facebook (blue 'f' logo), Hay Day (a red chicken), Candy Crush (a red lollipop), Candy Crush Soda (a green soda can), and Currency (a white background with a blue 'xe' logo). A red arrow points from the top of the App Store icon down to its center. A red circle with the number '1' is placed over the Hay Day icon. At the bottom of the screen is a dock containing four icons: Phone (green phone handset), Photos (multi-colored flower), Music (pink and blue musical note), and Settings (grey gear).

6. How do I know what WI-FI Network to Use

01	<p>The application will prompt you to connect to the correct network when you open it. Simply accept the prompt and the app will take care of the rest. If you are already connected to a wireless network, the TransPix application will prompt you instead to switch to the TransPix network when the application is opened. Simply press continue.</p>	
----	---	---

7. How do I know if my attempted connection to the TransPix Network has failed?

01	<p>The application will alert you if your connection attempt has failed. If you see this, please ask a member of staff for assistance.</p>	
----	--	---

8. Error Codes and Troubleshooting

01	If you see either of the following error codes, please ask for assistance from a member of the staff.	Error Code	Description	Meaning
		E-482	Unfortunately it was not possible to connect to the 'xxx' WiFi Network	Connection to the required network could not be made
		E-582	Unfortunately, no available kiosks were found on the 'xxx' WiFi network	It was not possible to obtain a list of available kiosks from the TransPix server
