## Program Description

24/7 Dad® is an evidence-based fatherhood program used by thousands of organizations across the nation to improve the knowledge, behavior, and skills of dads of all races, religions, and demographics. The program is built on the basis that fathers can be nurturers, and for men, nurturing is a learned skill. Throughout the program, men examine their own fatherhood history, learn the 5 characteristics of a 24/7 Dad®, and other important behaviors such as working with mom and proper child discipline to help them be the best dads they can be.

Now in its Third Edition, 24/7 Dad® has been enhanced to meet requests and suggestions made by facilitators in the field. Research-based additions such as the "My 24/7 Dad Checklist" and its Android & iPhone app-based counterpart, videos to enhance and add variety to the delivery of the program, father-attendee materials now provided in Spanish, and reference cards in the fathering handbooks bring this program to the next level.

## InsideOut Dad® Guide to Family Ties

[www.fatherhood.org/iog-guide](http://www.fatherhood.org/iog-guide) 

Incarcerated fathers who create meaningful ties with their children and family on the outside are the best prisoners on the inside. The InsideOut Dad Guide® to Family Ties covers many topics that help incarcerated fathers learn the importance of getting in touch - and staying in touch - with their family, maybe even for the first time. It also helps incarcerated fathers create strong ties between themselves and their children, and between them and the mother(s) of their child(ren).

By connecting with their children, incarcerated fathers are motivated to maintain good behavior to keep visiting rights, which is beneficial for both the facility and correctional officers working with them. In addition, research shows that fathers who connect with their children (and families) prior to release have a higher likelihood of staying out of jail/prison.

### Program Delivery

- Self-guided and self-paced guide.
- Facilitator's Instruction Guide available for download.

- Guide for the father to write in and keep (bound for maximum security standards).
- Facilitator's Instruction Guide, Post-Surveys, Answer Sheet, Certificate of Completion, Letter of Completion.

## Product Description

FatherTopics™ Collection for Non-Custodial Dads consists of five separate 2-hour sessions your organization can run for non-custodial fathers to help them succeed as involved fathers. Your organization can offer 1, 2, 3, or more sessions in any number and combination. Your organization can also add any number of combination of them to any National Fatherhood Initiative® (NFI) fatherhood programs or any other fatherhood program.

The collection covers some of the most critical issues faced by non-custodial fathers.

## Resource Background:

In 2011, the City of New York's Department of Youth and Community Development (DYCD) contracted with NFI to create a version of 24/7 Dad® that organizations in the city would use with non-custodial fathers. The resulting DYCD version of 24/7 Dad® included new session content to provide information on some of the most critical issues faced by non-custodial fathers that don't directly address pro-fathering knowledge, attitudes, and skills.

Consequently, NFI decided to use that newly designed content to create FatherTopics™ Collection for Non-Custodial Dads, so that facilitators and organizations across the county could provide these well-received sessions to non-custodial fathers wherever they reside, and regardless of location. The reaction to these field-tested sessions, from facilitators and non-custodial fathers in New York City, has been overwhelmingly positive.

## Program Description

Understanding Dad™ is a unique program that helps mothers improve the relationships they have with fathers, for the benefit of their children. This program helps mothers better understand the importance of involving dad in their children's lives, and how to better communicate with the father(s) of their child(ren).

Oftentimes, the mothers' gatekeeping behavior that can prevent or reduce fathers' access to their children - when fathers' involvement in their children's lives would actually benefit their children. This program encourages self-awareness and helps moms improve the communications skills they need to improve their relationships with the fathers of their children.

Understanding Dad™ raises mothers' awareness about the importance of father involvement in the lives of their children. It helps mothers to reflect on how their own developmental histories have and continue to influence the relationships with the fathers of their children. It also teaches mothers communication skills to improve the partnership between them and the fathers of their children in raising their children (e.g. co-parenting when mothers and fathers are no longer together).

# Help Me Grow™ Guides

Quick Reference™ Guides to Help Dads Participate in their Child's Growth!

Often times, dads are unsure of how to be actively involved with their children as they grow. That's why these unique guides go beyond simple child development charts. They help dads learn about the physical, mental, emotional, and social changes their children will go through (THINGS TO KNOW), and gives them practical ways they can be actively involved in their child's growth based on their age range (WAYS TO GROW). Available in three age-ranges below.

## WAYS TO GROW

**6<sup>TH</sup> & 7<sup>TH</sup> YEARS — continued**

- 1 Praise your child for cooperation and learning new skills and knowledge.
- 2 Ask your child to talk about his/her world (school and friends). Listen carefully and remember what he/she says. Answer your child's questions.
- 3 Tell your child to show feelings. Role model by showing yours. This is very important for boys.
- 4 Read to and with your child. Tell your child to read alone.
- 5 Spend alone time with your child doing something both of you enjoy. This is really important if you have other children.
- 6 Expand your child's world through family trips and outings.
- 7 Help your child learn how to get along with peers.
- 8 Help your child learn how to follow group rules.

6 | HELP ME GROW™

A DAD'S GUIDE TO THE AGES & STAGES OF CHILD GROWTH

- 9 Promote daily, safe physical activity. Watch TV habits and limit amount of TV and computer use.
- 10 Set limits and clear rules for discipline and punishment for bad behavior.
- 11 Help your child to discipline him/herself and to control impulses.
- 12 Expect your child to follow family rules, such as those at bedtime, TV watching, and doing chores. Don't pay your child (an allowance) for chores.
- 13 Teach your child to respect others/people in charge.
- 14 Help your child's ability to communicate with you, teachers, and other adults by going to school.
- 15 Tell your child often the difference between right and wrong.

©2012, 2018 National Fatherhood Initiative®

- 16 Teach your child how to manage anger and resolve conflicts without physical or emotional violence.
- 17 **Set a limit on the amount of "screen time" your child may have and stick to it.** Screen time refers to the time your child spends viewing something on a "media device" with a screen: TV, computer (desktop or laptop), tablet, mobile device used to play games, etc. Make sure media devices do not harm sleep, physical activity, and other actions vital to your child's health. Work with your child to **choose times to not use media devices**, such as at dinner and when driving. Work with them to **choose parts of your home where they cannot use media devices**, such as in bedrooms. Talk with them about being a good "online citizen" who treats others with respect online. Talk with them about keeping themselves safe while online.

With contributions from Dr. Kyle Pruett and Dr. Yvette Warren, Help Me Grow: A Dad's Guide to the Ages and Stages of Child Growth covers everything dads need to know about what to expect and not to expect in terms of child growth and development.

By reviewing the charts in these guides, dad will learn about the physical, mental/emotional, and social changes his child will go through. The guides also include tips for dads to help their child grow. In turn, this information allows them to be a more involved, responsible father.

Knowing that children grow at different rates, the main thing is that his child is able to do these things at some point, even if at a later age. Dad can also share the charts with his child's mother so that she'll know what to expect as well!
