DOING BUSINESS 2019

Training for Reform

Economy Profile
St. Lucia

Economy Profile of St. Lucia

*Doing Business 2019 Indicators
(in order of appearance in the document)*

Starting a business	Procedures, time, cost and paid-in minimum capital to start a limited liability company
Dealing with construction permits	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
Getting electricity	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
Registering property	Procedures, time and cost to transfer a property and the quality of the land administration system
Getting credit	Movable collateral laws and credit information systems
Protecting minority investors	Minority shareholders' rights in related-party transactions and in corporate governance
Paying taxes	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as post-filing processes
Trading across borders	Time and cost to export the product of comparative advantage and import auto parts
Enforcing contracts	Time and cost to resolve a commercial dispute and the quality of judicial processes
Resolving insolvency	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
Labor market regulation	Flexibility in employment regulation and aspects of job quality

About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

Doing Business captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of labor market regulation. Although *Doing Business* does not present rankings of economies on the labor market regulation indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

In addition, *Doing Business* offers detailed [subnational reports](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These reports provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* report, published in 2003, covered 5 indicator sets and 133 economies. This year's report covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Ease of Doing Business in
St. Lucia

Region	Latin America & Caribbean
Income Category	Upper middle income
Population	178,844
City Covered	Castries

DB 2019 Ease of Doing Business Score

Note: The ease of doing business score captures the gap of each economy from the best regulatory performance observed on each of the indicators across all economies in the *Doing Business* sample since 2005. An economy's ease of doing business score is reflected on a scale from 0 to 100, where 0 represents the lowest and 100 represents the best performance. The ease of doing business ranking ranges from 1 to 190.

Rankings on Doing Business topics - St. Lucia

Ease of Doing Business Score on Doing Business topics - St. Lucia

Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally start and formally operate a company (number)</p> <ul style="list-style-type: none"> • Preregistration (for example, name verification or reservation, notarization) • Registration in the economy's largest business city • Postregistration (for example, social security registration, company seal) • Obtaining approval from spouse to start a business or to leave the home to register the company • Obtaining any gender specific document for company registration and operation or national identification card <p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day (2 procedures cannot start on the same day) • Procedures fully completed online are recorded as ½ day • Procedure is considered completed once final document is received • No prior contact with officials <p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> • Official costs only, no bribes • No professional fees unless services required by law or commonly used in practice <p>Paid-in minimum capital (% of income per capita)</p> <ul style="list-style-type: none"> • Funds deposited in a bank or with third party before registration or up to 3 months after incorporation 	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p> <p>The business:</p> <ul style="list-style-type: none"> - Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office. - Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - The entire office space is approximately 929 square meters (10,000 square feet). - Is 100% domestically owned and has five owners, none of whom is a legal entity; has a start-up capital of 10 times income per capita and has a turnover of at least 100 times income per capita. - Performs general industrial or commercial activities, such as the production or sale of goods or services to the public. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It does not use heavily polluting production processes. - Leases the commercial plant or offices and is not a proprietor of real estate and the amount of the annual lease for the office space is equivalent to the income per capita. - Does not qualify for investment incentives or any special benefits. - Has at least 10 and up to 50 employees one month after the commencement of operations, all of whom are domestic nationals. - Has a company deed that is 10 pages long. <p>The owners:</p> <ul style="list-style-type: none"> - Have reached the legal age of majority. If there is no legal age of majority, they are assumed to be 30 years old. - Are sane, competent, in good health and have no criminal record. - Are married and the marriage is monogamous and registered with the authorities. - Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.

Figure - Starting a Business in St. Lucia - Procedure, Time and Cost

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

Details - Starting a Business in St. Lucia - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	Lawyer conducts name search and prepares incorporation documents <i>Agency : Lawyer</i> (a) Attorney conducts name search and waits for approval, as approval is not guaranteed. (b) If the name is approved by Commercial Registry it is only then the incorporation documents are prepared. By-Laws are not mandatory but are highly recommended. However, they are not filed together with the incorporation documents and are not included in the formation fee. They are filed subsequent to incorporation and attract a separate filing fee. The Commercial Registry does not charge for a name search, although there is a nominal fee for optional name reservation. Attorney fees vary on case by case basis, with an average fee of around XCD 3500.	2 days	XCD 3,500
2	Registration with the Commercial Registry <i>Agency : Commercial Registry</i> When registering the company with the Commercial Registry, the promoters pay an administrative fee of XCD 850 when presenting the documents for registration. The Registry issues a certification of incorporation once the registration process is finalized, typically within one week.	6 days	XCD 850
3	Make company seal <i>Agency : Sealmaker</i> The Companies Act of Saint Lucia does not require a company to have a seal. Notwithstanding, in practice the usage of a seal is required, for instance, to open a bank account or to engage in specific transactions. Many companies use common rubber as a seal signature to overcome the practical requirement, others make a simple seal, which takes about 2 days.	2 days	XCD 75
⇒ 4	Obtain tax payer identification number <i>Agency : Inland Revenue Department</i> Either the company founder or an incorporation professional must apply in person to the Inland Revenue Department for a company Tax Identification Number (TIN).	1 day, simultaneous with previous procedure	no charge
⇒ 5	Register as an employer with the social security institute <i>Agency : National Insurance Corporation.</i> Either the company founder or an incorporation professional must apply to the National Insurance Corporation to register the company as an employer for Social Security.	1 day, simultaneous with previous procedure	no charge

⇒ Takes place simultaneously with previous procedure.

Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2018. [See the methodology for more information](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally build a warehouse (number)</p> <ul style="list-style-type: none"> Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates Submitting all required notifications and receiving all necessary inspections Obtaining utility connections for water and sewerage Registering and selling the warehouse after its completion <p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> Does not include time spent gathering information Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule Procedure is considered completed once final document is received No prior contact with officials <p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> Official costs only, no bribes <p>Building quality control index (0-15)</p> <ul style="list-style-type: none"> Quality of building regulations (0-2) Quality control before construction (0-1) Quality control during construction (0-3) Quality control after construction (0-3) Liability and insurance regimes (0-2) Professional certifications (0-4) 	<p>To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.</p> <p>The construction company (BuildCo):</p> <ul style="list-style-type: none"> Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts. Owns the land on which the warehouse will be built and will sell the warehouse upon its completion. <p>The warehouse:</p> <ul style="list-style-type: none"> Will be used for general storage activities, such as storage of books or stationery. Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita. Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures. Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements). <p>The water and sewerage connections:</p> <ul style="list-style-type: none"> Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built. Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day. Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

Details - Dealing with Construction Permits in St. Lucia - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	Obtain copy of land register extract <i>Agency : Land Registry Department</i> One copy of the land register extract is required for the building permit application.	1 day	XCD 10
⇒ 2	Obtain survey plan, building forms, location plan (topographic sheet) and LRTP map extract <i>Agency : Lands and Survey Department</i> One copy of the survey plan, two building forms, one copy of a location plan (topographic sheet) and LRTP map extract are required for the building permit application.	1 day	XCD 11
3	Obtain recommendations from Health Department <i>Agency : Health Department</i> Site and floor plans, the proof of ownership and survey plan are submitted, showing adequate drainage and septic tank as well as the elevation (what the building looks like from the outside).	21 days	XCD 250
⇒ 4	Obtain recommendations from Fire Department <i>Agency : Fire Department</i>	14 days	XCD 600
⇒ 5	Receive stamp on drawings from a registered electrical engineer <i>Agency : Registered Engineer</i> A registered electrician must certify that the electrical plans are adequate	3 days	XCD 1,400
6	Obtain approval from DCA's Commercial Committee <i>Agency : Development Control Authority's (DCA) Commercial Committee</i> The committee meets once a month. BuildCo must provide copies of all previous approvals, including all construction drawings required by the Development Control Authority (DCA). The DCA conducts the approval process for public and commercial buildings in Saint Lucia.	42 days	XCD 4,200
7	Receive foundation works inspection <i>Agency : Development Control Authority</i> Development Control Authority will inspect the construction after the completion of foundation and structure works.	1 day	no charge
8	Receive structural works inspection <i>Agency : Development Control Authority</i> BuildCo. receives an inspection from municipal authorities to evaluate the building structure	1 day	no charge
9	Request inspection by Fire Department <i>Agency : Fire Department</i> BuildCo must request an inspection from the Fire Department.	1 day	no charge
⇒ 10	Request inspection from WASCO (Water Department) <i>Agency : WASCO (Water Department)</i> BuildCo must request an inspection from WASCO.	1 day	no charge
⇒ 11	Receive inspection by Fire Department <i>Agency : Fire Department</i> The Fire Department conducts an inspection to evaluate the quality of the construction and verify that the warehouse has been built according to the submitted plans and to their recommendations.	1 day	no charge
⇒ 12	Receive inspection from WASCO (Water Department) <i>Agency : WASCO (Water Department)</i> WASCO conducts an inspection to determine where the connection to water will be made.	1 day	no charge

13	Obtain water connection <i>Agency : WASCO (Water Department)</i> After the inspection is conducted, WASCO provides the warehouse with the connection to water services.	45 days	XCD 150
⇒ 14	Obtain Fire Department letter <i>Agency : Fire Department</i> After the inspection has been conducted, the Fire Department issues a letter, confirming that the construction has followed the Fire Department recommendations	12 days	no charge

⇒ Takes place simultaneously with previous procedure.

Details - Dealing with Construction Permits in St. Lucia - Measure of Quality

	Answer	Score
Building quality control index (0-15)		10.5
Quality of building regulations index (0-2)		2.0
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid; Required preapprovals.	1.0
Quality control before construction index (0-1)		1.0
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed architect.	1.0
Quality control during construction index (0-3)		2.0
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections by in-house engineer; Inspections at various phases.	1.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are always done in practice.	1.0
Quality control after construction index (0-3)		3.0
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, in-house engineer submits report for final inspection.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection always occurs in practice.	1.0
Liability and insurance regimes index (0-2)		0.5
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer.	0.5
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	No party is required by law to obtain insurance .	0.0
Professional certifications index (0-4)		2.0
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	Minimum number of years of experience; University degree in architecture or engineering.	1.0
What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)	Minimum number of years of experience; University degree in engineering, construction or construction management.	1.0

Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to obtain an electricity connection (number)</p> <ul style="list-style-type: none"> Submitting all relevant documents and obtaining all necessary clearances and permits Completing all required notifications and receiving all necessary inspections Obtaining external installation works and possibly purchasing material for these works Concluding any necessary supply contract and obtaining final supply <p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> Is at least 1 calendar day Each procedure starts on a separate day Does not include time spent gathering information Reflects the time spent in practice, with little follow-up and no prior contact with officials <p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> Official costs only, no bribes Value added tax excluded <p>The reliability of supply and transparency of tariffs index (0-8)</p> <ul style="list-style-type: none"> Duration and frequency of power outages (0-3) Tools to monitor power outages (0-1) Tools to restore power supply (0-1) Regulatory monitoring of utilities' performance (0-1) Financial deterrents limiting outages (0-1) Transparency and accessibility of tariffs (0-1) <p>Price of electricity (cents per kilowatt-hour)*</p> <ul style="list-style-type: none"> Price based on monthly bill for commercial warehouse in case study 	<p>To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.</p> <p>The warehouse:</p> <ul style="list-style-type: none"> Is owned by a local entrepreneur and is used for storage of goods. Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway. Is a new construction and is being connected to electricity for the first time. Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet). <p>The electricity connection:</p> <ul style="list-style-type: none"> Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW). Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road. Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base. <p>The monthly consumption:</p> <ul style="list-style-type: none"> It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh. If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier. Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor the ranking on the ease of getting electricity.

Getting Electricity - St. Lucia

Standardized Connection

Price of electricity (US cents per kWh)	30.9
Name of utility	St. Lucia Electricity Services Ltd. (Lucelec)
City Covered	Castries

Indicator	St. Lucia	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Procedures (number)	6	5.5	4.5	3 (25 Economies)
Time (days)	26	65.5	77.2	18 (3 Economies)
Cost (% of income per capita)	174.4	946.3	64.2	0.0 (3 Economies)

Details - Getting Electricity in St. Lucia - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Submit application for inspector's certificate of approval and await inspection</p> <p><i>Agency</i> : Ministry of Infrastructure, Ports, Energy, and Labour</p> <p>Before applying for an electricity connection, the internal wiring should be inspected by an inspector from the Electrical Department of the Ministry of Infrastructure, Transport and Port Services. To apply for this certificate, the customer's licensed electrician (the licenses are issued by the Ministry) would need to submit a standard application form (which can be obtained at the Ministry free of charge).</p> <p>The inspector would verify whether the wiring is electrically and mechanically sound by ensuring that it conforms with the Local Regulations of the Electrical Inspectorate of the Ministry and the IEE Regulations (BS 7671).</p>	10 calendar days	XCD 3,439.5
⇒ 2	<p>Obtain current Land Register from Ministry of Physical Development, Housing and Urban Renewal</p> <p><i>Agency</i> : Ministry of Physical Development, Housing and Urban Renewal (Land Registry Section)</p> <p>Anyone applying for a new electricity connection, including temporary connections from the St Lucia Electricity Services Limited (LUCELEC) must provide a copy of a current land register for the location at which the connection is required. This document is in addition to the existing requirements of an Inspection Certificate from the Ministry of Infrastructure, Port Services and Transport as well as a valid national identification document (ID). The land register is necessary to confirm that the applicant seeking the electricity connection owns the property or has permission from the landlord or property owner. The copy of the land register must be presented to Lucelec within 5 days of being issued. The land register is obtained from the Land Registry in the Ministry of Physical Development, Housing and Urban Renewal.</p>	1 calendar day	XCD 10
3	<p>Submit new connection application to LUCELEC and await estimate</p> <p><i>Agency</i> : St. Lucia Electricity Services Limited (LUCELEC)</p> <p>If the warehouse is more than a hundred feet (30.48 mts.) from the nearest pole on the distribution system, the existing line may need to be extended. The cost of extending the distribution line will be estimated.</p> <p>In order to have an estimate, LUCELEC's employee will visit the premises to determine what is needed to make the connection and whether a transformer is needed. During the visit, nobody from the applicant's side needs to be on site. If a pole has to be planted on applicant's property to support a transformer bank or for whatever reason, the customer or his representative would have to agree on its locations. After some time LUCELEC will issue to the customer an estimate for the connection works.</p>	7 calendar days	XCD 0
4	<p>Pay estimate and await completion of external works by LUCELEC</p> <p><i>Agency</i> : St. Lucia Electricity Services Limited (LUCELEC)</p> <p>Once the customer has paid for the infrastructure's upgrade, work starts right away. On completion the customer applies to the Ministry of Infrastructure, Transport and Ports Services for inspection and certification.</p>	7 calendar days	XCD 30,350
5	<p>Submit application for final connection to LUCELEC</p> <p><i>Agency</i> : St. Lucia Electricity Services Limited (LUCELEC)</p> <p>Once the utility has performed the external infrastructure works (transformer, poles, and lines), the customer applies for the final connection. The customer signature is required on Lucelec's connection documents. However, the customer may give his/her electrical contractor written authorization to carry this procedure on their behalf. To request the connection the client needs to submit the following documents:</p> <ol style="list-style-type: none"> 1. A certificate of compliance for the internal wiring. This certificate is issued by the Ministry of Infrastructure, Ports, Energy, and Labor, 2. A copy of the Land Register issued within 5 days. 3. A form of ID, passport, national ID card or D/L also customer's NIC number is needed. 	1 calendar day	XCD 0

6	Pay security deposit and obtain final connection from LUCELEC <i>Agency : St. Lucia Electricity Services Limited (LUCELEC)</i> The customer has to pay a security deposit (to cover any outstanding bills in case the customer would close the account without paying). The security deposit is paid after the transformer has been installed and the external connection works are completed. The customer is advised to visit one of the four offices of LUCELEC to pay the deposit, following which they would complete the final connection. LUCELEC will also accept a performance bond from the customer's bank.	1 calendar day	XCD 8,150
---	---	----------------	-----------

→ Takes place simultaneously with previous procedure.

Details - Getting Electricity in St. Lucia - Measure of Quality

	Answer
Reliability of supply and transparency of tariff index (0-8)	7
Total duration and frequency of outages per customer a year (0-3)	3
System average interruption duration index (SAIDI)	0.2
System average interruption frequency index (SAIFI)	0.2
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	0.0
Mechanisms for monitoring outages (0-1)	1
Does the distribution utility use automated tools to monitor outages?	Yes
Mechanisms for restoring service (0-1)	1
Does the distribution utility use automated tools to restore service?	Yes
Regulatory monitoring (0-1)	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
Financial deterrents aimed at limiting outages (0-1)	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
Communication of tariffs and tariff changes (0-1)	1
Are effective tariffs available online?	Yes
Link to the website, if available online	http://www.lucelec.com/content/rates-service-standards
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

Note:

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

Registering Property

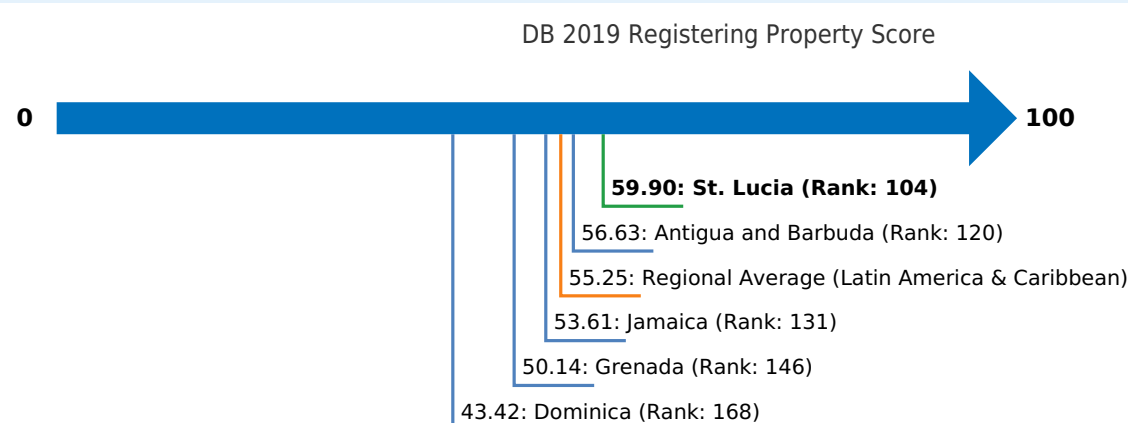

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
Procedures to legally transfer title on immovable property (number)	To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.
<ul style="list-style-type: none"> • Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes) • Registration procedures in the economy's largest business city. • Postregistration procedures (for example, filling title with municipality) 	The parties (buyer and seller): <ul style="list-style-type: none"> - Are limited liability companies (or the legal equivalent). - Are located in the periurban area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - Are 100% domestically and privately owned. - Have 50 employees each, all of whom are nationals. - Perform general commercial activities.
Time required to complete each procedure (calendar days)	The property (fully owned by the seller):
<ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule • Procedure is considered completed once final document is received • No prior contact with officials 	<ul style="list-style-type: none"> - Has a value of 50 times income per capita, which equals the sale price. - Is fully owned by the seller. - Has no mortgages attached and has been under the same ownership for the past 10 years. - Is registered in the land registry or cadastre, or both, and is free of title disputes. - Is located in a periurban commercial zone, and no rezoning is required. - Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety. - Will not be subject to renovations or additional construction following the purchase. - Has no trees, natural water sources, natural reserves or historical monuments of any kind. - Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required. - Has no occupants, and no other party holds a legal interest in it.
Cost required to complete each procedure (% of property value)	
<ul style="list-style-type: none"> • Official costs only (such as administrative fees, duties and taxes). • Value Added Tax, Capital Gains Tax and illicit payments are excluded 	
Quality of land administration index (0-30)	
<ul style="list-style-type: none"> • Reliability of infrastructure index (0-8) • Transparency of information index (0-6) • Geographic coverage index (0-8) • Land dispute resolution index (0-8) • Equal access to property rights index (-2-0)

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

Figure - Registering Property in St. Lucia and comparator economies - Measure of Quality

Details - Registering Property in St. Lucia - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Obtain a certificate of good standing from the Registry of Companies</p> <p><i>Agency : Registry of Companies and Intellectual Property</i></p> <p>The Land Registry requires that the Certificate of Good Standing be produced upon presentation of the Deed for registration. The certificate is requested by the parties' lawyers (for both, seller and buyer companies) upon written request to the Registrar of Companies. The purpose of this requirement is to certify that the company is a validly existing company. The Certificate states the Company's name and registration number; the date of incorporation; the fact that no proceedings have been instituted to strike the name of the company off the Register; that it has filed its annual return for the preceding year with the Registrar of Companies; that it has not filed articles of amalgamation and is not in the process of being wound up and dissolved; that as far as the Registrar is aware no Receiver or Manager of the company's property has been appointed and that the company is a validly existing company.</p>	6 days	XCD 25
⇒ 2	<p>Obtain compliance certificate from the National Insurance Corporation (NIC)</p> <p><i>Agency : National Insurance Corporation (NIC)</i></p> <p>According to the National Insurance Corporation Act of Saint Lucia it is mandatory for employers to deduct from the wages of employees/insured persons a statutory contribution and to remit this sum together with the employer's contribution to the National Insurance Corporation (NIC).</p> <p>An unpaid contribution to NIC ranks as a privileged debt on the same level as state taxes without the necessity for registration and therefore takes priority over the rights of other secured creditors such as registered mortgagees. Therefore, if an employer has not remitted contributions to NIC and that employer's property is sold for example by a secured creditor who has put the property into receivership, NIC's claim will rank above that of the secured creditor.</p> <p>The compliance form can be obtained online at the website however it will have to be faxed or brought in in person.</p>	3 days	no charge
⇒ 3	<p>The purchaser's lawyer conducts searches on the title at the Land Registry</p> <p><i>Agency : The Land Registry, Ministry of Physical Development, Housing and Urban Renewal</i></p> <p>The title search is conducted at the Land Registry a division of the Ministry of Physical Development, Housing and Urban Renewal. It is common practice for a lawyer or his clerk to conduct these searches.</p>	2 days	XCD 5
⇒ 4	<p>Obtain tax clearance certificate from the Inland Revenue Department</p> <p><i>Agency : Inland Revenue Department</i></p> <p>In order for the execution of the deed to proceed, both the seller and purchaser must have paid all outstanding income taxes and property taxes. Therefore, clearance from the Inland Revenue Department must be granted. This usually takes a few days because the Revenue Authority scans all documents. The land Registry will accept the document for registration once the Inland Revenue's stamp is on it indicating that all stamp duties have been paid.</p> <p>For non-nationals, the Vendor's Tax is 10%.</p> <p>The public can now also submit a request for tax clearance via email and fax. However, the tax clearance is collected at one of the Inland Revenue Department offices.</p>	2 days	no charge

⇒ 5	Lawyer prepares and executes deed of sale <i>Agency : Lawyer</i> Ideally, the lawyer can prepare and execute the deed in one day. However, this is dependent upon receiving the “Radiation” document of discharge of the seller’s mortgage from the bank. If there are no mortgages attached to the property, execution of the deed can be done in one or two days at the most. The purchaser pays stamp duty to the Inland Revenue Authority, in addition to EC\$ 20, which represents stamp duty on two additional copies at EC\$ 10 per copy. The scale of lawyers’ fees is set by the Bar Association of St. Lucia, and is used as a basis for the fees. A minimum flat fee of EC\$ 100 is charged in addition to a percentage of property value. At the same time, the buyer will pay 2% for the stamp duty.	2 days	XCD 86,058.05; (Lawyer’s fees + Vendor’s tax + Buyer’s tax + EC\$ 20 (for two additional copies of the deed) Lawyer’s fees: flat fee of EC\$ 100 + % of property value, according to the following scale: Property value / Fee: - Up to 50,000: 2.5% - Up to 100,000: 1.5% - Up to 850,000: 1% - Over 1 million: 0.5% Vendor’s tax: Seller pays vendor’s tax according to the following sliding scale (for a St. Lucian national): Property value / Vendor’s tax: - Up to 50,000: no charge - Between 50,000 and 75,000: 2.5% - Between 75,000 and 150,000: 3.5% - Balance: 5% Buyer’s tax: stamp duty of 2% of the property value.)
⇒ 6	The lawyer retrieves survey plan from the Survey and Mapping Department <i>Agency : Survey and Mapping Department, Ministry of Physical Planning, Housing and Urban Renewal</i> The plan is retrieved from the Survey & Mapping Division within 5 to 10 minutes. The information can be retrieved faster if the survey plan number is available. A search conducted with the Block and Parcel Number of the property can take a few minutes longer. In December 2012, all survey plans have been placed in digital format, eliminating the need to physically retrieve and print plans. With the digital system, surveys plans can be printed immediately following the search on the computerized system.	1 day	XCD 5; (EC\$ 5 minimum depending on a size of a survey plan)
⇒ 7	Search for encumbrances at the Registry of the High Court <i>Agency : Registry of the High Court</i> This search is necessary to ascertain whether or not there are any judgments against the purchaser and the vendor. Unless all judgments are settled, the transaction cannot proceed.	1 day	XCD 7; (EC\$ 5 + EC\$ 1 for each page copied)
8	Register title deed with Land Registry <i>Agency : The Land Registry</i> The registration fee is EC\$20 per parcel. The original Deed is kept by the lawyer/notary, one copy remains with the Land Registry and one copy goes to the purchaser. Registration time depends on whether or not all documentation is complete and all fees and taxes have been paid, as well as on the work load of the Registry. Stamp duty is paid to the Inland Revenue Authority. Documentation required: - Deed of sale	9 days	XCD 20

9	Register new owner with the Inland Revenue Authority <i>Agency</i> : Inland Revenue Authority A property owner is required to declare the property to the Inland Revenue Department within thirty (30) days of becoming the owner. This declaration must be a true statement of: 1. The description, Block and Parcel number, area and value of the land and in the case of a house it's rental value; 2. The mailing address and a contact number of the owner or representative.	1 day	no charge
---	---	-------	-----------

Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Strength of legal rights index (0-12)</p> <ul style="list-style-type: none"> • Rights of borrowers and lenders through collateral laws (0-10) • Protection of secured creditors' rights through bankruptcy laws (0-2) <p>Depth of credit information index (0-8)</p> <ul style="list-style-type: none"> • Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8) <p>Credit bureau coverage (% of adults)</p> <ul style="list-style-type: none"> • Number of individuals and firms listed in largest credit bureau as a percentage of adult population <p>Credit registry coverage (% of adults)</p> <ul style="list-style-type: none"> • Number of individuals and firms listed in credit registry as a percentage of adult population 	<p><i>Doing Business</i> assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.</p> <p>In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.</p> <p>Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:</p> <ul style="list-style-type: none"> - ABC is a domestic limited liability company (or its legal equivalent). - ABC has up to 50 employees. - ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - Both ABC and BizBank are 100% domestically owned. <p>The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).</p> <p>In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.</p>

Getting Credit - St. Lucia

Indicator	St. Lucia	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	5	5.4	6.1	12 (5 Economies)

5

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy?

No

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral?

Yes

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral?

Yes

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets?

Yes

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered?

Yes

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name?

No

Does a notice-based collateral registry exist in which all functional equivalents can be registered?

No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party?

No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure?

No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated?

No

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it?

No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt?

Yes

Figure - Credit Information in St. Lucia and comparator economies

Details - Credit Information in St. Lucia

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	No	No	0
Are both positive and negative credit data distributed?	No	No	0
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	No	No	0
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	No	No	0
Are data on loan amounts below 1% of income per capita distributed?	No	No	0
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	No	No	0
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	No	No	0
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	No	No	0

Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Full disclosure of all material facts	2.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction only	1.0
Must Buyer immediately disclose the transaction to the public? (0-2)	No disclosure obligation	0.0
Extent of director liability index (0-10)		8.0
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	Yes	1.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0-2)	Liable if unfair or prejudicial	2.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer (0-2)	Liable if unfair or prejudicial	2.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	Yes	1.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	Yes	1.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	No	0.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Voidable if negligently concluded	1.0
Ease of shareholder suits index (0-10)		8.0
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	No	0.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Any relevant document	3.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	Yes	1.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	Yes	2.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	Yes	1.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes if successful	1.0
Extent of shareholder governance index (0-10)		3.7
Extent of shareholder rights index (0-10)		4.0
Does the sale of 51% of Buyer's assets require shareholder approval?	No	0.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	Yes	1.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	No	0.0
Do shareholders automatically receive preemption rights every time Buyer issues new shares?	No	0.0

Must shareholders approve the election and dismissal of the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Assuming that Buyer is a limited company, does the sale of 51% of its assets require member approval?	No	0.0
Assuming that Buyer is a limited company, can members representing 10% call for a meeting of members?	Yes	1.0
Assuming that Buyer is a limited company, must all or almost all members consent to add a new member?	No	0.0
Assuming that Buyer is a limited company, must a member first offer to sell their interest to the existing members before they can sell to non-members?	No	0.0
Extent of ownership and control index (0-10)		4.0
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0
Must the board of directors include independent and nonexecutive board members?	Yes	1.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	Yes	1.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Must Buyer pay declared dividends within a maximum period set by law?	No	0.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	Yes	1.0
Assuming that Buyer is a limited company, must Buyer have a mechanism to resolve disagreements among members?	No	0.0
Assuming that Buyer is a limited company, must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Assuming that Buyer is a limited company, must Buyer distribute profits within a maximum period set by law?	No	0.0
Extent of corporate transparency index (0-10)		3.0
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	No	0.0
Assuming that Buyer is a limited company, must members meet at least once a year?	No	0.0
Assuming that Buyer is a limited company, can members representing 5% put items on the meeting agenda?	Yes	1.0
Assuming that Buyer is a limited company, must Buyer's annual financial statements be audited by an external auditor?	No	0.0

Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2018 covering for the Paying Taxes indicator calendar year 2017 (January 1, 2017 – December 31, 2017). [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Tax payments for a manufacturing company in 2017 (number per year adjusted for electronic and joint filing and payment)</p> <ul style="list-style-type: none"> • Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax) • Method and frequency of filing and payment <p>Time required to comply with 3 major taxes (hours per year)</p> <ul style="list-style-type: none"> • Collecting information, computing tax payable • Preparing separate tax accounting books, if required • Completing tax return, filing with agencies • Arranging payment or withholding <p>Total tax and contribution rate (% of commercial profits)</p> <ul style="list-style-type: none"> • Profit or corporate income tax • Social contributions, labor taxes paid by employer • Property and property transfer taxes • Dividend, capital gains, financial transactions taxes • Waste collection, vehicle, road and other taxes <p>Postfiling Index</p> <ul style="list-style-type: none"> • Time to comply with a VAT refund (hours) • Time to obtain a VAT refund (weeks) • Time to comply with a corporate income tax correction (hours) • Time to complete a corporate income tax correction (weeks) 	<p>Using a case scenario, <i>Doing Business</i> records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.</p> <p>To make data comparable across economies, several assumptions are used:</p> <ul style="list-style-type: none"> - TaxpayerCo is a medium-size business that started operations on January 1, 2016. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2017). Taxes and mandatory contributions are measured at all levels of government. <p>The VAT refund process:</p> <ul style="list-style-type: none"> - In June 2017, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2017. <p>The corporate income tax audit process:</p> <ul style="list-style-type: none"> - An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

Paying Taxes - St. Lucia

Indicator	St. Lucia	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Payments (number per year)	35	27.1	11.2	3 (Hong Kong SAR, China)
Time (hours per year)	110	330.0	159.4	49 (Singapore)
Total tax and contribution rate (% of profit)	34.7	46.7	39.8	26.1% (32 Economies)
Postfiling index (0-100)	77.80	47.04	84.41	None in 2017/18

Figure - Paying Taxes in St. Lucia and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

	Answer	Score
Postfiling index (0-100)		77.80
VAT refunds		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	Yes	
Restrictions on VAT refund process	Carry forward for 3 months	
Percentage of cases exposed to a VAT audit (%)	50% - 74%	
Is there a mandatory carry forward period?	Yes	
Time to comply with VAT refund (hours)	8.3	83.5
Time to obtain a VAT refund (weeks)	25.6	56.77
Corporate income tax audits		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	25% - 49%	
Time to comply with a corporate income tax correction (hours)	2.5	98.17
Time to complete a corporate income tax correction (weeks)	8.7	72.77

Notes: Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

Trading across Borders

Doing Business records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure

Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

Time: Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as $22 \times 24 = 528$ hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

Cost: Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to enforce a contract through the courts (calendar days)</p> <ul style="list-style-type: none"> • Time to file and serve the case • Time for trial and to obtain the judgment • Time to enforce the judgment <p>Cost required to enforce a contract through the courts (% of claim)</p> <ul style="list-style-type: none"> • Attorney fees • Court fees • Enforcement fees <p>Quality of judicial processes index (0-18)</p> <ul style="list-style-type: none"> • Court structure and proceedings (-1-5) • Case management (0-6) • Court automation (0-4) • Alternative dispute resolution (0-3) 	<p>The dispute in the case study involves the breach of a sales contract between 2 domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.</p> <p>To make the data comparable across economies, <i>Doing Business</i> uses several assumptions about the case:</p> <ul style="list-style-type: none"> - The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - The buyer orders custom-made goods, then fails to pay alleging that the goods are not of adequate quality. - The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater. - The seller sues the buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000. - The seller requests the pretrial attachment of the defendant's movable assets to secure the claim. - The dispute on the quality of the goods requires an expert opinion. - The judge decides in favor of the seller; there is no appeal. - The seller enforces the judgment through a public sale of the buyer's movable assets.

	Answer	Score
Quality of judicial processes index (0-18)		11.5
Court structure and proceedings (-1-5)		4.5
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		1.5
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	Yes	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, but manual	0.5
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
Case management (0-6)		3.0
1. Time standards		1.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	Yes	
1.c. Are these time standards respected in more than 50% of cases?	Yes	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	No	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	n.a.	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	Yes	1.0
4. Is a pretrial conference among the case management techniques used before the competent court?	Yes	1.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
Court automation (0-4)		1.5
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	no	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	Yes	1.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.5
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	Yes	
Alternative dispute resolution (0-3)		2.5
1. Arbitration		1.5

1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	
2. Mediation/Conciliation		1.0
2.a. Is voluntary mediation or conciliation available?	Yes	
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects?	Yes	
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No	

Resolving Insolvency

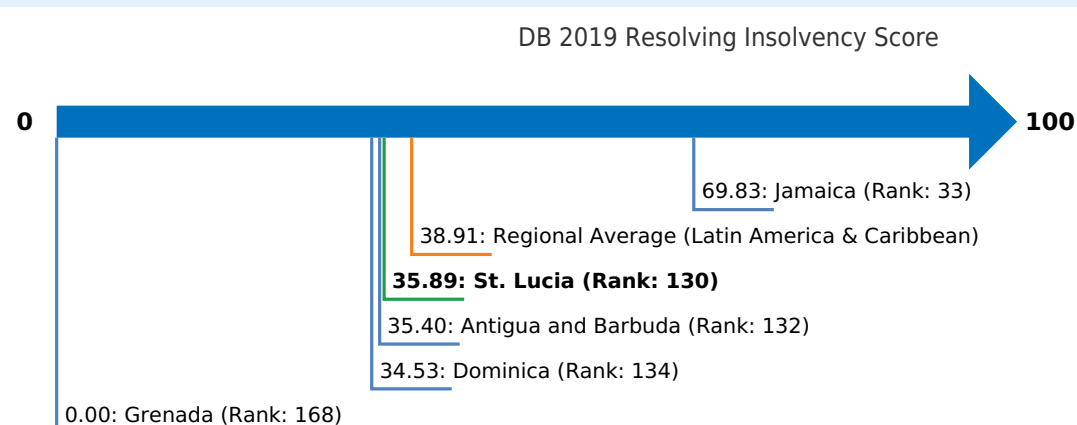

Doing Business studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to recover debt (years)</p> <ul style="list-style-type: none"> Measured in calendar years Appeals and requests for extension are included <p>Cost required to recover debt (% of debtor's estate)</p> <ul style="list-style-type: none"> Measured as percentage of estate value Court fees Fees of insolvency administrators Lawyers' fees Assessors' and auctioneers' fees Other related fees <p>Outcome</p> <ul style="list-style-type: none"> Whether business continues operating as a going concern or business assets are sold piecemeal <p>Recovery rate for creditors</p> <ul style="list-style-type: none"> Measures the cents on the dollar recovered by secured creditors Outcome for the business (survival or not) determines the maximum value that can be recovered Official costs of the insolvency proceedings are deducted Depreciation of furniture is taken into account Present value of debt recovered <p>Strength of insolvency framework index (0- 16)</p> <ul style="list-style-type: none"> Sum of the scores of four component indices: Commencement of proceedings index (0-3) Management of debtor's assets index (0-6) Reorganization proceedings index (0-3) Creditor participation index (0-4) 	<p>To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:</p> <ul style="list-style-type: none"> - A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties. - The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater. - The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise. <p>In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.</p>

Resolving Insolvency - St. Lucia

Indicator	St. Lucia	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	43.5	30.9	70.5	None in 2017/18
Time (years)	2.0	2.9	1.7	0.4 (Ireland)

Indicator	Answer	Score
Proceeding	receivership	According to Section 287 of the Companies Act, debenture holders are entitled to realize any security interest vested in them if the company fails to pay within 1 month after the payment becomes due. BizBank (secured creditor) can initiate receivership proceeding by applying to the Court to appoint an identified receiver to enforce its security interest as the debenture holder
Outcome	piecemeal sale	The hotel will stop operating and Mirage's assets will be sold piecemeal in a public auction upon the completion of the receivership proceeding due to the difficulty to sell the business as a going concern in the market.
Time (in years)	2.0	The receivership proceeding will take approximate 2 years until BizBank is repaid some or all of the money owed to it. After one month since Mirage's default, BizBank would apply to the Court to appoint an identified receiver to enforce its security interest as the debenture holder. The Court will notify relevant parties and hold a hearing in 9 months. Then within half a year, the Court will make a decision on the receivership request. If appeal rises, it usually takes 6 months until the final decision on proceeding with the receivership is made. Then the receiver will assess Mirage's business and preparation for the sale of a business. In practice, it's difficult to sell the business as a going concern and a piecemeal sale of the assets will happen. The preparation and execution of the auction take approximate 3 months.
Cost (% of estate)	9.0	The costs associated with the case would amount to approximately 9% of the value of the debtor's estate. Cost incurred during the entire insolvency process mainly Court fees (0.5%), attorney fees (3%) and receiver fees (5%), fees of accountants, assessors, inspectors and other professionals (0.5%)
Recovery rate (cents on the dollar)		43.5

Details - Resolving Insolvency in St. Lucia - Measure of Quality

	Answer	Score

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Labor Market Regulation

Doing Business presents detailed data for the labor market regulation indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The report does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure

Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the probationary period; (iv) minimum wage.

Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) whether nonpregnant and nonnursing women can work same night hours as men; (v) length of paid annual leave.

Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments due when terminating a redundant worker.

Job quality

(i) whether law mandates equal remuneration for work of equal value and nondiscrimination based on gender in hiring; (ii) whether law mandates paid or unpaid maternity leave; (iii) length of paid maternity leave; (iv) whether employees on maternity leave receive 100% of wages; (v) availability of five fully paid days of sick leave a year; (vi) eligibility requirements for unemployment protection.

Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

Labor Market Regulation - St. Lucia

Details - Labor Market Regulation in St. Lucia

	Answer

Business Reforms in St. Lucia

In the past year, *Doing Business* observed a peaking of reform activity worldwide. From June 2, 2017, to May 1, 2018, 128 economies implemented a record 314 regulatory reforms improving the business climate. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

DB2017

✗ **Getting Electricity:** The utility made getting electricity more difficult by introducing a requirement to obtain a current land registry extract to get a new connection.

✓ **Trading across Borders:** St. Lucia made exporting and importing easier by upgrading an electronic data interchange system and linking the customs and port authorities through a common online platform.

DB2015

✓ **Trading across Borders:** St. Lucia made trading across borders easier by implementing the ASYCUDA World electronic system for the submission of export and import documents and by reducing the number of export documents required.

DB2014

✗ **Trading across Borders:** St. Lucia made trading across borders more difficult by introducing a new export document.

DB2010

✓ **Starting a Business:** St. Lucia made starting a business easier by implementing an electronic registration system that allows entrepreneurs to check the availability of and reserve company names online.

✗ **Paying Taxes:** St. Lucia made tax compliance more time consuming for companies by fully implementing new consumption tax legislation.

Doing Business 2019 is the 16th in a series of annual reports investigating the regulations that enhance business activity and those that constrain it. The report provides quantitative indicators covering 11 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
