

Magnus Health

# Faculty Accounts

Because you're already collecting information and documenting visits on students in the Magnus Health system, 'Faculty Accounts' can help you keep track of all vital health information for your faculty and employees. Now you can collect basic health and consent information for everyone on campus, not just students.

## What can Faculty Accounts do for your school?

### ▶ Utilize the Vital Health Record

Faculty and staff members can use the same process as your students to input their emergency medical information in the Vital Health Record.

### ▶ Track important HR documentation

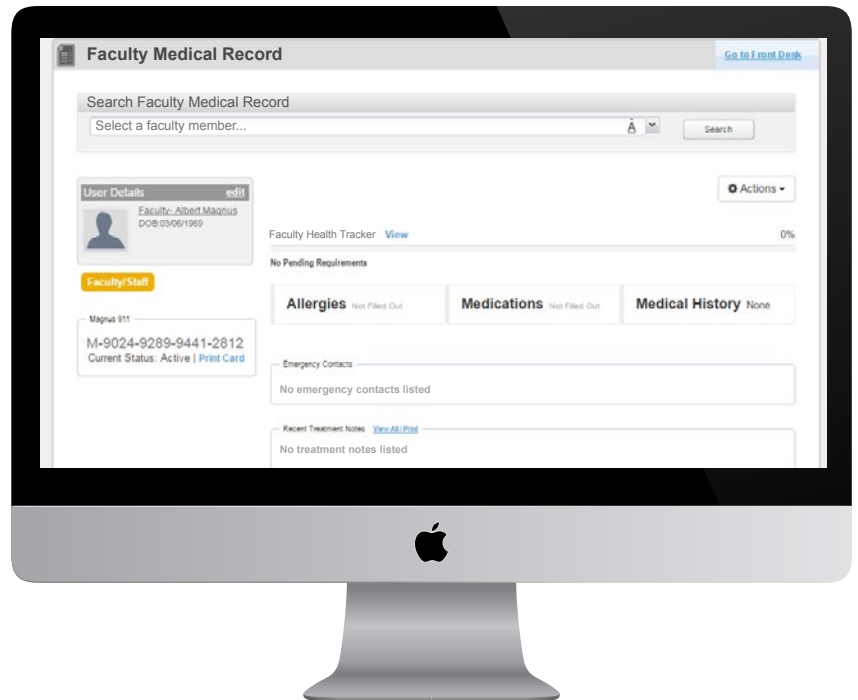

Collect important documentation such as proof of state-required certifications and vaccines.

### ▶ Have access to the mobile emergency response system

Have access to Magnus911 for all faculty and staff, not just students.

### ▶ Provide online report documentation

Keep track of medications and accident reports for all staff on one online platform.

We currently have over **3300** faculty account users in the Magnus system

Upgrade to faculty accounts today and start utilizing the benefits: [sales@magnushealth.com](mailto:sales@magnushealth.com)
