Accessibility experts are hard to find...

Why not be your own expert? Deque University offers training for every level of expertise on just about every aspect of digital accessibility.

Our self-paced online courses span from fundamentals of web accessibility to native mobile accessibility, PDF accessibility, special role-based accessibility topics, and even prep-courses for accessibility certification.

If you have a group that needs training, Deque U provides instructor-lead courses and bootcamps. Our instructors can work with your team in-person or remotely, and we can build a custom curriculum to suit the specific needs of your team.

More and more organizations are realizing they have to comply digital accessibility requirements. Deque University training is the best investment you can make to meet those requirements and educate your team for long-term success.

What will you learn at Deque University?

Web Accessibility

Our Web Accessibility courses provide detailed guidance on accessibility for HTML, CSS, and other web content. These courses are oriented towards developers and anyone else working with front-end code.

- Semantic Structure and Navigation
- Accessible Images
- Accessible Visual Design
- Accessible Multimedia
- Device Independence
- Accessible Forms
- Dynamic Updates, AJAX, and Single-Page Applications
- Custom JavaScript/ARIA Widgets
- Accessibility Testing Methods and Tools

Mobile Accessibility

For mobile developers, our courses cover accessibility for websites on mobile devices as well as accessibility for native mobile applications.

Difficulty: Intermediate to Advanced; requires previous knowledge of web and native mobile development

Topics Covered:

- Mobile Web Accessibility
- iOS Mobile App Accessibility (*Coming soon!*)
- Android Mobile App Accessibility (*Coming soon!*)

Document Accessibility

All of those great downloadable PDFs on your website and the beautiful Word documents you share with your clients, students, and coworkers need to be accessible too! Our document accessibility courses will show you how.

Difficulty: Beginner to Intermediate

Topics Covered:

- PDF Accessibility Techniques
- Microsoft Word Accessibility Techniques
- Microsoft PowerPoint Accessibility Techniques
- EPUB Accessibility Techniques
- Adobe InDesign Accessibility Techniques

Role-Based Accessibility Training

We've even got special role-based accessibility topics including...

- Designing an Accessible User Experience
- Accessibility for Content Contributors
- Accessibility Program Management

Not sure where to start? Try Web Accessibility Fundamentals!

IAAP Certification

Deque is on of the International Association of Accessibility Professionals' (IAAP) **Approved Certification Preparation Providers**. Deque University offers courses to help you prepare for both the Certified Professional in Accessibility Core Competencies (CPACC) exam and Web Accessibility Specialist (WAS) exam.

CPACC Exam Course:

- IAAP CPACC Certification Preparation

WAS Exam Courses:

The IAAP WAS exam is intended for professionals who work as accessibility specialists. According to the IAAP, "the WAS is the ideal credential for those who personally design, develop, implement, evaluate, or manage the technical details of accessible web solutions." Deque University's WAS preparation curriculum is therefore quite extensive. It includes...

- The entire Web Accessibility curriculum
- Mobile Web Accessibility
- Designing an Accessible User Experience

Visit the IAAP website to learn more about these exams including exam dates and registration: www.accessibilityorganization.org
