

# HealthPRO® Heritage Daily Staff Self and Patient Response Reporting

## **Self-Reporting**

All HealthPRO® Heritage therapists are required to complete a self-screen each morning before 10 a.m. and prior to scheduling visits. Responses are to be recorded by the therapist electronically through the confidential HealthPRO® Heritage health monitoring link for tracking and retrieval. Therapists must record their response to the following questions:

1. Have you been in contact with an individual confirmed to have COVID-19?
2. Are you experiencing fever of 100.4 degrees or greater?
3. Are you experiencing respiratory issues including a cough, sore throat, or difficulty breathing?
4. Have you traveled outside the United States in the last 14 days?
5. Have you Pre-Screened all of your patients prior to scheduling your visits?

## **Patient Pre-Screening**

All HealthPRO® Heritage therapists are required to complete a Pre-Screening of each of their patients each morning prior to scheduling visits and/or before entering a patient's home. Therapists must record their response to the following questions in the Subjective section of the visit note:

1. Has the patient traveled internationally within the last 14 days to countries with sustained community transmission? (For updated information on affected countries visit: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>)
2. Does the patient demonstrate signs or symptoms of respiratory infections, such as a fever, cough or sore throat?
3. In the last 14 days has the patient had contact with someone with or under investigation for COVID-10, or are ill with respiratory illness?
4. Does the patient reside in a community where community-based spread of COVID-10 is occurring?
