How to organize your tickets using pipelines, stages, and properties

**When should you
use sequences to
respond to tickets
in HubSpot?**

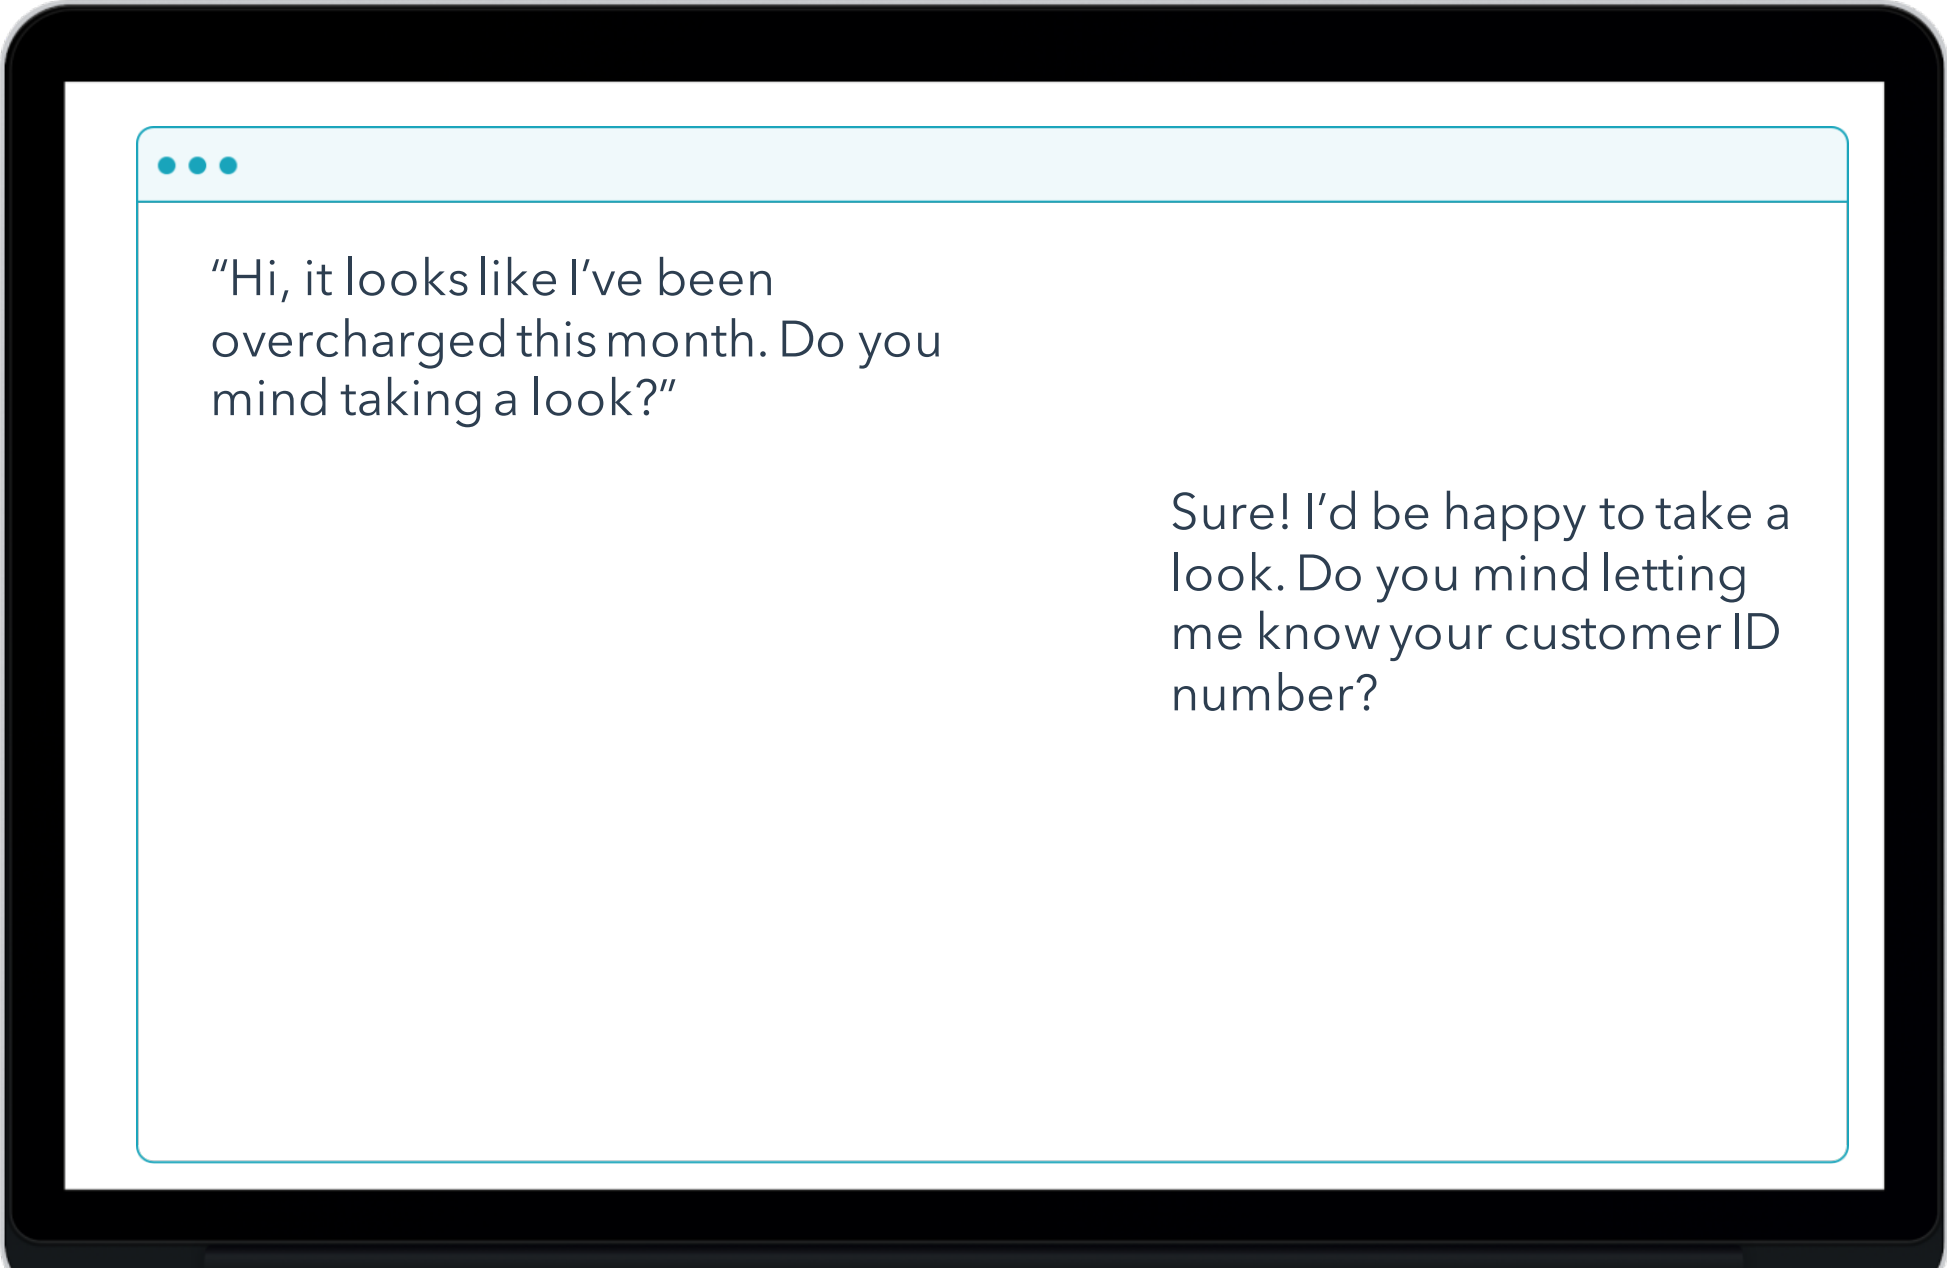

Sequences

A series of automated templates that are sent out at specified intervals

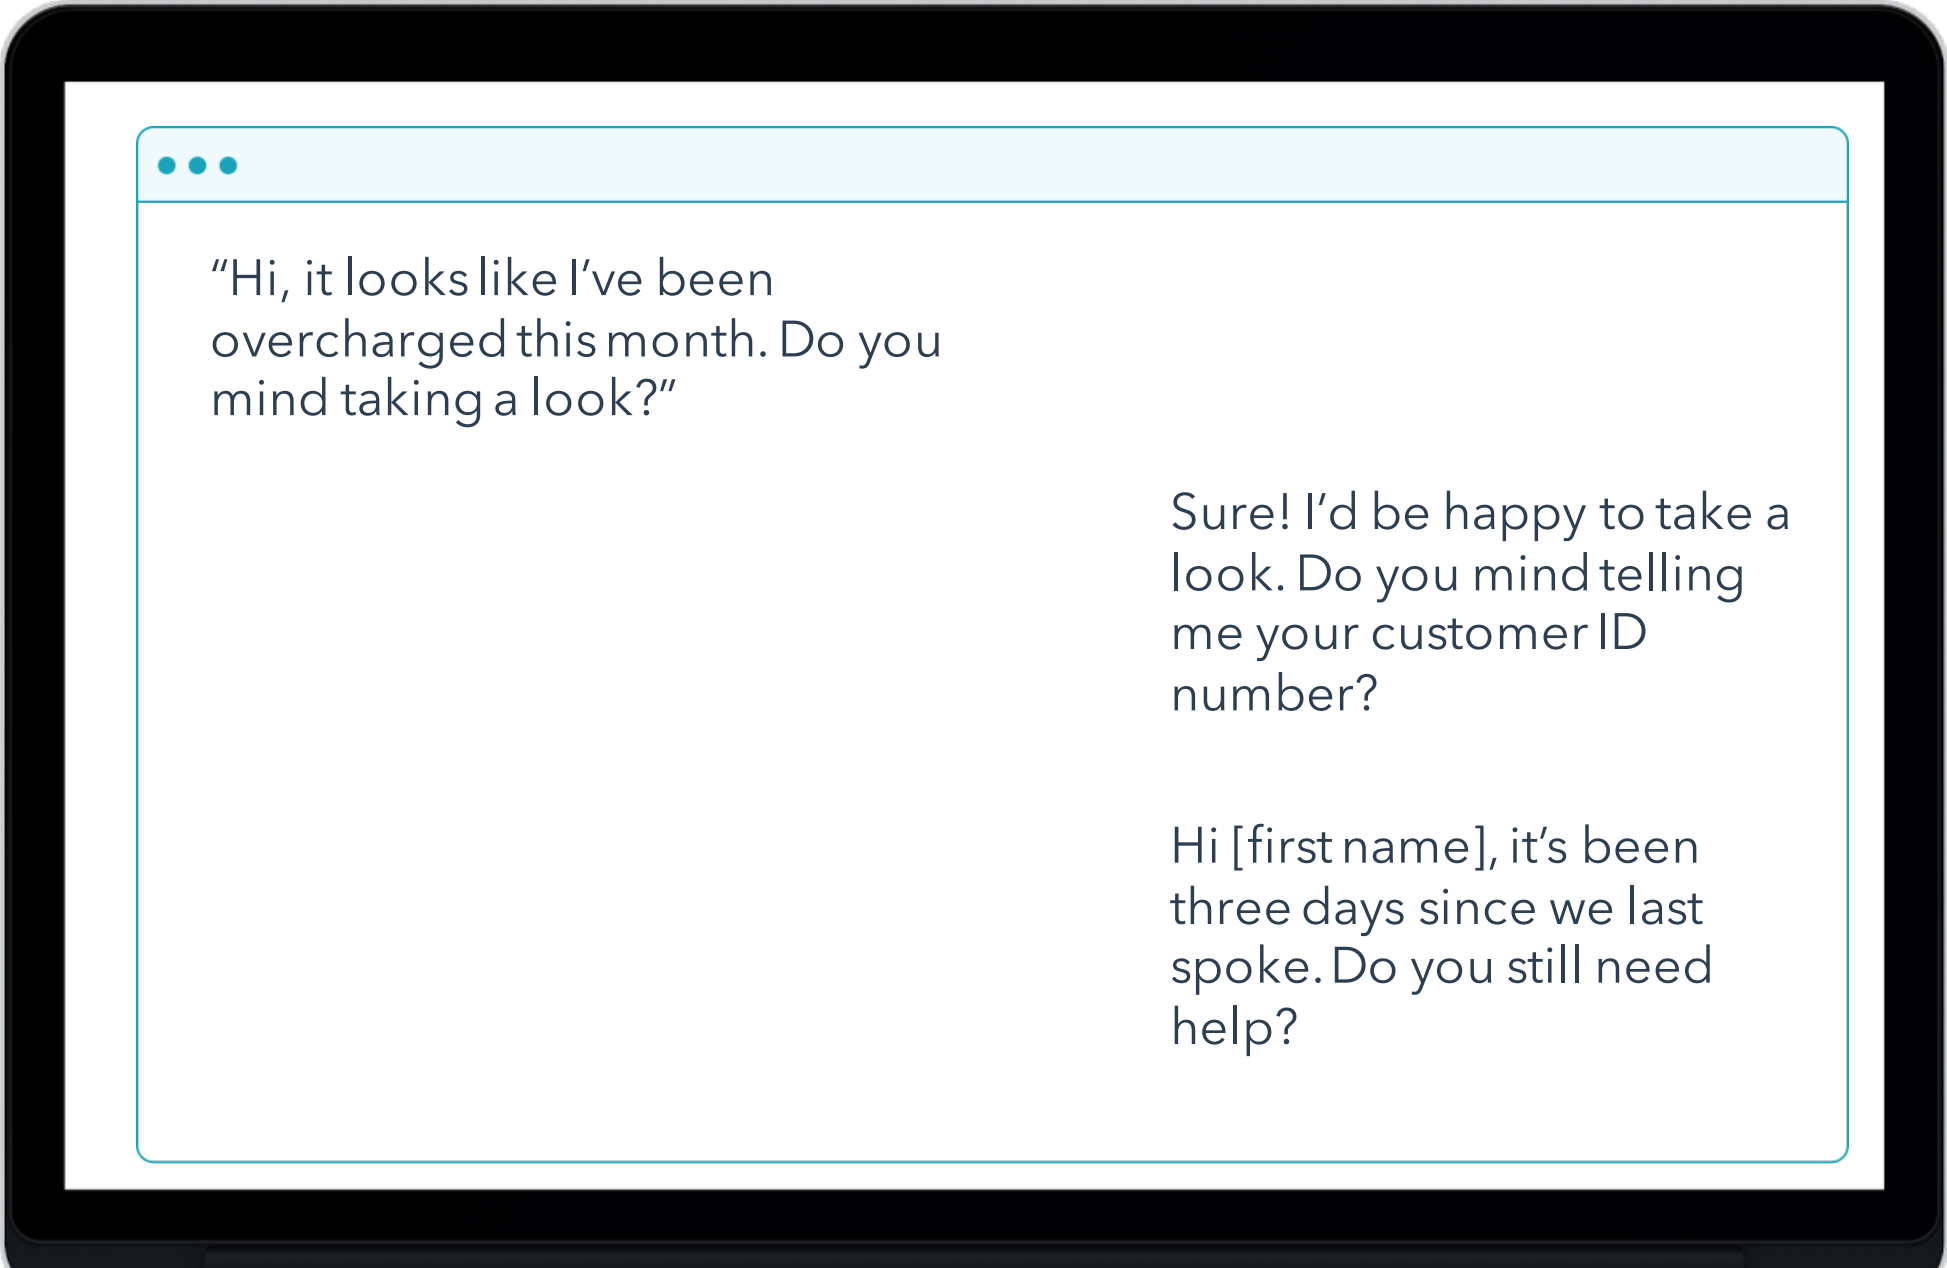

“Hi, it looks like I’ve been overcharged this month. Do you mind taking a look?”

“Hi, it looks like I’ve been overcharged this month. Do you mind taking a look?”

Sure! I’d be happy to take a look. Do you mind letting me know your customer ID number?

“Hi, it looks like I’ve been overcharged this month. Do you mind taking a look?”

Sure! I’d be happy to take a look. Do you mind telling me your customer ID number?

Hi [first name], it’s been three days since we last spoke. Do you still need help?

“Hi, I need help. Can you call me please?”

Hi there, I'll be happy to assist you. Unfortunately I'm busy right now, but I can give you a call at 1 PM EST if that works for you?

1 PM EST does not work.
What about 3 PM PST?

“Hi, I need help. Can you call me please?”

Hi there, I’m busy at the moment, but have plenty of availability this afternoon! Grab a time [here](#), and we can talk soon.
