# CHROMERIVER

# Transform expense data into actionable insights

*Using Chrome River DATA EXPLORER with ANALYTICS delivers compelling reports to your team while empowering you to uncover cost-saving opportunities and make strategic business decisions to drive growth.*

Chrome River ANALYTICS is powered by a world-class business intelligence reporting engine which converts expense spend data into compelling, intuitive reports. Chrome River ANALYTICS delivers a bundled set of standard reports, in addition to the flexibility to create custom reports through a browser-based report writer. Analyze spend by expense category to uncover strategic opportunities for better negotiated rates with hotels, rentals cars and more. With Chrome River ANALYTICS, users can generate impactful reports and analyses on their own for efficient and effective decision making.

Global organizations are capturing large volumes of expense data, but are challenged with uncovering insights. They are using manual processes to drill into their data, limiting their ability to be agile with spend decisions. Chrome River DATA EXPLORER, a part of the ANALYTICS suite, empowers your team by offering an enhanced way to take advantage of spend data. DATA EXPLORER summarizes critical information into data visualizations enabling anyone to easily identify patterns and opportunities. With DATA EXPLORER, you will empower your organization to make smarter budgeting decisions and drive meaningful growth.

## Intuitive Reporting

Chrome River ANALYTICS allows business users to leverage modern ad hoc functionality quickly and easily generate complex reports and dashboards from multiple sources without IT intervention.

## Gain Insights

With our powerful DATA EXPLORER visualizations, business users can easily identify critical spend patterns that may have been overlooked in text form. DATA EXPLORER provides actionable insights to help your organization make smarter T&E spend decisions.

## Increase Control

Enhance your level of control over your finances by understanding where you're spending so that you can make cost-saving business decisions. ANALYTICS allows you to operate more efficiently financially.

## Custom Reports

- Chrome River provides flexibility through a browser-based report writer, so custom reports can be created. Select the data you want and easily construct a report of almost any type.

## Visualizations

- Take advantage of graphical, drag and drop web-based visualizations that makes it easy for non-technical users to discover patterns and dependencies within financial data.
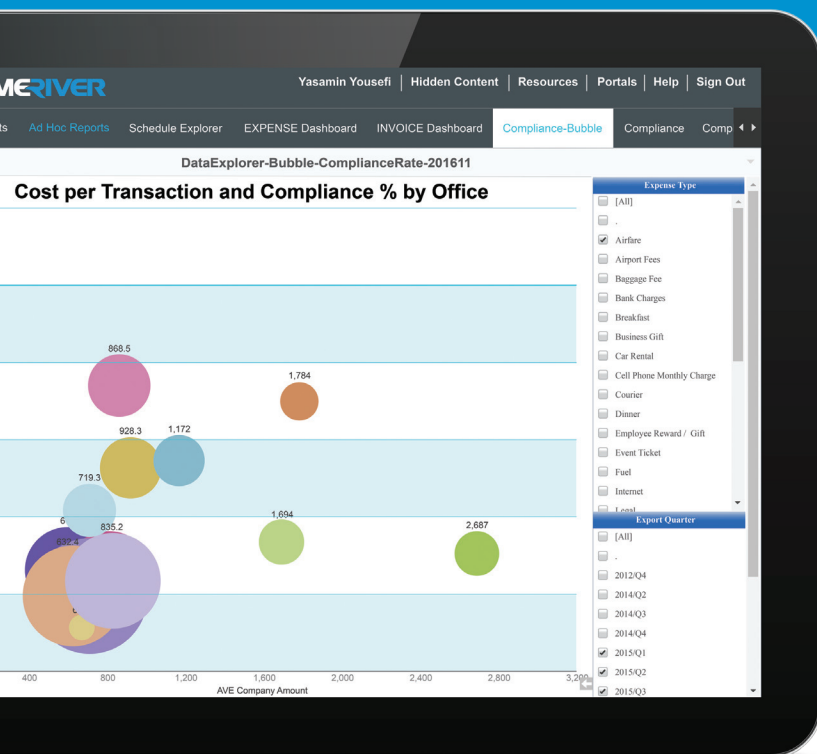

## Effortless deployment and maintenance

- There is no software to install and no desktop client to maintain. Our internet application makes powerful ad hoc applications readily available via the Web for users across your enterprise.

## Speedy Query Response Times

- With DATA EXPLORER, you can leverage speedy, powerful columnar database technology to ensure you get the data you need to make better business decisions while saving you valuable time.

*Analytics reports are very helpful and we are identifying ways we can save money and where we might have been entitled to credits on corporate cards.*
