

MimioTeach

FOR  TIME

Learn How Creating an Effective & Engaged Classroom is Easier Than You Think

How to Use and Navigate the TFYT Demonstration

TFYT Demonstration

This demonstration will allow you to showcase the complete Boxlight Solution. Whether it's whole-class learning, small-group collaboration, formative assessment, or STEM-based learning, Boxlight offers the services, software, and classroom technology that enable teachers to easily and effectively enhance student outcomes and build essential skills.

For the TFYT promotion, you should focus on MimioTeach, MimioStudio, and MimioMobile while presenting these tools as part of our larger solution. Starting with a MimioTeach is just the beginning of what their interactive classroom can be with Boxlight. The presentation includes our entire product line, so if time allows, or they express interest in other solutions you have them readily available.

The next few pages will show you how to easily navigate the demo.

Table of Contents

All menu items are hyperlinked within the document so you can easily jump to any section.

The MimioTeach and MimioStudio sections are within whole-class learning. Mimiomobile can be found in the Assessment and Collaboration tools.

Who and Why Boxlight

Boxlight History

Founded in 1985.

- Quickly became a leader in presentation technology.
- Became synonymous with projection and display solutions.

Refocused on K-12 education in 2009.

- Patented CMOS interactive projectors

Acquired Mimio in 2016.

- Mimio was founded at MIT.

Why Partner with Boxlight?

We make it easy to find the solutions that will help your teachers do an even better job of enhancing academic outcomes while building essential skills.

Our solutions are easy to install and to support.

We design technology and software so easy to use and effective, your teachers will want to use it every day.

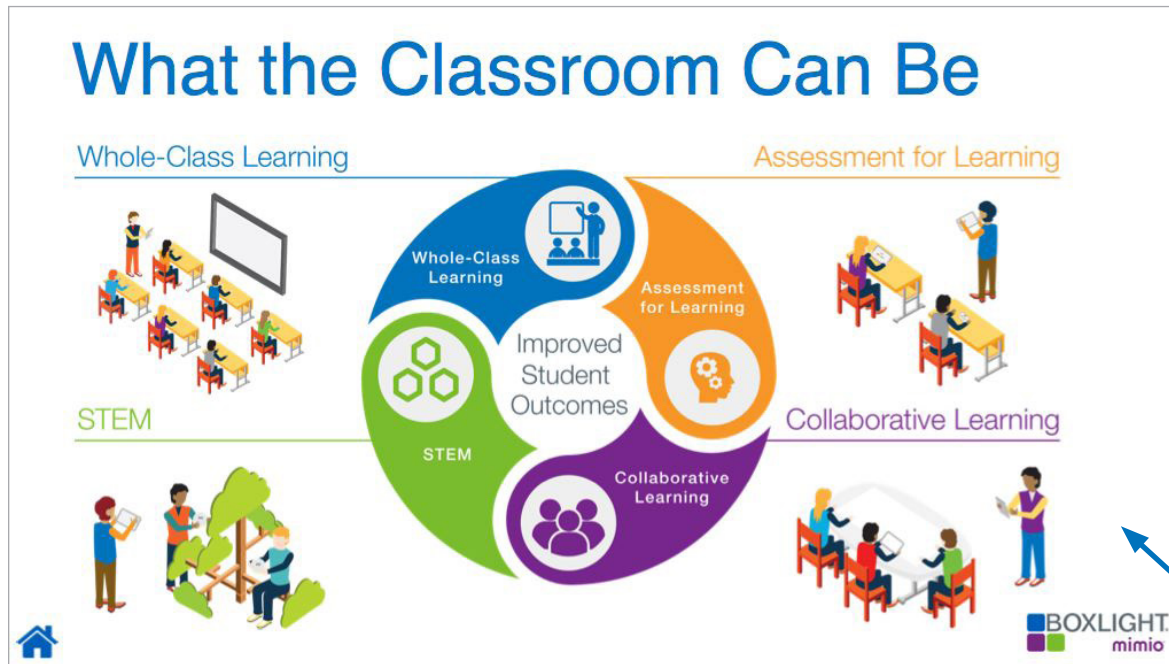

We provide service and products you can rely on, so you can focus on your schools, teachers, and students.

The beginning of the demo gives a brief history of Boxlight. The next slide highlights the key differentiators for Boxlight.

What the Classroom Can Be

This slide highlights all the different areas of learning that the Boxlight solution can help educators enhance student learning and improve outcomes.

Click the slide to show the animation from the learning areas to a selection of products Boxlight offers.

Learning Areas

Each area of learning has an introduction slide to highlight its importance and list which Boxlight products can be used for the various learning styles.

The product list is hyperlinked so you can jump to any product slide.

Whole-Class Learning

Whole-class learning can be teacher- or student-led. Several students working together at the front of room to highlight a key concept. Formal and informal assessment, to determine which type of learning should come next. Wide range of tools – so the whole class can be engaged in learning.

MimioTeach Interactive Whiteboard | MimioBoard Touch Boards |
Boxlight Interactive Projectors | Boxlight Laser Projectors |
ProColor Interactive Flat Panels | MimioStudio Classroom Software |
MimioCapture Ink Capture System | SoundLite System

Activity Slides

The activity slides give you a chance to show the tools and software in action.

Make sure to highlight the commonly used tools that will benefit the educators and students.

| Algebra Practice Problems | | |
|-------------------------------|-----------------------------|------------------------------|
| Problem 1: $3p - 2 = -29$ | Problem 2: $4r + 7 = 15$ | Problem 3: $5n - 9 = -9$ |
| Problem 4: $12r + 4 = 100$ | Problem 5: $3x + 6 = 15$ | Problem 6: $5x - 10 = 15$ |

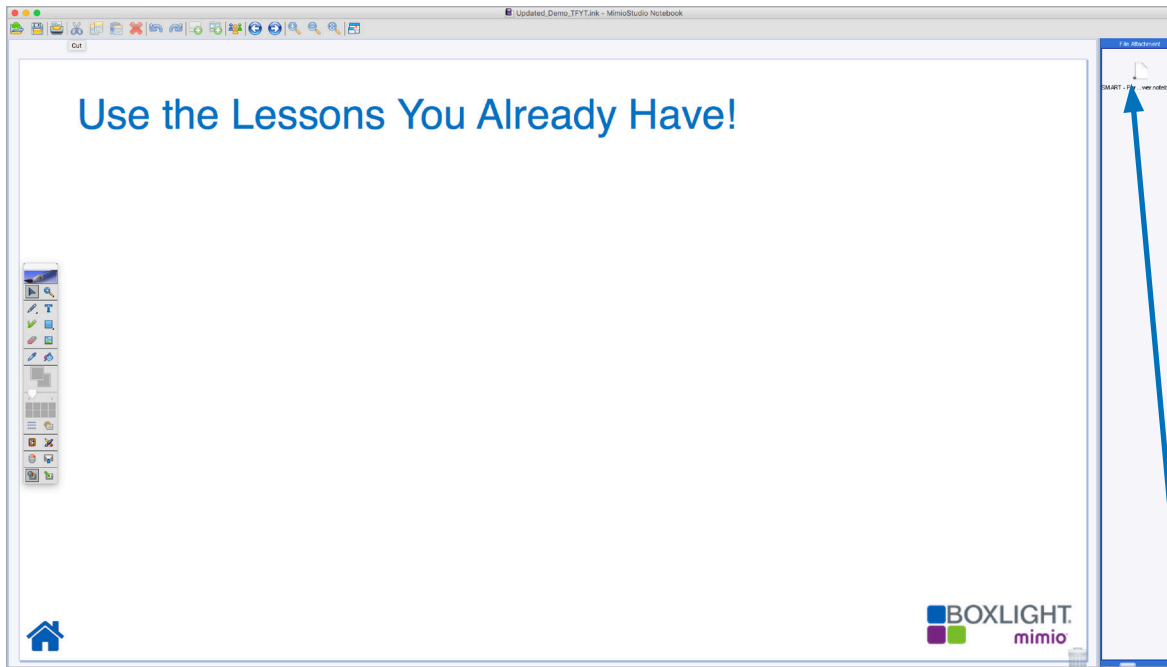

Show how MimioTeach and MimioStudio work in action. Highlight the key tools and benefits.

Activity Slides - Opening Other Files

A key differentiator for Boxlight is the ability for MimioStudio to open Smart or Promethean files and have the elements remain usable. This means no time or resources lost for teachers.

This slide allows you to bring in a SMART Notebook file and show this amazing time-saver.

In the file attachments section you will find the SMART file to bring in and demonstrate the ability for MimioStudio to bring in files natively.

Training, Support, and Community

Slides 57-58 highlight how Boxlight is much more than just hardware. We offer training resources, 24/7/365 support, and MimioConnect—an online educator community with free lessons and assets. All of these pages are hyperlinked directly to the valuable resources.

Training Resources

On-Demand
◦ No-cost, self-paced, online video tutorials and Quick Learn recording

Support Resources

Feel confident in the tools you use every day.
Boxlight provides:

24/7/365 US-based technical support.

MimioConnect™
Interactive Teaching Community

Training to fit your budget and schedule.
