

# State Administrator for Wisconsin Professional Protector Plan<sup>®</sup> for Dentists

You have invested a lot of time and money in your dental career. You should know the risks associated with both the practice and the business of dentistry. Understanding the basics of malpractice insurance before selecting a product could be critical to insuring you and your practice.

Although many malpractice insurance policies seem to include similar coverages, all are not the same and can be difficult to understand. There are many important considerations in selecting the policy for your unique circumstances.
