

Diamond Offshore

Challenge

Diamond Offshore (DODI) recently implemented OneStream software for their financial consolidations and planning solutions. DODI is a lean organization (Accounting, FP&A, and IT) and needed assistance with the day-to-day support and maintenance of their new OneStream solution.

Solution / Results

DODI chose US-Analytics and our Support Services team as their service provider for...

- Flexibility to meet their unique needs and requirements
- Application support
- Infrastructure support and tuning
- Remote and onsite support
- 24x5 support, and weekend support when needed
