Achieve your accessibility goals faster

Accessibility is a multifaceted process requiring the participation of leaders and team members across your organization. You can depend on the Deque Team to help define a path to accessibility success that is efficient, flexible, sustainable, and minimizes disruption to existing processes. Whether your accessibility needs are driven by compliance, design or development we can help you.

Deque Accessibility Services

Whether you have an immediate accessibility need or are building a program for scale, Deque Experts deliver results. Choose a combination of assessments, remediation or training that work for you. If you don't know where to start, we can help with that too.

Audits & Verification

Need to know how accessible your website and applications are? An assessment is a great place to start. Our experts can tailor an Audit that matches your specific needs.

Accessibility Remediation

Embed an accessibility expert alongside your teams to fix accessibility issues in-house or allow Deque accessibility experts to do it for you.

Program Strategy & Compliance

Deque accessibility experts craft a customized program to help you integrate accessibility compliance into your organization.

Comprehensive Digital Accessibility Training

Accessibility training is an essential part of becoming accessible and staying accessible. We've got instructor-led training as well as online, self-paced training through Deque University. Training is for beginners and experts, teams and individuals, developers, designers, content creators, and everything in between.

About Deque Accessibility Experts

Deque employees are some of the most experienced accessibility experts in the world.

More International Association of Accessibility Professionals (IAAP) certified experts than any company in the world.

Several employees serve as active contributers to the W3C working group, writing and maintaining WCAG.

At Deque Systems our mission is to make the digital world accessible to everyone. Whether you're driven to meet compliance goals or just trying to make the web a better place, our accessibility tools, services and training are the standard of the accessibility industry.

In partnership with major corporations, government agencies, educational institutions, and non-profit organizations we're working hard to ensure that web sites, mobile apps, and digital content is accessible to everyone.
