

Open Payments Compliance

Chrome River EXPENSE Simplifies Open Payments Compliance.

Pharmaceutical, medical device manufacturing, medical supply companies and group purchasing organizations (GPOs) are required by the 'National Physician Payment Transparency Program: Open Payments' to track and report payments and any financial relationships between physicians and teaching hospitals. These payments include travel expenses, meals, entertainment, consulting fees, research payments and other benefits over \$10. Chrome River simplifies the daunting reporting process and lets business flow.

Tools to manage healthcare provider spend

Chrome River EXPENSE helps organizations by making it easy to track Healthcare Provider (HCP) spend and report accurate expense payment data in order to comply with federal and state regulations avoid stiff penalties.

- Simplifies the creation of expense reports and proper assignment of expenses related to healthcare National Physician Payment Transparency Program: Open Payments professionals
- Perform easy, real-time searches of healthcare providers as expenses are being entered
- Provides seamless and immediate access to the entire Centers for Medicare & Medicaid (CMS) government database of providers along with all of their associated data
- In addition to the CMS government database of providers, MedPro's DirectID – Chrome River, provides access to more than 14 million HCP and HCO records
- Set spend limitations set for specific types of expenses
- Provides complex aggregate spend compliance reporting required by both the federal government and a growing list of states

MedProID®

By integrating MedPro Systems' MedProID® Healthcare Provider (HCP) database into Chrome River EXPENSE, customers are provided access to more than 14 million HCP and HCO records from the most comprehensive and up-to-date source of healthcare data available, drawing from 800+ State License Boards, plus DEA, AMA, NPI, and CDS sources. To ensure information is accurate and current, MedPro Systems obtains state license data from the appropriate licensing agencies on a regularly-scheduled basis. The information is cross-referenced with other industry data sources to provide the foundation for reliable license validation.

Why Chrome River?

Chrome River is a leading provider of expense reporting and supplier invoice automation solutions. We understand the severity of the penalties that can be imposed on organizations that fail to comply with Open Payments and have designed an intuitive, easy way for those employees filing expense reports to quickly assign validated healthcare providers to any related expenses. Chrome River EXPENSE has a proven, strong feature set that will simplify tracking and ensure that compliance to CMS reporting requirements are quick, easy and accurate. Chrome River lets business flow.
