INSIDEOUT DAD® GUIDE TO FAMILY TIES
Incarcerated fathers who create meaningful ties with their children and family on the outside are the best prisoners on the inside. And, research shows that fathers who connect with their children (and families) prior to release have a higher likelihood of staying out of jail/prison.

The InsideOut Dad® Guide to Family Ties helps incarcerated fathers address many important “connection” topics, including the importance of getting in touch — and staying in touch — with their family, maybe even for the first time.

Uses: short-term stay facilities (not just prisons, but jails, half-way houses, etc.), one-on-one case management, counseling, coaching, or mentoring, or as a stand-alone, self-paced resource to reach fathers who are unable to participate in the group-based InsideOut Dad® Program.

Research indicates that when inmates are connected to their family, they are less likely to return to prison. Specifically developed for the challenges incarcerated fathers face, InsideOut Dad® connects incarcerated fathers to their children while they’re on the inside and prepares them for reentry when they get out.

Popular among both inmates and ex-offenders, InsideOut Dad® has been proven to increase family contact and improve inmate knowledge and attitudes. Hundreds of state and federal facilities, pre-release programs, community organizations, and more are using this life-changing reentry program.

Standardized programming for 25 states’ corrections systems, InsideOut Dad® has 12 core sessions and 4 optional sessions—making it customizable for different settings. WHAT’S NEW IN 24/7 DAD® A.M. AND P.M.

YOU ASKED, WE ANSWERED! 24/7 Dad® was updated based on feedback from facilitators like you.

More Engaging Content!

The programs contain more engaging content than ever.

- The addition of more than 30 videos to each program (more than 60 videos combined): **More engaging for dads and enhances their learning. They also make the programs easier and more fun to facilitate!** NFI added nearly 20 visually engaging, animated videos to each program that help facilitators add variety to how they engage fathers during the sessions.
- NFI added **more than 10 “Stories of Impact” to each program: Videos that facilitators can use to motivate fathers to stay in the program.** These stories show the impact of the programs on diverse fathers in diverse settings across the country. The new Session Guides in the improved Facilitator’s Manuals show exactly where and when to use the videos for maximum impact.

More Evidence-Based and Evidence-Informed Content!

NFI staff constantly monitor the latest research and evaluations of fathering and parenting interventions, as well as, evidence from the behavioral and social sciences on strategies and tactics that positively influence behavior. The third editions integrate research and evidence on **habit formation and motivation that will help you increase dads’ motivation** to be involved in their children’s lives and develop and sustain the habits of an involved, responsible, committed father.

The My 24/Dad® Checklist!

Research shows that the use of checklists increases individuals’ ability to ingrain pro-social habits through deliberate practice. The primary content addition is the My 24/Dad® Checklist, a powerful tool integrated into each session that helps dads develop the habits of an involved, responsible, committed father. **This checklist encourages dads to identify actions, based on what they learn during each session, that they can take on a periodic basis** (i.e. daily, weekly, monthly, and one time) to increase their engagement with their children. NFI created hard copy, online, and mobile versions for use during the program and after it ends.

Pocket Reference Cards Inside Every Fathering Handbook!

New Pocket Reference Cards remind dads of the 5 characteristics of the 24/7 Dad and offers 10 affirmations dads can give to their children on a regular basis. A great tool for use beyond the program sessions!

ALL Materials for Dads Now in Spanish!

The updated CD-ROM includes worksheets and evaluation tools for dads in Spanish (not previously available). And as always, the fathering handbooks can be purchased separately in Spanish.

The 24/7 Dad® to Go App!

NFI created a **free, My 24/Dad® Checklist Android-based App** that dads can download and install on their smartphones to use on an ongoing basis—extending the impact of the program and the new checklist activity. The app also includes links to information on NFI’s website (www.fatherhood.org) keeping dads connected to the latest practical advice and guidance on how to be a 24/7 Dad. (NFI chose the Android platform because research shows men prefer and make up a larger share of Android-based smartphone users; they are also disproportionately used in low-income neighborhoods and among low-income men.)

Optional Introductory Session on the CD-ROM!

Use this session to ease fathers into the program. It also helps facilitators learn more about the dads that comprise each unique group, including what motivated them to enroll and what will motivate them to keep coming back.

The 24/7 Dad® Framework!

For facilitators interested in learning more about the behavior-change theories that underlie the programs, and for researchers interested in further evaluating the impact of the programs, the **new Program Guides in the improved Facilitator’s Manuals describe the behavioral theories that create the overall framework** upon which NFI built the programs.

More Practitioner Input!

NFI designed the first editions and second editions with input from practitioners who facilitate fatherhood programs.

- NFI continued to use practitioner feedback to create the third editions by gathering ongoing feedback from 24/7 Dad® facilitators across the country who work with diverse fathers, particularly low-income, non-residential and/or non-custodial fathers.
- NFI staff has conducted training institutes for more than 1,100 organizations on how to use the programs. Practitioners provided feedback on the curriculum during these institutes that NFI incorporated into the third editions.

The most comprehensive fatherhood program available, using innovative tools, strategies, and exercises for fathers of all races, religions, cultures, and backgrounds to learn how to be involved, responsible, and committed fathers.

Do you serve mothers who struggle to understand and communicate with the fathers of their children?

NFI, the nation’s #1 provider of resources for fathers, has developed a unique program that helps mothers improve the relationships they have with fathers, for the benefit of their children.

Data show that one in three children in the U.S. grows up in a home without his or her biological father, and the lack of father involvement increases the risk that children will suffer from a range of social, emotional, and physical ills.

Unfortunately, many times it’s the mothers’ gatekeeping behavior that can prevent or reduce fathers’ access to their children—when fathers’ involvement in their children’s lives would actually benefit their children. In addition, mothers can lack the self-awareness and communication skills they need to improve their relationships with the fathers of their children.

Enter Understanding Dad™ a Complete Program Kit consisting of 8 sessions, each lasting approximately 2 hours, with the goal of accomplishing 4 objectives that are vital to improving the relationships between mothers and fathers.

Program Goals:

- Increase mothers’ knowledge, positive attitudes (e.g. toward fathers’ involvement), and skills (e.g. communication) associated with improving their relationships with the fathers of their children.
- Increase mothers’ awareness of the impact that their upbringing (e.g. their relationships with their own fathers) has had on their relationships with the fathers of their children and men in general.
- Increase mothers’ understanding of the importance of fathers’ involvement in the lives of their children.
- Increase positive interactions between mothers and the fathers of their children.

The Complete Program Kit includes:

- 1 - Understanding Dad™ Facilitator’s Manual
- 10 Understanding Dad™ Mother’s Handbooks for use during the program and that the moms can keep
- 1 - CD-ROM with an evaluation tool, marketing resources, videos and more!
- 1 - DVD video content for some sessions

Program Uses:

- ✓ Run Understanding Dad™ as a stand-alone program for moms.
- ✓ Offer Understanding Dad™ for moms as a complementary program to your fatherhood program, such as NFI’s 24/7 Dad® program.
- ✓ Complement Understanding Dad™ with NFI’s Mom as Gateway™ FatherTopics™ Workshop: (see page 14) a 3-session add-on workshop which moves mothers from being a “gatekeeper” regarding fathers’ access to their children to a “gateway,” thus increasing fathers’ access to their children.

Developed as a result of NFI's work with the City of New York's Department of Youth and Community Development, these five workshop sessions help non-custodial fathers explore their knowledge, attitudes, emotions, and behavior on 5 specific topics that are critical to their success as fathers.

These topical sessions are crucial for fathers who do not reside in the same home as their children. Facilitators and non-custodial fathers in New York City, found these sessions extremely helpful and their feedback was overwhelmingly positive.

SESSIONS IN THE COLLECTION:

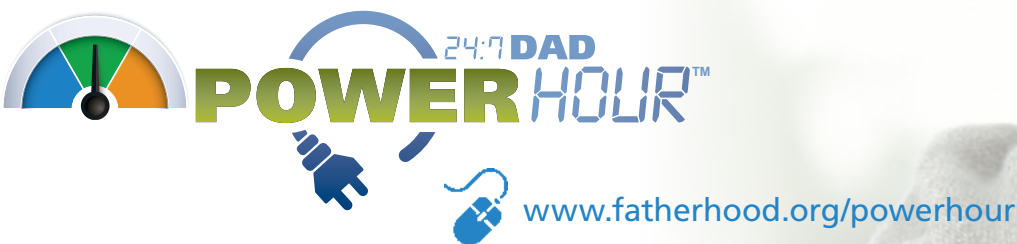

- ✓ **Workforce Readiness** - Provides fathers with information about the importance of being gainfully employed and emphasizes the balance needed to handle the demands of employment and parenting. Fathers meet a local career or workforce readiness expert and discuss the issues and challenges related to finding and maintaining employment.
- ✓ **Rights and Responsibilities** - Helps fathers to understand their legal rights as fathers and, specifically, their rights as non-custodial parents. Fathers learn to appreciate their parental responsibilities from a moral, legal, financial, emotional, and holistic perspective, and to assess their ability to serve as a both a nurturer and guide to their children.
- ✓ **Visitation** - This session focuses on the purpose and goals of fathers' visits with their children, what the fathers should look for to evaluate the success of visits, and what the fathers can do to have successful visits with their children.
- ✓ **Child Support** - This session helps fathers to better understand the importance of providing child support, what this type of support means for their children, and for their self-identification as a father. This session emphasizes the value of all types of support given by a father (e.g. financial, emotional, and physical). Fathers meet a local child support expert/representative and learn about child support enforcement and how to navigate the child support system.
- ✓ **Money Management** - This session helps fathers to understand the costs associated with raising a child. Dads learn how to access and best use/leverage government assistance (e.g. Temporary Assistance for Needy Families (TANF), the Supplemental Nutrition Assistance Program (SNAP)—[formerly known as food stamps], and Medicaid) as a means to provide for their children as temporary assistance during times of under/unemployment. A money management expert discusses the value of creating and maintaining a budget, planning for their children's future, and fathers can complete a budget.

THE HAPPIEST BABY™ DVD + Sleep CD Combo

More sleep and a happy baby . . . in just one click. Magic? A miracle? No . . . it’s a reflex!™

National Fatherhood Initiative is proud to bring you The Happiest Baby™, an evidence-based, scalable, and affordable program for parent educators.

Dr. Harvey Karp’s Happiest Baby™ techniques are based on a newly discovered newborn behavior—the calming reflex—that can quickly calm baby’s crying and increase sleep by at least one hour.

The Happiest Baby™ DVD teaches the “5 S’s” technique to quickly turn on a baby’s “calming reflex”, allowing babies to sleep an extra 1-3 hours. The Super-Soothing Sleep Sounds CD plays unique sounds that perfectly imitate the womb: soothing crying (even in the car) and boosting sleep (use for the first year of life).

HOW THE HAPPIEST BABY™ TECHNIQUE WORKS

- Empowers parents by dramatically boosting parental confidence.
- Increases baby’s sleep and reduces crying/colic.
- Prevents postpartum depression, child abuse, and SIDS.
- Supports breastfeeding by boosting bonding, increasing sleep, reducing crying, PPD, and smoking.

SUGGESTED USES

Staff can distribute the DVD+CD Combo and/or teach The Happiest Baby™ techniques in many settings serving families, including:

- **Health Departments and Home Visiting Programs:**
An easy “plug and play” tool to enhance existing parenting curricula, programs and services (such as WIC).
- **Hospitals and Pregnancy Centers:**
Ideal for use by nurses and childbirth educators with expectant parents or parents with young babies.
- **Military Bases:**
New Parent Support Program staff can distribute DVD+CD Combos to military families on base and in military hospitals.

WHAT’S INCLUDED

- **The Happiest Baby™ DVD** teaches the “5 S’s” technique to quickly turn on a baby’s “calming reflex”, allowing babies to sleep an extra 1-3 hours
- **The Super-Soothing Sleep Sounds CD** plays unique sounds that perfectly imitate the womb: soothing crying (even in the car) and boosting sleep (use for the first year of life).

DOWNLOADABLE “HOW-TO” GUIDES
in Easy-to-use PDF Format

NFI’s new, downloadable guides give fathers the tips and tools they need to be involved, responsible and committed 24 hours a day, 7 days a week. Once purchased, you will download a PDF file that you can use and share as often as you want!

These guides are a valuable resource to aide you and the dads you serve in learning to lead. A fatherhood leader can work one-on-one with a dad through this guide and/or a dad can use this as a self-paced guide.

SOME IDEAS FOR USING THE GUIDES:

- Share the guides with as many dads as you like.
- Print the PDF and give to the dads you serve, review it with them 1-on-1 or in a small group, or email it to them to read on a computer, tablet, or smart phone on their own time. You can even give them to moms to share with dads!
- This guide can reinforce (but not replace) the 24/7 Dad® program or any other fatherhood program you currently provide.
- Give away copies to the dads you serve so they have our skill-building resources.

THE INSIDEOUT DAD™ GUIDE TO FAMILY TIES

Provide our Spanish adaptation of the InsideOut Dad® Guide to Family Ties to incarcerated fathers whose primary reading and writing language is Spanish.

Incarcerated fathers who create meaningful ties with their children and family on the outside are the best prisoners on the inside. And, research shows that fathers who connect with their children (and families) prior to release have a higher likelihood of staying out of jail/prison.

The InsideOut Dad™ Guide to Family Ties helps incarcerated fathers address many important "connection" topics, including the importance of getting in touch — and staying in touch — with their family, maybe even for the first time.
