# Certificate of Achievement for Excellence in Financial Reporting

Presented to

# Port Freeport Texas

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

**September 30, 2014** 

Executive Director/CEO

# Mission Statement

Port Freeport serves its
customers and stakeholders through the
development and marketing of
competitive world class navigational
capabilities, technically advanced marine
and multimodal terminal services and
port-related industrial facilities while
achieving profits and creating jobs as a
leading economic catalyst for the Port
and the Texas Gulf Coast.

(979) 233-2667 1 (800) 362-5743 FAX: (979) 233-5625

#### STATE OF THE PORT

#### Diverse growth expands Port Freeport's role as dynamic economic force

As Brazoria County's gateway to the world, Port Freeport is continuing to diversify its service offerings to encompass growing trade in containerized, roll-on/roll-off and project cargo sectors while advancing initiatives to ensure sustained significant contributions to the region's economy for decades to come.

In the fiscal year ended Sept. 30, 2015, Port Freeport completed a \$37 million capital expansion program while benefiting from newly initiated services from the world's No. 1 container line, the top global roll-on/roll-off carrier and the preeminent international project cargo expert.

With the initiation in October 2014 of weekly container service by Mediterranean Shipping Co. S.A., under a slot charter agreement with Chiquita Brands International Inc., Port Freeport has augmented its links with Central America and gained vital access to worldwide markets.

The MSC service and weekly calls by Dole Fresh Fruit Co. vessels are efficiently served by two post-Panamax ship-to-shore cranes that handled their first lifts at Berth 7 just prior to the commencement of fiscal 2015. Over the past year, International Longshoremen's Association labor in concert with the port's stevedoring firms has steadily enhanced productivity, with a 50 percent increase in moves per hour in the first 12 months of the cranes' operations.

Meanwhile, fiscal 2015 saw Höegh Autoliners begin roll-on/roll-off service under a 10-year agreement to serve Port Freeport in collaboration with AMPORTS. With an average of six to eight vessel calls a month at a pair of deepwater berths, Höegh is handling exports of as many as 13,000 vehicles per month to the Middle East, as well as car imports from Asia and moves of high-and-heavy cargos. Exports, including Chevrolet Suburban SUVs, come from the General Motors assembly plant in Arlington, Texas.

Höegh subsidiary Horizon Terminal Services LLC has invested \$5 million in vehicle processing facilities at the Port Freeport terminal, having completed 15 acres for staging and storage of vehicles in addition to 40 acres adjacent to the port's inner harbor already in place for holding nearly 5,000 vehicles at a time. More than 150 neighboring acres are available for further expansion of vehicle operations.

On the project cargo front, a newly inked pact with Mammoet USA South Inc. is facilitating moves through Port Freeport of industrial units weighing as many as 700 tons apiece bound for the region's petrochemical plants, where a combined \$25 billion in capital expansions are under way.

A 12-acre Port Freeport parcel is now the site for weekly pipe imports and is soon to see project cargo moves in support of the building by Tenaris of its first U.S. seamless pipe mill, which, when completed, will be importing large quantities of steel billets used in the manufacture of pipe.

With an eye toward the future and greater safe navigability, Port Freeport is continuing to move forward with the U.S. Army Corps of Engineers in the effort to deepen the port channel from its present 45 feet to as many as 55 feet and maintain 400-foot width throughout its length through a project authorized under the Water Resources Reform and Development Act of 2014

Port Freeport's master plan calls for \$250 million in additional undertakings, while thousands of acres of yet-to-be utilized port lands offer ample opportunity for future generations to benefit from the port's propitious location directly on the Texas Gulf Coast, just 60 highway miles south of Houston.

With Port Freeport's virtually limitless potential, Port Freeport continues its commitment to being a dedicated contributor to the community as well as a top notched Port. We look forward to the continued growth in the years to come.

Most sincerely,

Slun a Salron

#### LETTER OF TRANSMITTAL

January 29, 2016

MEMBERS OF THE PORT COMMISSION PORT FREEPORT FREEPORT, TEXAS

#### Gentlemen:

The Comprehensive Annual Financial Report for Port Freeport (Port) for the year ended September 30, 2015 is hereby submitted for your review. Responsibility for both the accuracy of the information contained herein and the completeness and fairness of the presentation, including all disclosures, rests with the administration of the Port. To the best of our knowledge and belief, the enclosed data is accurate in all material aspects and is reported in a manner designed to fairly present the financial position and results of operations of the Port. All disclosures necessary to enable the reader to gain an understanding of the Port's financial activities have been included.

The Port has prepared the Comprehensive Annual Financial Report following the guidelines recommended by the Government Accounting Standards Board (GASB). The report is presented in three sections:

Introductory Section – includes the title page, table of contents, letter of transmittal and Certificate of Achievement. It is designed to introduce the reader to the report and present basic background information about the Port as a whole, as well as highlights of the year's operations.

Financial Section - includes the auditor's report, management's discussion and analysis, the Port's basic financial statements and notes and required supplementary information.

Statistical Section - includes tables that cover periods of ten years relating to the operational and fiscal activity of the Port as well as historical growth trends of the Port. This section also includes a brief history of the Port as well as geographical information.

#### **GENERAL**

Brazoria County is one of Texas' most fertile agricultural areas, one of the region's more prolific fuel and mineral areas, and in recent decades, the location of one of the world's largest chemical manufacturing complexes. The primary economic bases of the county include chemical manufacturing, petroleum and natural gas processing, offshore production maintenance services, diversified manufacturing, biochemical and electronic industries, commercial fishing and agriculture. In addition, the area's deep-water channel and port facilities, sports fishing services and tourism are major components of the county's economic base. Since 2004 the northern portion of the county has seen extensive residential, retail and healthcare development with no evidence of slowing in the near term. The Brazoria County Index of Leading Economic indicators increased 14.28 percent from May 2014 to May 2015. The Leading Economic Index, which is designed to forecast the economic performance of the county over the next three to six-months, has been above the six month moving average for the last six out of seven months. This indicates that the county is likely entering into or is currently experiencing a period of economic growth. (Brazosport College Economic Forecasting Center, 2015).

Port Freeport is a political subdivision of the State of Texas encompassing approximately 85 percent of Brazoria County, Texas. The Port exists under the provisions of Article XVI, Section 59 of the Texas State Constitution and related sections of the Revised Civil Statutes of the State of Texas and all amendments thereto. In 2007, the State of Texas passed House Bill 542, which changed the legal name of the Brazos River Harbor Navigation District to "Port Freeport" and the name of the governing body of the Brazos River Harbor Navigation District to "Port Commission" and the name of each member of the Port Commission to "Port Commissioner." The Port, being a political subdivision of the State of Texas, is a separate and distinct entity and operates independently with its own Port Commission as its governing body.

The Port Commission is comprised of six members. Five positions represent a specific geographic area, and one position is at-large. Each Port Commissioner serves a term of six years. The six-year terms are staggered with an election held each uneven numbered year for two commissioner positions.

The Executive Port Director and staff manage the operations of the Port under the auspices of the Port's Commission.

#### FINANCIAL

The financial statements are prepared using the single enterprise fund model in accordance with GASB 34. The financial reporting entity includes the enterprise fund of the primary government, Port Freeport, as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. The Brazos Harbor Industrial Development Corporation (IDC) is a component unit of the Port; however, it is discretely presented and has no assets, liabilities, equities or financial transactions. Financial information for the IDC is limited to the disclosure of revenue bonds issued on behalf of others in the notes to the financial statements.

Discussion and analysis of the financial statements and the Port's financial performance may be found in Management Discussion and Analysis at the beginning of the Financial Section.

**Internal Controls.** The administration of the Port is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Port are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformance with generally accepted governmental accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived, and 2) the valuation of costs and benefits requires estimates and judgments by administration. The Port has adopted practices and procedures measures related to fraud prevention and reporting.

The Port Commission adopts an annual budget in August for the next fiscal year beginning October 1. Management periodically presents statements comparing actual with budget, explaining significant variances.

#### OTHER FINANCIAL INFORMATION

The Port has financial policies which are designed to provide parameters for managing the financial performance of the Port. Two of the Port's more significant financial policies are the cash management and risk management policies.

**Cash Management.** The Port's investment policy complies with the <u>Public Funds Investment Act</u> and is designed to minimize any risk of loss of principal, while maintaining a competitive yield on the funds it has available for investment. Accordingly, Port cash temporarily idle during the year was invested in money market funds, certificates of deposit and guaranteed governmental securities as authorized by the policy. In addition, all deposits were and continue to be either insured by federal depository insurance or otherwise collateralized. All collateral on deposits in excess of federal depository insurance amounts are held by the Port or by the financial institution's trust department or a Federal Reserve Bank in the Port's name.

**Risk Management.** The Port's schedule of insurance provides for comprehensive coverage of all areas of risk. The Port has engaged a consultant to assist with risk management issues.

**Independent Auditor.** The state statutes require an annual audit by independent certified public accountants. Kennemer, Masters & Lunsford, LLC, the independent certified public accountants selected by the Port Commission, audited the basic financial statements for the year ended September 30, 2015.

**Awards.** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for excellence in financial reporting to the Port for its Comprehensive Annual Financial Report for the Fiscal Year ended September 30, 2014. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such comprehensive annual financial reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Port has received this prestigious award for the last twenty-four consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

#### **MAJOR INITIATIVES**

**2015.** Initiated during 2013, the Port continued with its master plan development effort producing and presenting a draft plan to the Board of Commissioners early in the fiscal year. This draft plan outlines, in a phased approach, the long-term development and reconfiguration of the Port's facilities which had been deemed necessary to capture identified addressable market opportunities as well as maintain and grow existing lines of business. Included in the plan is the full build out of Velasco Terminal as well as development of laydown, warehousing and rail facilities on currently undeveloped tracks of land owned by the Port.

As a result of securing additional lines of business during 2014 and 2015, the Port undertook certain improvements to existing facilities and development of new facilities including the creation of concrete and paved open storage and to accommodate the import and export for passenger vehicles and large dimensional construction equipment.

**Future.** With a favorable outcome for both the initial reconnaissance and subsequent feasibility studies, the United State Army Corp of Engineers (USCOE) issued its Chief's Report early in 2013 to the United States Congress recommending the deepening of the Freeport Harbor Channel. Acting on this recommendation, Congress included in the Water Resources Reform and Development Act (WRRDA) of 2014 authorization to move forward with the proposed project funding initial construction planning and design work. During 2014 it was determined that additional improvements, beyond those proposed and authorized in WRRDA, were necessary in order to accommodate the safe navigation of the feasibility study's design vessel. Based on these findings, the Port is actively engaged with the USCOE to develop a multi stage process to adjust for these additional requirements which include bend easing and channel width increases. It is anticipated that the initial phase which will address safe navigation at the current channel depth will cost approximately \$ 137 million and will be shared 75%/25% between the Federal Government and Port. Additional phases will provide for the ultimate deepening of the channel to 2014 WRRDA authorized depths.

Permitting and detailed design work is currently underway for the further build out of Velasco Terminal, as recommended in the draft Master Plan, including the extension of Berth 7, construction of Berth 8, construction of a RoRo berth, purchase of additional ship to shore gantry cranes and development of backland to support berth operations. The permit request submission is scheduled for the September of 2016 with an anticipated approval the following year at about the same time. Costs associated with this further build out are \$ 180 million and are scheduled out over the next 5 years.

These initiatives as well as others are outlined further in Management's Discussion and Analysis in the Financial Section.

#### ACKNOWLEDGEMENTS

The preparation of this Comprehensive Annual Report could not have been accomplished without the aid of the Controller and other Finance Department staff members. These individuals have my sincere appreciation for their efficient and dedicated support in the preparation of this report. Thanks and appreciation also is extended to the Executive Port Director and the Commissioners for their guidance, insight and support throughout the year.

Respectfully Submitted,

Ju lu Fran

Jeffrey L. Strader, CPA Chief Financial Officer

Port Freeport

# Safety Statement

At Port Freeport, Safety and Health is priority #1.

Our commitment is to ensure a positive safety culture by providing our employees with necessary procedures and tools to work safely each day AND to ensure valid safety concerns are immediately addressed.

Every person working at Port Freeport is responsible for following safety procedures and ensuring a safe work environment exists.

Nothing less is acceptable.

Independent Auditor's Report

To the Port Commissioners Port Freeport Freeport, Texas 77541

#### **Report on the Financial Statements**

We have audited the accompanying statements of net position of Port Freeport (the "Port") as of and for the years ended September 30, 2015 and 2014, and the related statements of revenues, expenses, and changes in net position and cash flows, and the related notes to the financial statements, which collectively comprise the Port's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Port, as of September 30, 2015 and 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 21 through 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Port's basic financial statements. The introductory section and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

Herrener, Masters & Hungford, LLC

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2016, on our consideration of the Port's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Port's internal control over financial reporting and compliance.

Lake Jackson, Texas January 29, 2016

#### Management Discussion and Analysis

The management of Port Freeport (Port) offers readers this narrative overview and analysis of the financial activities of the fiscal years ended September 30, 2015, 2014 and 2013. This section is intended to enhance the clarity and usefulness of the financial statements for citizens, oversight bodies, investors and creditors. The Port's financial activities are being reported under the requirements of Governmental Accounting Standards Board (GASB) Statement 34 as a single enterprise fund.

#### **Financial Highlights**

#### September 30, 2015

- Total Net Position increased by \$ 5.3 million.
- Total Assets increased by \$ 34.4 million primarily due to an increase in property, plant and equipment of \$ 27.4 million as a result of completion of a new open storage yard and other equipment, an increase in trade receivable of \$ 1.6 million, and an increase in cash and cash equivalents of \$ 18.8 million offset by a decrease in investments of \$ 13.2 million.
- Total Liabilities increased by \$ 29.1 million due to an increase in net revenue bonds outstanding.
- Change in Net Position decreased due to additional depreciation expense.

#### September 30, 2014

- Total Net Position increased by \$ 5.8 million.
- Total Assets increased by \$ 5.7 million primarily due to an increase in property, plant and equipment of \$ 15.2 million as a result of purchase of two ship to shore container cranes and other equipment and an increase in cash and cash equivalents of \$ 5.3 million offset by a decrease in investments of \$ 14.5 million.
- Total Liabilities were consistent with the previous year.
- Change in Net Position was lower than the previous year primarily due to the receipt of fewer federal grant funds.

#### September 30, 2013

- Total Net Position increased by \$ 9.4 million.
- Total Assets increased by \$ 24.4 million primarily due to an increase in cash and cash equivalents of \$ 9.8 million and an increase in investments of \$ 6.9 million both primarily as a result of the receipt of bond proceeds and a settlement related to the Velasco Terminal, Berth 7. Property, plant and equipment increased by \$ 6.9 million, net of depreciation due to the addition of land improvements at Velasco Terminal.
- Total Liabilities increased by \$ 14.9 million due to an increase in net revenue bonds outstanding.
- Change in Net Position was improved over the previous year primarily due to the receipt of a settlement related to Velasco Terminal.

#### **Overview of Financial Statements**

This discussion and analysis serves as an introduction to the Port's basic financial statements. These statements include a statement of net position that is a statement of assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position; a statement of revenues, expenses and changes in net position that reports all revenues and expenses during the year and their net; a statement of cash flows that reports sources and uses of cash; and notes to the financial statements that explain some of the information in the financial statements and provide more detail. The basic financial statements are prepared on the accrual basis, whereby revenues are recognized when earned, and expenses are recognized when incurred, regardless of when cash is received or paid.

Management Discussion and Analysis

#### **Financial Analysis**

Over time, increases or decreases in the Port's net position may serve as a useful indicator of whether the Port's financial position is improving or deteriorating. For the years ended September 30, 2015, 2014 and 2013, the Port's net position increased by 3 percent, 3 percent and 5 percent to \$ 200 million, \$ 195 million and \$ 189 million, respectively.

Net investment in capital assets at September 30, 2015, 2014 and 2013, was \$ 146.5 million, \$ 149.4 million and \$ 132.4 million, or 73 percent, 77 percent and 70 percent of total net position, respectively. Net investment in capital assets includes land, buildings, machinery and equipment less any related debt used to acquire these assets. These net capital assets are recorded at historical cost and are net of depreciation. The remaining net position, at September 30, 2015, 2014 and 2013, are divided into three categories: restricted for debt service, \$ 9.1 million, \$ 2.8 million and \$ 2.8 million; restricted for capital projects, \$ 15 thousand, \$ 16 thousand and \$ 16 thousand; and unrestricted net position, \$ 44.6 million, \$ 42.7 million and \$ 53.9 million, respectively. Restrictions do not significantly affect the availability of resources for future use.

The Port's total net position increased by \$ 5.3 million in 2015, \$ 5.8 million in 2014 and \$ 9.4 million in 2013. These increases were provided by operating income (including depreciation) of \$ 2.9 million, \$ 2.5 million and \$ 1.1 million; \$ 2.1 million, \$ 2.3 million and \$ 1.8 million in non-operating net revenues including ad valorem taxes of \$ 4.8 million, \$ 4.7 million and \$ 5.2 million and capital contributions of \$ 270 thousand, \$ 1.0 million and \$ 4.7 million, respectively. In addition there were net extraordinary revenues of \$ 1.8 million in 2013.

Total revenues, including capital contributions, have been relatively consistent over the past three years at \$ 23.7 million in 2015, \$ 23.0 million in 2014 and \$ 24.9 million in 2013. Operating revenues increased by \$ 1.6 million in 2015 to \$ 18.6 million, increased by \$ 2.0 million in 2014 to \$ 17.0 million, and increased \$ 223 thousand in 2013 to \$ 15.0 million. Tonnage overall increased 14 percent to 2.9 million tons in 2015 while ship calls increased 3 percent and barge calls increased 8 percent. Tonnage overall increased 30 percent to 2.6 million tons in 2014 while ship calls increased 34 percent and barge calls decreased 59 percent. Tonnage overall increased 18 percent to 2.0 million tons in 2013 while ship calls increased 7 percent and barge calls decreased 24 percent. Green fruit imports increased 10 percent or 31 thousand tons, decreased 18 percent or 80 thousand tons, and increased 9 percent or 39 thousand tons, in 2015, 2014 and 2013, respectively. Rice exports increased 70 percent to 99 thousand tons in 2015, decreased 29 percent to 58 thousand tons in 2014, and increased 19 percent to 82 thousand tons in 2013. Domestic rice activity increased 9 percent to 27 thousand tons in 2015, decreased 82 percent to 14 thousand tons in 2014, and decreased 16 percent to 77 thousand tons in 2013. This was also directly related to the 8 percent increase in barge calls for 2015, 59 percent decrease in barge calls for 2014, and 24 percent decrease in barge calls for 2013. There were no import liquefied natural gas tonnages in 2015. Import liquefied natural gas tonnages decreased to 130 thousand tons, and increased to 197 thousand tons in, 2014 and 2013, respectively.

#### Management Discussion and Analysis

Exported liquefied natural gas increased to 125 thousand tons in 2015, remained at 124 thousand tons in 2014, and decreased to 124 thousand tons in 2013. Bulk limestone increased 37 percent to 1.6 million tons in 2015, increased 162 percent to 1.2 million tons in 2014, and increased 131 percent to 455 thousand tons in 2013. General export cargo increased 11 percent to 555 thousand tons in 2015, increased 10 percent to 495 thousand tons in 2014, and increased 19 percent to 447 thousand tons in 2013. Total lease revenue increased 51.9 percent in 2015, increased 9 percent in 2014, and increased 7 percent in 2013; ground lease revenue increased \$ 3.6 million in 2015, increased \$ 279 thousand in 2014, and increased \$ 355 thousand in 2013 due to new customers as well as contractual rate adjustments. Other leases remained relatively the same in 2015, 2014 and 2013.

Ad valorem tax revenue increased by 1.7 percent to \$ 4.8 million in 2015 and was \$ 4.7 million and \$ 5.2 million in 2014 and 2013, respectively. The increase in the current year ad valorem tax revenues is a result of increases in the taxable value. The tax rate remained the same in total for 2015 as compared to 2014, reduced from 5.15 to 4.5 cents per hundred dollars valuation in 2014, and reduced from 5.35 to 5.15 cents per hundred dollars valuation in 2013. Investment income decreased by \$ 148 thousand in 2015 as compared to 2014 as a result of a reduced funds available for investment and a net change in investment market values of investments. Investment income increased by \$ 325 thousand in 2014 as compared to 2013 and decreased by \$ 174 thousand in 2013 as compared to 2012 both as a result of a net change in investment market values. Grant revenues in 2015 were lower than 2014 by \$ 772 thousand and in 2014 were lower than 2013 by \$ 3.6 million both due to a decrease in Port Security grant expenditures and related revenue, and in 2013 were higher than 2012 by \$ 2.4 million due to an increase in Port Security grant expenditures and related revenue. Capital contributions in 2015, 2014 and 2013 were directly related to contributions to others made by the Port for grant and capital related projects.

Management Discussion and Analysis

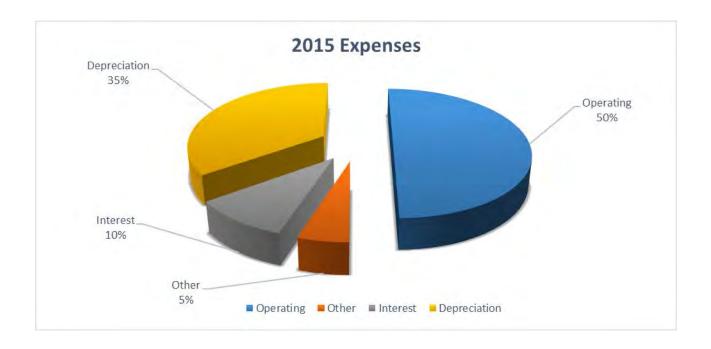

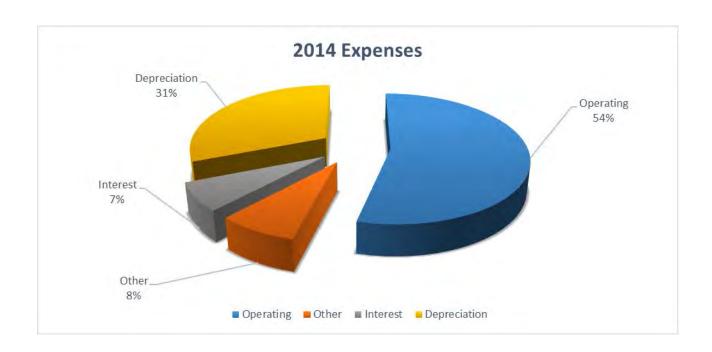

#### Management Discussion and Analysis

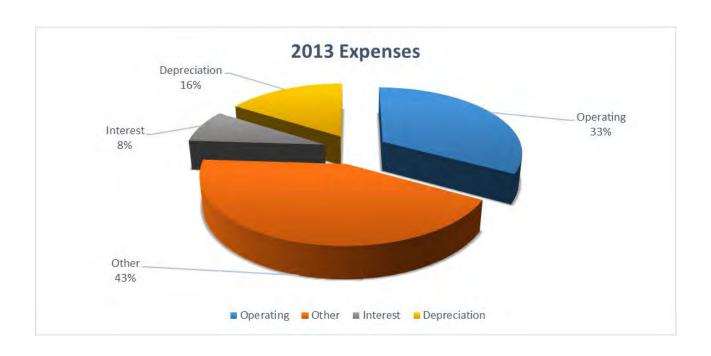

Total expenses increased 7 percent to \$ 18.4 million from \$ 17.2 million in 2015, decreased 40 percent to \$ 17.2 million from \$ 28.6 million in 2014, and increased 34 percent to \$ 28.6 million in 2013. Operating expenses, including depreciation, were \$ 15.7 million in 2015 increasing \$ 1.2 million or 8 percent, were \$ 14.5 million in 2014 increasing \$ 685 thousand or 5 percent, and \$ 13.9 million in 2013 increasing \$ 1.5 million or 12.5 percent. Payroll and related expenses decreased by 11 percent in 2015 primarily due to five open positions during the year, increased by 4 percent in 2014 primarily due to regular salary increases, and increased by 7 percent in 2013 primarily due to the filling of vacant positions and regular salary increases. Professional services expenses increased by \$ 298 thousand in 2015 due to the increase of fees associated with security, decreased by \$ 201 thousand in 2014 due to decreased legal fees associated with construction issues, and increased by \$ 98 thousand in 2013. Supplies and other expenses were relatively consistent in 2015 as compared to 2014 with no significant changes in port operations and with prices for supplies and fuel relatively consistent during this period, increased in 2014 by \$ 172 thousand over 2013, and in 2013 by \$ 260 thousand over 2012 due to increased equipment supplies. Utilities and maintenance expenses were increased by \$ 307 thousand in 2015 as compared to 2014 due to maintenance of the crane and other cargo equipment, consistent in 2014 as compared to 2013, and increased by \$ 434 thousand in 2013 over 2012 due to maintenance of the crane and other cargo equipment. Depreciation expense in 2015 increased by 21% due to the addition of new equipment and fixed assets, in 2014 increased by 18% due to the addition of new equipment and fixed assets, and in 2013 increased by 13% due to the addition of new assets for the Velasco Terminal Berth 7.

The Port had a small gain on the sale of capital assets in 2015 and 2013, and no gain or loss on sale of capital assets in 2014. Debt interest and fees increased to \$ 1.9 million in 2015 due to increases in outstanding debt, decreased to \$ 1.3 million in 2014 due to decreases in interest rates, and was consistent in 2013 as compared to 2012. Other expenses have decreased significantly in 2015 and 2014 due to no additional repair expenses related to the Velasco Terminal issue as the issue was settled in 2013. Other expenses increased significantly in 2013 due to costs incurred for the Velasco terminal repairs.

Management Discussion and Analysis

Management Discussion and Analysis

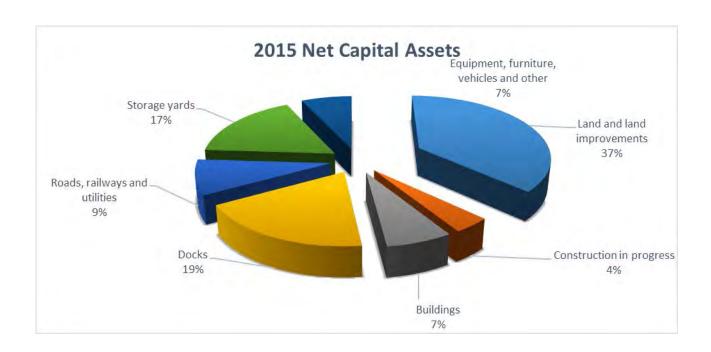

#### **Capital Assets and Long Term Debt**

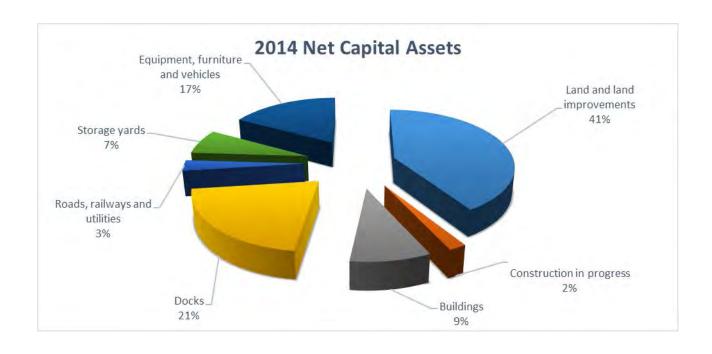

The Port's capital assets are \$ 234.0 million, \$ 206.6 million, and \$ 191.4 million, net of depreciation, as of September 30, 2015, 2014 and 2013, respectively. The capital assets include land and land improvements, docks and appurtenances, buildings, storage yards, equipment, roads and railways, utilities and construction in progress. In 2015, 2014 and 2013 there were additions of \$ 33.8 million, \$ 20.5 million, and \$ 11.7 million (net of construction in progress placed in service) with depreciation of \$ 6.4 million, \$ 5.3 million and \$ 4.5 million, respectively.

Regarding additions, security gate improvements added \$ 353 thousand to buildings in 2015, administration office renovations added \$ 116 thousand to buildings in 2014, and the emergency operations center and related infrastructure added \$3.8 million to buildings in 2013. Land and improvements additions were \$ 247 thousand, \$ 799 thousand, and \$ 12.5 million, in 2015, 2014 and 2013, respectively, primarily related to the Velasco Terminal civil site work, and land acquisitions of properties adjacent to the Port. Inner Harbor Berth repairs added \$ 704 thousand in 2015, and the completion of Velasco Terminal Berth 7 added \$ 30 million to docks in 2013. Railroad track renovations and repairs to the electrical distribution system for 2015 totaled \$ 2.1 million. Storage yard additions totaled \$ 25.1 million in 2015. Equipment, furniture, vehicles and other additions totaled \$ 577 thousand in 2015 with the purchase of equipment, \$ 17.7 million in 2014 with the purchase of two ship to shore container cranes, and \$ 520 thousand in 2013 with the purchase of equipment and security equipment. Gross additions to construction in progress were \$ 6.6 million in 2015, \$ 2.2 million in 2014, and \$ 480 thousand in 2013, including the administration building, emergency operations center, open storage yard improvements, additional security systems, and Velasco Terminal improvements. Construction in progress placed in service totaled \$ 1.9 million in 2015, \$ 362 thousand in 2014, and \$ 38.0 million in 2013, respectively. Additional information on capital assets can be found in Note 4 on pages 49-51 of this report.

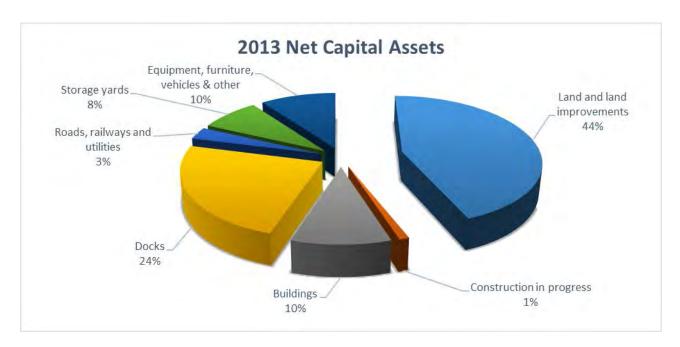

Total bonds payable are \$73.4 million at September 30, 2015, \$43.0 million at September 30, 2014, and \$58.8 million at September 30, 2013. Senior Lien Revenue Bonds, Series 2013A, 2013B and 2013C were issued in June of 2013. The 2013A series bonds were issued to refund the 2008 Series bonds which were set to mature in 2028. The 2013B and 2013C series bonds were issued to complete the construction of the new Velasco Terminal and resulting expansion of the related business. 2013B series were refunded in 2015 and 2013C series were paid off in 2014. Senior Lien Revenue and Refunding Bonds, Series 2015A, were issued in September 23, 2015. The 2015A series bonds were issued to refund the Port's outstanding Senior Lien Revenue Notes, Series 2013B and to provide for financing to acquire, construct and develop repairs and improvements to and equip a container terminal complex. As of September 30, 2015 the amount outstanding on these revenue bonds was \$ 69.1 million, \$ 37.7 million at September 30, 2014, and \$ 52.6 million at September 30, 2013. The debt service for these bonds is paid from the Port's operating revenues. In 2007 the Unlimited Tax Bonds, Series 1998 were partially refunded with Unlimited Tax Refunding Bonds, Series 2006 and in November 2009, were further refunded with the Unlimited Tax Refunding Bonds, Series 2009. As of September 30, 2015 the Port had general obligation bonds payable of \$ 4.3 million, \$ 5.3 million at September 30, 2014 and \$ 6.2 million at September 30, 2013. The final maturity for these general obligation bonds is 2019. The debt service for these bonds is paid from ad valorem tax revenue. On September 30, 2014, the Port entered into a capital lease financing agreement ("Master Lease-Purchase Financing Agreement") with Chase Bank in the amount of \$ 14.1 million with a balance at September 30, 2015 of \$ 12.8 million. The agreement calls for annual principal and interest payments beginning on September 30, 2015 and ending on September 30, 2024. The Capital lease represents a refinancing of the two cranes purchased during the year ended September 30, 2014 based on a Reimbursement Agreement (Resolution Expressing Intent to Finance Expenditures Incurred) adopted by the Board of Commissioners' on August 8, 2013. Additional information on long-term debt activity can be found in Note 5 on pages 52-55 of this report.

Management Discussion and Analysis

Management Discussion and Analysis

#### Outlook

There are a number of significant developments known at this time which will affect the future financial performance of the Port both in the long as well as mid-term time periods. With the opening of Velasco Terminal Berth 7 and the purchase of two ship-to-shore container cranes, Port Freeport is positioned to continue in growth. The capability of handling cargo resulted in two new major clients. Mediterranean Shipping Co. S.A., the world's largest containership carrier and Höegh Autolines, the world's top roll-on/roll-off vessel operator. Port Freeport now has global access for its customers. The finalization of the masterplan will provide guidance for the future development plans for the Port for the near future as well as long term.

Included in the masterplan is the full build out of Velasco Terminal. Design of the extension of Berth 7, Berth 8 and a RoRo ramp have begun. Full build out will also include the development of backland to support the berths as well as purchase of additional equipment. Costs associated with this plan are \$ 180 million and are schedules over the next five years. A combination of public and private funding is being explored to fund the projects. Any resulting partnership with the private sector will provide revenue streams in the form of fixed annual facility payments and throughput on cargos handled across the terminals berths. The masterplan also presents guidance for future development of Port facilities on undeveloped land for laydown, warehousing, and rail facilities. These initiatives are estimated to cost \$ 70 million and will further enhance the capabilities of the Port. Development planning is underway and will be funded largely through a public and private source.

In 2004 Freeport LNG Development, L.P. (FLNP) received approval from the Federal Energy Regulatory Commission (FERC) for construction of a re-gas facility to receive and store imported liquefied natural gas (LNG), convert the product back to a gas form and transport it to commercial and industrial users via pipeline. This facility was completed and placed in operation in the second quarter of 2008. With the announcement of shale oil and gas plays in north Texas and other regions of the United States, FLNG refocused its operations on the exportation of LNG and began the permitting process with FERC in 2010. To date they have received all of the necessary permits. In addition to the permits they have closed on all of their funding for construction. Construction of these liquefaction facilities are estimated to cost \$11 billion and with an anticipated completion date in 2019. Further, in order to provide expanded storage for the facility, FLNG reached agreement with a third party for salt dome storage capacity of approximately 7.5 billion cubic feet. A contract has been awarded for mining of the salt and de-brining of the caverns with the facility becoming available concurrent with the liquefaction facilities. This operation has and will continue to provide significant increases to the Port's lease revenues as operations ramp up.

Management Discussion and Analysis

In response to the fore mention oil and gas shale plays, Tenaris Global Services (U.S.A.) Corporation a whole owned subsidiary of Tenaris, S.A. has begun construction of seamless pipe fabrication facility located in Bay City, Texas. It is estimated that construction will take approximately two years to complete with manufacturing operations commencing in 2017. Once operational, the Port expects to receive raw materials in the form of steel billet to be transported to the production facility as well as a portion of the plant's finished product for short-term storage and export shipment. This operation is projected to provide substantial revenue flows from both cargo handling as well as leasing activities.

With the competition of the initial reconnaissance and subsequent feasibility study, The U.S. Army Corps of Engineers (USCOE) issued a Chiefs report in January of 2013 indicating a Federal interest, supported by favorable project economics, to widen the Port Freeport Navigational channel to a width up to 600 feet from the current 400 feet and deepen it to a depth of up to 55 feet from the current 45 feet. The next project phase will include formal project authorization and funding to allow for the development of the preliminary engineering and design (PED) as well as the project management plan (PMP). At present, the project is authorized in the Water Resources Development Act of 2014. Initial funding for the PED and PMP is included in the approved 2014 Federal budget. It is estimated that following congressional authorization the project will be completed in 7 to 10 years at estimated total project cost of \$300 million which will be cost shared on a 50-50 basis between the Federal government and the Port. Competition of the proposed improvements will allow the Port and other harbor users to bring not only larger vessel to berth but additionally in greater numbers providing for a fuller utilization of existing and planned port facilities. In addition, the Port is actively engaged with the USCOE in the first phase to address safe navigation and the current channel depth at a cost of approximately \$ 137 million which would be shared 75%/25% between the Federal government and the Port.

Lastly, spurred by the general U.S. and Texas state economic recoveries as well as expansion of domestic oil and gas production the Freeport based polymer manufactures and other petrochemical companies have resumed planned development and expansion of production facilities. This has created opportunities to handle both bulk as well as project cargo construction materials which utilized the Port's berth's, warehouse spaces and cargo lay down areas. These activities are expected to increase operating revenues for the next 5-7 years.

#### **Requests for Information**

This financial report is designed to provide a general overview of Port Freeport's finances and the Port's accountability for the money it receives. If you have questions about this report or need additional information, contact Jeff Strader, Chief Financial Officer, at Port Freeport, 200 West 2<sup>nd</sup> Street, 3<sup>rd</sup> Floor, Freeport, Texas 77541.

Statements of Net Position

September 30, 2015 and 2014

#### Assets and Deferred Outflows of Resources

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Port Freeport (the "Port") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units for enterprise funds. Enterprise fund accounting follows all Governmental Accounting Standards Board (GASB) pronouncements, as well as Financial Accounting Standards Board (FASB) codification unless the codification conflicts with or contradicts GASB pronouncements, in which case, GASB prevails. The more significant of the Port's accounting policies are described below.

#### A. REPORTING ENTITY

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the Port's reporting entity. Individual financial statements for each component unit can be obtained from the office of Port Freeport.

Included within the reporting entity:

**Port Freeport:** Port Freeport was created by action of the voters of Brazoria County, Texas, on December 4, 1925. The Port operates under an elected commissioner form of government. Currently six commissioners are authorized by the Texas Legislature.

**Brazos Harbor Industrial Development Corporation:** In November 1979 the Port authorized the filing of a petition to create the Brazos Harbor Industrial Development Corporation (IDC), a nonprofit corporation organized to issue industrial development bonds and pollution control revenue bonds. Vernon's Annotated Texas Civil Statutes authorize the creation and administration of industrial development corporations by specified governmental entities for the use in the promotion and development of commercial, industrial and manufacturing enterprises.

The Port Commission appoints a separate board of directors for the IDC. The IDC acts under the authorization and direction of the appointed Board. The IDC negotiates with the user entity to develop the necessary documents for issuing the bonded debt. The bonds are payable solely from the revenues derived from the project.

Additionally, the user entity indemnifies and agrees to hold harmless the IDC from any and all claims relating to the issuance of the bonded debt. None of the Port's assets or future revenues are pledged to secure these bonds. The Port Commission has the right of refusal on the issuance of bonds by the IDC; therefore, this constitutes financial accountability. The IDC is included in the reporting entity even though the Port does not provide funding to the IDC or have the ability to elect their governing authority or designate their management, and the IDC was incorporated for the benefit of all commercial enterprises in the area. The IDC is a discretely presented component unit, although it has no assets, liabilities, equities or financial transactions. Financial information is limited to the disclosure of revenue bonds issued on behalf of others (Note 14).

### **B. BASIS OF ACCOUNTING**

The Port follows enterprise fund accounting and reporting requirements, including the accrual basis of accounting and application of all GASB pronouncements as well as the Financial Accounting Standards Board ("FASB") pronouncements issued, unless those pronouncements conflict with or contradict GASB pronouncements.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### **B. BASIS OF ACCOUNTING - Continued**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Operating revenues and expenses generally result from providing services in connection with ongoing operations. The principal revenues of the Port are charges to customers for sales and services. The Port also recognizes revenue in the form of rents. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### C. RECLASSIFICATIONS

Certain amounts for 2014 have been reclassified to conform to the 2015 presentation.

#### D. NEW PRONOUNCEMENTS

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27", was issued June 2012. This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plan that are administered through trusts or equivalent arrangements The requirements of Statements No. 27 and No.50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The statement was implemented and did not have a material impact on the Port's financial statements. This statement is effective for periods beginning after June 15, 2014.

GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68", was issued November 2013. The statement was implemented and did not have a material impact on the Port's financial statements. This statement is effective for periods beginning after June 15, 2014.

GASB No. 72, "Fair Value Measurement and Application" was issued February 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port, however there will be additional disclosures related to Fair Values. This statement is effective for periods beginning after June 15, 2015.

GASB No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of Statements 67 and 68" was issued June 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after June 15, 2016.

GASB No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans" was issued June 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after June 15, 2016.

GASB No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" was issued June 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after June 15, 2017.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### D. NEW PRONOUNCEMENTS - Continued

GASB No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments" was issued June 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after June 15, 2015.

GASB No. 77, "Tax Abatement Disclosures" was issued in August 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after December 15, 2015.

GASB No. 78, "Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans" was issued in December 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after December 15, 2015.

GASB No. 79, "Certain External Investment Pools and Pool Participants" was issued in December 2015. The management of the Port does not expect the implementation of this standard to have a material effect on the financial statements of the Port. This statement is effective for periods beginning after June 15, 2015, except for the provisions in paragraphs 18, 19, 23-26, and 40, which is effective for reporting periods beginning after December 15, 2015.

#### E. CASH AND INVESTMENTS

Cash and temporary investments include amounts in demand deposits and short-term investments with a maturity date within three months of the date acquired by the Port. For purposes of the cash flow statement, cash and temporary investments are considered cash equivalents. In accordance with GASB Statement 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", investments are stated at fair value.

#### F. INVENTORIES

Inventories are valued at the lower of cost or market using the average cost method.

### G. CAPITAL ASSETS

Capital assets are defined by the Port as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of greater than one year. Property constructed or acquired by purchase is stated at cost. Property received as a contribution is stated at estimated fair value on the date received.

Depreciation of all exhaustible capital assets is charged as an expense against operations. Accumulated depreciation is reported on the statements of net position. Depreciation has been provided over the estimated useful lives using the straight-line method. Leased assets are depreciated over the lesser of the term of the related lease or the estimated useful lives of the assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. When property, plant and equipment is sold or otherwise disposed or becomes obsolete, the asset account and related accumulated depreciation account are relieved, and any gain or loss is charged against income.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### G. CAPITAL ASSETS - Continued

Capital assets of the Port are depreciated over the following useful lives:

| <u>Assets</u>                   | <u>Years</u> |
|---------------------------------|--------------|
| Buildings                       | 50           |
| Docks & appurtenances           | 10-50        |
| Utilities                       | 10-50        |
| Roads, lots & railways          | 40           |
| Storage yards                   | 20-40        |
| Equipment, furniture & vehicles | 5-20         |
| Other                           | 10-50        |

A significant portion of the Port's capital assets are the result of work performed to the Freeport Harbor Entrance Channel (the Channel) to increase depths to 45 feet (see Note 9). The maintenance of the Channel depths are the responsibility of the U.S. Army Corp of Engineers; thus, management has capitalized these costs as land and land improvements with an indefinite useful life; as such no depreciation has been recorded against these assets.

#### H. INTEREST CAPITALIZATION

Interest costs associated with the construction of the Port's capital assets are capitalized and reflected as a part of the cost of the asset. The amount of interest cost to be capitalized on assets acquired with tax-exempt borrowings is equal to the cost of the borrowing less interest earned on the related tax-exempt borrowing. No interest capitalized for the year ended September 30, 2015 and 2014.

### I. PROPERTY TAXES

Property taxes are levied by October 1 of each year in conformity with Subtitle E, Texas Property Tax Code. These taxes are due on receipt and are considered delinquent if not paid before February 1 of the year following the year in which imposed. Interest is charged on delinquent property taxes at a rate established by the state property tax code. Collections made on or after July 1 are subject to an additional fifteen percent collection fee. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes. The County Tax Collector bills and collects the property taxes for the Port. Collections made by the County Tax Collector are deposited into an account maintained by the Port.

Property taxes are recognized as revenue in the year they are levied. Property tax receivables and related allowances for uncollectable taxes are split between the unrestricted and the restricted for debt service based on the percent of the levy available for maintenance and operations, and general obligation bond debt service.

The Commission may levy taxes at an unlimited rate for payment of debt service on the Port's General Obligation Bonds. The Commission may also levy taxes, subject to a \$0.10 per \$100 assessed valuation limit, for all operation and maintenance expenses of the Port. For the years ended September 30, 2015 and 2014, the Commission levied taxes at a rate of \$0.011553 and \$0.013062 for debt service and a rate of \$0.033447 and \$0.031938 for operation and maintenance, for a total tax rate of \$0.045 and \$0.045 per \$100 assessed valuation for each year, respectively.

## J. RESTRICTED ASSETS

Restricted assets consist of capital and debt service restricted assets. Restricted capital assets consist of net bond proceeds in excess of unspent bond proceeds for unlimited tax improvement bonds. Restricted assets for debt service consist of proceeds available from taxes receivable as well as the revenue dedicated to debt service as stated in applicable bond covenants.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### K. COMPENSATED ABSENCES

Vested or accumulated vacation is recorded as an expense and liability as the benefits accrue to employees. The Port's vacation and sick leave policy provides that each employee may carry over unused vacation, not to exceed five days, to subsequent years. Further, unused sick leave may be converted to vacation on a five to one ratio. Benefits payable as of September 30, 2015 and 2014 were \$ 206,415 and \$ 209,805, respectively.

## L. LONG-TERM OBLIGATIONS

Long-term debt and other long-term obligations are reported as liabilities in the statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as expenses in the current period. Bonds payable are reported net of the applicable bond premium or discount.

### NOTE 2. DEPOSITS AND INVESTMENTS

The Port classifies deposits and investments for financial statement purposes as cash and temporary investments and investments based upon both liquidity (demand deposits) and maturity date (deposits and investments) of the asset at the date of purchase. For this purpose, a temporary investment is one that when purchased had a maturity date of three months or less. Cash and temporary investments and investments, as reported on the statements of net position at September 30, 2015 and 2014, are as follows:

| <u>September 30, 2015</u>  | Unrestricted   | Restricted          | Total   |  |
|--|--|---------------------|---|--|
| Cash and Temporary Investments:  |  |                     |   |  |
| Cash (petty cash accounts)   | \$ 1,390   | \$                  | \$ 1,390  |  |
| Financial Institution Deposits:  |  |                     |   |  |
| Demand deposits  | 15,006,329   | 1,428,237           | 16,434,566  |  |
| State Treasury Investment Pool:  |  |                     |   |  |
| Texpool  | 27,989,616   | 6,781,511           | 34,771,127  |  |
| Total cash and temporary investments   | \$ <u>42,997,335</u>   | \$ <u>8,209,748</u> | \$ <u>51,207,083</u>  |  |

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 2. DEPOSITS AND INVESTMENTS - Continued

**Deposits:** Custodial Credit Risk – Custodial credit risk is the risk that in the event of a financial institution failure, the Port deposits may not be returned to them. The Port requires that all deposits with financial institutions be collateralized in an amount equal to 100 percent of uninsured balances.

At September 30, 2015, the carrying amount of the Port's deposits was \$ 16,434,566 while the financial institution balances totaled \$ 17,088,439. Of the financial institution balances, \$ 265,202 was covered by federal deposit insurance, \$ 14,719,090 was covered by the Securities Investor Protection Corporation insurance, and \$ 2,104,147 was covered by collateral held by the Port's agent in the Port's name. At September 30, 2014, the carrying amount of the Port's deposits was \$ 12,429,853 while the financial institution balances totaled \$ 12,871,929. Of the financial institution balances, \$ 515,701 was covered by federal deposit insurance, \$ 9,058,269 was covered by the Securities Investor Protection Corporation insurance, and \$ 3,297,959 was covered by collateral held by the Port's agent in the Port's name.

**Investments:** Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the Port to invest its funds under a written investment policy (the "Investment Policy") that primarily emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. The Port's Investment Policy defines what constitutes the legal list of investments allowed under the policy.

The Port's deposits and investments are invested pursuant to the Investment Policy, which is approved by the Port Commission. The Investment Policy includes a list of authorized investment instruments and allowable stated maturity of individual investments. In addition they include an "Investment Strategy Statement" that specifically addresses investment options and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification and yield. Additionally, the soundness of financial institutions (including broker/dealers) in which the Port will deposit funds is addressed. The Port's investment policies and types of investments are governed by the Public Funds Investment Act (PFIA). The Port's management believes it complied with the requirements of the PFIA and the Port's investment policies.

The Port's Investment Officer submits an investment report each quarter to the Port Commission. The report details the investment positions of the Port and the compliance of the investment portfolio's as they relate to both the adopted investment strategy statements and Texas State law.

The Port is authorized to invest in the following investment instruments provided that they meet the guidelines of the Investment Policy:

- 1. U.S. Treasury Securities.
- 2. Short-term obligations of the United States Government agencies and instrumentalities.
- 3. Texas State, City, County, School and Road District bonds with an investment grade bond rating from Moody's Investors Services (A and above) and Standard and Poor's Corporation (A- and above) or that is insured.
- 4. Fully insured or collateralized certificates of deposits issued by a state or national bank, savings bank or a federal credit union with a main office or bank in Texas.
- 5. Public funds investment pools as permitted by Government Code 2256.016 2256.019.
- 6. Other securities or obligations as allowed by the Public Funds Investment Act and approved by the Finance Committee and/or full Port Commission.
- 7. Money market mutual funds as permitted by Government Code 2256.014 and approved by Commission resolution.

The Port participates in Texpool, a Local Government Investment Pool (LGIP). The State Comptroller oversees TexPool, with Federated Investors managing the daily operations of the pool under a contract with the State Comptroller.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

## NOTE 2. DEPOSITS AND INVESTMENTS - Continued

### **Investments - Continued**

The Port invests in TexPool to provide its liquidity needs. TexPool was established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Code. TexPool is a 2(a)7 like fund, meaning that it is structured similar to a money market mutual fund. Such funds allow shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are also adjusted on a daily basis. Such funds seek to maintain a constant net asset value of \$1.00, although this cannot be fully guaranteed. TexPool is rated AAAm and must maintain a dollar weighted average maturity not to exceed 60 days. At September 30, 2015 and 2014 TexPool had a weighted average maturity of 40 and 48, respectively. Although TexPool portfolios had a weighted average maturity of 40 and 48 days, respectively, the Port considers holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value.

All of the Port's investments are insured, registered, or the Port's agent holds the securities in the Port's name; therefore, the Port is not exposed to custodial credit risk.

The following tables include the portfolio balances of all investment types of the Port at September 30, 2015 and 2014.

| and 2014.   | September 30, 2015   |                         |                          |  |  |

Credit Risk – As of September 30, 2015, the LGIP (which represent approximately 80% of the unrestricted portfolio) is rated AAAm by Standard and Poor's. The U.S. treasuries (which represent approximately 2% of the unrestricted portfolio) are rated AAA and Aaa by Standard and Poor's and Moody, respectively. The remaining portfolio is made up of Municipal Bonds (which represent approximately 4% of the unrestricted portfolio) and U.S government bonds (which represent approximately 14% of the unrestricted portfolio). As of September 30, 2014, the LGIP (which represent approximately 48% of the unrestricted portfolio) is rated AAAm by Standard and Poor's. The U.S. treasuries (which represent approximately 1% of the unrestricted portfolio) are rated AAA and Aaa by Standard and Poor's and Moody, respectively. The remaining portfolio is made up of Municipal Bonds (which represent approximately 35% of the unrestricted portfolio) and Certificates of Deposit (which represent approximately 16% of the unrestricted portfolio).

Interest Rate Risk – As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that individual investments not exceed six years and the overall portfolio maintain a weighted average of less than three years. Quality short-to-medium term securities should be purchased, which compliment each other in a structured manner that minimizes risk and meets the Port's cash flow requirements.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

|   |                                      | 2017                              |                             |
|   | Unrestricted                         | Restricted                        | Total                       |
| Fair value at September 30, 2014  | <u>Unrestricted</u><br>\$ 20,267,218 |                                   | Total \$ 21,524,864         |
| Fair value at September 30, 2014  Add: Proceeds of investments sold           |                                      | Restricted                        |                             |
| •   | \$ 20,267,218                        | <u>Restricted</u><br>\$ 1,257,646 | \$ 21,524,864               |
| Add: Proceeds of investments sold   | \$ 20,267,218<br>14,790,000          | <u>Restricted</u><br>\$ 1,257,646 | \$ 21,524,864<br>15,580,817 |

These changes in fair value for the years ended September 30, 2015 and 2014 are reported as investment income.

## **Derivatives**

The Port made no direct investments in derivatives during the years ended September 30, 2015 and 2014, and held no direct investments in derivatives at September 30, 2015 and 2014. Derivatives are investment products, which may be a security or contract, which derives its value from another security, currency, commodity, or index, regardless of the source of funds used.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

## NOTE 3. ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

**Taxes:** Ad valorem taxes receivable are reserved based on historical experience and evaluation of collectivity as the lesser of a percentage of the original levy and the current receivable for each levy year. The allowance for uncollectable taxes as of September 30, 2015 and 2014 was \$ 68,140 and \$ 66,476, respectively.

**Trade Receivables:** The allowance for uncollectable receivables related to Port services is determined based on historical experience and evaluation of collectivity in relation to the aging of customer accounts. The allowance for uncollectable receivables related to Port services at September 30, 2015 and 2014 was \$ 38,094 and \$ 26,316, respectively.

## **NOTE 4: CAPITAL ASSETS**

The following is a summary of capital asset activity for the year ended September 30, 2015:

| -                                     | Useful Life in Years | Balance<br>10-01-14   | Additions            | Deletions           | Balance<br>9-30-15    |

## **General Obligation Bonds Payable:**

The Unlimited Tax Refunding Bonds, Series 2006, were issued in November, 2006. The proceeds from the \$6,330,000 of Unlimited Tax Refunding Bonds, Series 2006, were placed in an escrow account and will be used through August 15, 2017 to completely call the remaining Port Freeport Unlimited Tax Bonds, Series 1998. By this action the Port will have affected the defeasance of the refunded bonds. The difference between the cash flow required to service the new debt and complete the refunding at the date of the refunding was \$486,452. The economic gain resulting from the transaction was \$373,018. The remaining bonds were redeemed on August 31, 2008. At September 30, 2015 the balance held in escrow was \$1,105,574 and the bonds outstanding were \$1,075,000.

The Series 2006 bonds are dated November 15, 2006 with a final maturity of August 15, 2019 and bear interest ranging from 3.5% to 5.5% per annum, payable semi-annually on February 15 and August 15. The issuance of the Unlimited Tax Refunding Bonds, Series 2006, resulted in an additional cost (difference between the reacquisition price and the new carrying amount of the old debt) of \$ 180,836 and bond issuance costs of \$ 125,926.

The bond resolution for the 2006 Series general obligation bonds obligates the Port annually to assess and cause to be collected property taxes sufficient to pay current principal and interest due on the bonds.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 5. LONG-TERM DEBT AND NON-CURRENT LIABILITIES - Continued

#### **General Obligation Bonds Payable – Continued**

For the years ended September 30, 2015 and 2014, the amount of ad valorem taxes collected for interest and sinking was \$ 1,208,811 and \$ 1,335,739, while the debt service requirements for principal and interest were \$ 1,231,551 and \$ 1,207,703 which utilized a portion of existing net position. The bond resolutions provide no express remedies in the event of default and make no provision for acceleration of maturity of the bonds.

Annual debt service requirements to maturity for General Obligations Bonds are as follows:

| Fiscal Year<br>Ending<br>September 30 | <u>Principal</u>                                    | Interest                                  | Total<br>Principal<br>and Interest                  |
|---------------------------------------|---|---|---|
| 2016<br>2017<br>2018<br>2019          | \$ 1,005,000<br>1,060,000<br>1,105,000<br>1,145,000 | \$ 187,676<br>132,400<br>90,000<br>45,800 | \$ 1,192,676<br>1,192,400<br>1,195,000<br>1,190,800 |
| Total                                 | \$ <u>4,315,000</u>                                 | \$ <u>455,876</u>                         | \$ <u>4,770,876</u>                                 |

### **Revenue Bonds Payable:**

On June 13, 2013, the Port issued \$ 33,065,000 of Senior Lien Revenue Refunding Bonds, Series 2013A, for the advance refunding of previously issued outstanding revenue bonds (Series 2008). The Port placed the proceeds of the refunding issue in an escrow fund. The escrow fund is irrevocably pledged to the payment of principal and interest on the issues being refunded. The difference between the cash flow required to service the new debt and complete the refunding at the date of the refunding was \$ 17,516. The economic gain resulting from the transaction was \$ 4,372,600. The funds of the escrow account were used to purchase federal securities which will mature at such times and yield interest sufficient to pay the principal and interest on the Refunded Bonds when due. By this action, the Port has affected the defeasance of the Refunded Bonds. Accordingly, the Refunded Bonds are considered to be extinguished and do not appear as a liability in the statement of net position. The proceeds were used to pay \$ 33,398,166 into an escrow account and later utilized to pay off the refunded bonds on June 17, 2013.

On June 13, 2013, the Port also issued \$ 13,670,000 of Senior Lien Revenue Notes (Bonds), Series 2013B and \$ 5,865,000 of Senior Lien Revenue Notes (Bonds), Series 2013C. The proceeds of both issuances were used to complete the construction of the new Velasco Terminal and the resulting expansion of the related business. The Series 2013B notes were refunded in 2015. The Series 2013C notes were paid off on June 1, 2014.

On September 23, 2015, the Port issued \$ 39,635,000 of Senior Lien Revenue and Refunding Bonds, Series 2015A. The proceeds of issuances were used to refund the Port's outstanding Senior Lien Revenue Notes, Series 2013B and to provide for financing to acquire, construct and develop repairs and improvements to and equip a container terminal complex. The Port placed the proceeds of \$ 6,444,282 in an escrow fund for the payment of principal and interest on the issues being refunded. The difference between the reacquisition price and the net carrying amount of the old debt was \$ 4,282 and reported as a deferred outflow of resources. The economic gain resulting from the transaction was not calculated since the transaction was not a refunding for savings. The Series 2015A bonds have a final maturity date of June 1, 2045 and bear interest monthly at 3.0% - 5.0%.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

## NOTE 6. CAPITAL LEASE

On September 30, 2014, the Port entered into a Master Lease-Purchase Financing Agreement with Chase Bank in the amount of \$14,100,000 under a lease classified as a capital lease for a refinancing of two cranes purchased. The interest rate related to the lease obligation is 2.306% and the maturity date is September 2024. During the year ended September 30, 2015, \$1,269,794 of lease expenses and \$325,146 of interest expenses related to the lease were paid. No lease expenses and interest expenses related to the lease were paid in 2014.

The following is a schedule showing the future minimum lease payments:

| Fiscal Year<br>Ending<br>September 30 | Principal              | Interest            | Total<br>Principal<br>and Interest |
|---------------------------------------|------------------------|---------------------|------------------------------------|
| 2016                                  | \$ 1,299,076           | \$ 295,865          | \$ 1,594,941                       |
| 2017<br>2018                          | 1,329,033<br>1,359,680 | 265,908<br>235,260  | 1,594,941<br>1,594,940             |
| 2019<br>2020                          | 1,391,034<br>1,423,112 | 203,906<br>171,829  | 1,594,940<br>1,594,941             |
| 2021-2024                             | 6,028,271              | <u>351,490</u>      | 6,379,761                          |
|                                       | \$ <u>12,830,206</u>   | \$ <u>1,524,258</u> | \$ <u>14,354,464</u>               |

### NOTE 7. CONTINGENT LIABILITIES

The Port is contingently liable in respect to lawsuits and other claims in the ordinary course of its operations. The potential settlement (if any) of such contingencies under the budgetary process would require appropriation of revenues yet to be realized and would not materially affect the financial position of the Port at September 30, 2015 or 2014.

## NOTE 8. LITIGATION

A personal injury claim was filed by an individual who has alleged injuries sustained while acting as an independent contractor at Port Freeport. The individual, by and through his attorney, has demanded damages in the sum of \$ 200,000. Port Freeport believes the cost of defense and the alleged damages are covered by insurance, which insurance carriers have been notified of this claim. A suit was filed in the 412th District Court, Brazoria County, Texas. A settlement was reached and approved on October 2014 with no material loss occurring.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 9. FREEPORT HARBOR IMPROVEMENT PROJECTS

On November 17, 1986, President Reagan signed into law "The Waterway Development Act of 1986". This Act authorized the funding of the Freeport Harbor, Texas Channel Widening and Deepening project, known as the "45-Foot Project", at an estimated project cost of \$88,600,000 of which \$29,200,000 is to be the Port's non-federal share.

During 1992 the Port approved a change order, which increased the total cost of the project by \$ 2,405,000. Currently the Port is involved in this cost-sharing project with the U.S. Army Corps of Engineers. The Port maintains investments in an escrow account at a financial institution trust department, which is available for draws by the U.S. Army Corps of Engineers as construction progresses. The funds in the escrow account are restricted for use by the U.S. Army Corps of Engineers on the 45-Foot Project. Once deposited, the Port cannot withdraw any funds from the escrow account other than investment earnings, which are remitted to the Port monthly. Once the 45-Foot Project is complete, any funds remaining in the escrow account will be released for unrestricted use only upon the U.S. Army Corps of Engineer's approval.

The following is a summary of the activity in the Escrow Fund for the years ended September 30, 2015 and 2014:

|   | 2015                     | 2014                     |  |  |
|---|--------------------------|--------------------------|--|--|
| Escrow balance, October 1,<br>Investment earnings<br>Fiduciary fees | \$ 13,568<br>1<br>( 500) | \$ 14,066<br>2<br>( 500) |  |  |
| Escrow balance, September 30,                                       | \$ <u>13,069</u>         | \$ <u>13,568</u>         |  |  |

On July 15, 1997, the Port and the Department of the Army approved Modification No. 4 of the agreement referred to above. As part of this modification, the U.S. Army Corps of Engineers agreed to provide specific requirements relating to the construction, operation and maintenance of land-based aquatic dredged material disposal facilities required for the project for which a contract for construction of such facilities was awarded in October 1996. \$ 641,051 was reported as accounts receivable as of September 30, 2015 and 2014.

#### NOTE 10. LEASING OPERATIONS

**Operating Leases:** The Port owns various types of property that are held for lease. There are four types of leases: ground leases, grazing leases, warehouse leases and office space leases, all of which are accounted for as operating leases and are included in current operating income. The terms of the leases expire in various years through 2043. The Port has not determined the cost of the specific tracts of land under lease. The cost of the lease facilities as of September 30, 2015 and 2014 was \$ 81,014,519 and \$ 55,866,520, respectively, and accumulated depreciation was \$ 25,472,525 and \$ 23,766,563, respectively. Lease revenue for the years ended September 30, 2015 and 2014 was \$ 10,564,284 and \$ 6,955,488, respectively.

During the year ended September 30, 2007 the Port paid a \$ 155,059 lease incentive to an existing lease customer to make space available for another tenant. The payment has been recorded in accordance with guidance per Financial Accounting Standard Board ("FASB") Technical Bulletin 88-1. The Port executed a new 15 year agreement. The lease incentive is being amortized over the life of the new agreement and is reflected in the Statement of Revenues, Expenditures and Changes in Net Position as a reduction in service, facility use and other fees revenues. As of September 30, 2014, the long-term portion of the lease incentive of \$ 60,446 has been recorded as other long-term asset while the current portion of \$ 10,512 is included as a prepaid asset on the accompanying Statement of Net Position. During the year ended September 30, 2015, the Port wrote off the remaining incentive balance of \$ 60,446 since the lease agreement was terminated.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### **NOTE 10. LEASING OPERATIONS - Continued**

Minimum future rentals to be received on noncancelable leases as of September 30, 2015 are as follows:

| Fiscal Year                  |                   |
|------------------------------|-------------------|
| Ending                       |                   |
| September 30                 | <br>Amount        |
|                              |                   |
| 2016                         | \$<br>13,182,666  |
| 2017                         | 13,214,546        |
| 2018                         | 13,774,681        |
| 2019                         | 13,702,238        |
| 2020                         | 13,034,132        |
| 2021-2025                    | 57,341,886        |
| 2026-2030                    | 49,010,188        |
| 2031-2035                    | 46,846,264        |
| 2036-2043                    | 68,611,051        |
|                              | <br>              |
| Total minimum future rentals | \$<br>288,717,652 |
|                              |                   |

#### **NOTE 11. GRANT REVENUE**

The following is a schedule of port grant revenue for the years ended September 30, 2015 and 2014.

| Agency  | Grant Number      | Total<br>Entitlement | Pre-2014<br>Revenues | Revenue 9-30-14  | Revenue 9-30-15   | Remaining<br>Project<br>9-30-15 |
|---|-------------------|----------------------|----------------------|------------------|-------------------|---------------------------------|
| US Department of<br>Homeland Security:<br>Homeland Security | 2013-PU-00457-S01 | 296,537              |                      | 26,170           | 270,367           |                                 |
| Totals  |                   | \$ <u>296,537</u>    | \$                   | \$ <u>26,170</u> | \$ <u>270,367</u> | \$ <u>-0-</u>                   |

Accounts receivable related to these grants as of September 30, 2015 and 2014 totaled \$ 101,243 and \$ 127,413, respectively and are included in the receivables from other governments line item in the accompanying Statements of Net Position.

#### NOTE 12. RISK MANAGEMENT

The Port is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Port maintains commercial insurance for these types of risks. There have been no significant changes in insurance coverage, and no settlements have significantly exceeded insurance coverage for the years ending September 30, 2015 and 2014. The Port provides a commercial medical insurance program for its employees.

## **NOTE 13. RETIREMENT PALNS**

**Profit Sharing Plan:** The Port provides a flexible, nonstandardized safe harbor profit sharing plan (Plan), defined contribution type, for the benefit of its employees that is administered by Hartford Life Insurance Company. The Plan covers all full-time employees, which have worked a twelve (12) consecutive month period. The Plan functions for the benefit of the employees and their beneficiaries. The Port's contribution to the Plan is to be determined from year to year and is limited to the amount allowable under the Internal Revenue Code. The Port's Commission appoints the Plan trustee. The Plan is not reported in the Port's basic financial statements.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### **NOTE 13. RETIREMENT PLANS - Continued**

The Port Freeport Retirement Plan ("Plan") became effective on December 1, 2000 and maintains a calendar year end. The Port contributed \$ 115,159 (\$ 31,389 calendar year 2014 and \$ 83,770 for calendar 2015) to the plan for the year ended September 30, 2015. The Port contributed \$ 124,297 (\$ 29,319 calendar year 2013 and \$ 94,978 for calendar 2014) to the plan for the year ended September 30, 2014. Participants do not contribute to the plan. The trustees of the plan distribute any benefits provided by the plan from net position available for plan benefits. The participants become fully vested in their account after five years of service (years 1 and 2 at 0%, year 3 at 50%, year 4 at 75%, and year 5 at 100%). All of an employee's years of vesting service with the Port are counted to determine the vesting percentage in the participant's individual account.

An employee must maintain 1,000 hours of service to constitute a year of vesting service, and 500 hours of service must be exceeded to avoid a break in vesting service. The contributions made by the Port are allocated to each participant's account based on the Commission approved percentage. Forfeited invested amounts are allocated first to the payment of the plan's administrative expenses and any excess applied to reduce the Port profit sharing contributions for any plan year subsequent to the plan year for which the forfeitures arise. The normal retirement age under the plan is sixty-five. When a participant retires, terminates employment or becomes disabled, he/she are entitled to receive all amounts in which he/she has a vested interest in either a lump-sum payment, periodic installments, or an annual annuity contract. Participants are allowed to make hardship withdrawals and loans as defined by the plan. The Plan has met the ERISA minimum funding requirements.

**Deferred Compensation Plan:** The Port also offers its employees a deferred compensation plan (457 Plan) created in accordance with Internal Revenue Code Section 457. The 457 Plan is administered by Hartford Life Insurance Company and is available to all full time employees which have worked a twelve (12) consecutive month period. The 457 Plan functions for the benefit of the employees and their beneficiaries. Participants may contribute up to the amount allowable under the provisions of the Internal Revenue Code. The Port matches participant contributions up to 3% of the participant's base wages as defined in the 457 Plan. The Port's Commission appoints the Plan trustee. The 457 Plan is not reported in the Port's basic financial statements.

The 457 Plan became effective October 1, 2002 and maintains a calendar year-end. The Port contributed \$44,740 and \$40,716 to the 457 Plan for the years ended September 30, 2015 and 2014, respectively. Participant contributions for the years ended September 30, 2015 and 2014 totaled \$100,034 and \$74,641, respectively. The trustee of the plan distributes any benefits provided by the plan from net position available for plan benefits. Contributions made by participants vest immediately in their accounts; however, contributions made by the Port vest in the participants' accounts fully over five years of service (years 1 and 2 at 0%, year 3 at 50%, year 4 at 75% and year 5 at 100%). All of an employee's years of vesting service with the Port are counted to determine the vesting percentage in the participant's individual account. An employee must maintain 1,000 hours of service to constitute a year of vesting service, and 500 hours of service must be exceeded to avoid a break in vesting service. Forfeited invested amounts are allocated first to the payment of the plan's administrative expenses and any excess applied to reduce the Port's discretionary contributions for any plan year subsequent to the plan year for which the forfeitures arise. When a participant retires, terminates employment or becomes disabled, he/she is entitled to receive all amounts in which he/she has a vested interest in either a lump-sum payment, periodic installments, or an annual annuity contract. Participants are allowed to make hardship withdrawals and loans as defined by the 457 Plan. The 457 Plan has met the ERISA minimum funding requirements.

The amount of plan fees and expenses were \$ 1,436 and the amount of forfeitures was \$ 0 as of September 30, 2015. There is no outstanding pension liability as of September 30, 2015 since the Port made 100% of required contribution during the year.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

### NOTE 14. REVENUE BONDS ISSUED ON BEHALF OF OTHERS

**Pollution Control Revenue Bonds:** In 1973, the Texas legislature enacted the Clean Air Financing Act, and among other provisions, the legislature authorized certain governmental entities, including districts organized under Article 16, Section 59 of the Constitution, to issue on behalf of users, negotiable bonds to pay cost related to the acquisition, construction, or improvement of air control facilities, such bonds to be retired by revenues received by the issuer from the user. Further, in 1977, the Texas Legislature enacted the Regional Waste Disposal Act, setting forth the authority and procedures for certain governmental entities, including districts created under Article 16, Section 59, of the Constitution, to issue revenue bonds to pay the costs to acquire, construct, improve, enlarge, extend, operate and maintain disposal systems and such bonds to be secured by pledge of revenue derived from any contract between issuer and user, entered into under the provisions of the Act for financing such costs.

In accordance with the above authorization, Port Freeport has and continues to act as issuer for and on behalf of local industrial users of pollution control revenue bonds to finance the construction of air pollution control facilities, water quality facilities and solid waste disposal facilities. These bonds do not constitute indebtedness of the Port and are not reported in the Port's financial statements. These bonds are secured solely by the revenues of the commercial enterprise on whose behalf they are issued.

Pollution Control Revenue Bond series issued by Port Freeport on behalf of others with principal still outstanding at September 30, 2015 and 2014 are as follows:

|                          | Issue | Maturity | Original              | Balance<br>Outstanding | Balance<br>Outstanding |
|--------------------------|-------|----------|-----------------------|------------------------|------------------------|

| Merey Sweeny, L.P.       | 2001  | 2021     | 12,500,000            | 12,500,000             | 12,500,000             |
| Merey Sweeny, L.P.       | 2001  | 2021     | 12,500,000            | 12,500,000             | 12,500,000             |
| Merey Sweeny, L.P.       | 2002  | 2021     | 12,500,000            | 12,500,000             | 12,500,000             |
| Merey Sweeny, L.P.       | 2002  | 2021     | 12,500,000            | 12,500,000             | 12,500,000             |
|                          |       |          |                       |                        |                        |
| Total                    |       |          | \$ <u>756,650,000</u> | \$ <u>542,650,000</u>  | \$ <u>577,650,000</u>  |

**Industrial Development Bonds:** In 1979 the Texas Legislature enacted the Development Corporation Act of 1979 which authorized certain governmental entities, including districts organized under Article 16, Section 59, of the Constitution, to authorize the creation of a nonprofit corporation for the purpose of issuing bonds on behalf of the governmental unit for the purpose of financing manufacturing and industrial facilities, transportation facilities (including but not limited to airports, ports, mass commuting facilities and parking facilities), in furtherance of the public purposes of the Act. Brazos Harbor Industrial Development Corporation (IDC) is the financing arm of Port Freeport for the issuance of industrial development bonds on behalf of various users for the financing of the type of facilities above enumerated related to industrial development. Port Freeport's commissioners have the right of refusal on the issuance of bonds by the IDC. These bonds are secured solely by the revenues of the commercial enterprises on whose behalf they are issued.

Notes to Financial Statements For the Years Ended September 30, 2015 and 2014

## NOTE 14. REVENUE BONDS ISSUED ON BEHALF OF OTHERS - Continued

Industrial Development Bond series issued by the IDC on behalf of others with principal still outstanding at September 30, 2015 and 2014 are as follows:

| Name of Receiving Entity | Issue Date | Maturity | OriginalIssue         | Balance<br>Outstanding<br>9-30-15 | Balance<br>Outstanding<br>9-30-14 |
|--------------------------|------------|----------|-----------------------|-----------------------------------|-----------------------------------|
| American Rice, Inc.      | 2007       | 2025     | \$13,300,000          | \$13,300,000                      | \$13,300,000                      |
| American Rice, Inc.      | 2007       | 2037     | 15,000,000            | 15,000,000                        | 15,000,000                        |
| BASF Corporation         | 2001       | 2022     | 26,500,000            | 26,500,000                        | 26,500,000                        |
| BASF Corporation         | 2003       | 2038     | 25,000,000            | 25,000,000                        | 25,000,000                        |
| BASF Corporation         | 2006       | 2036     | 50,000,000            | 50,000,000                        | 50,000,000                        |
| Total                    |            |          | \$ <u>129,800,000</u> | \$ <u>129,800,000</u>             | \$ <u>129,800,000</u>             |

### NOTE 15. ECONOMIC DEPENDENCY

**Operating revenues**: During the year ended September 30, 2015, three customers represented approximately 37%, 11% and 10% of the Port's operating revenue. During the year ended September 30, 2014, three customers represented approximately 31%, 15% and 12% of the Port's operating revenue. The loss of these customers would have a significant impact on the Port's financial position.

**Ad valorem taxes:** During the years ended September 30, 2015 and 2014, one taxpayer represented approximately 20% of the total assessed valuation.

## NOTE 16. EVALUATION OF SUBSEQUENT EVENTS

The Port has evaluated subsequent events through January 29, 2016, the date which the financial statements were available to be issued.

# **Environmental Statement**

Port Freeport is fully committed to conducting
Port activities in a proactive manner that is protective
of the environment, through management and staff
commitment, public outreach and regulatory compliance.

# Management and Staff Commitment

Port Freeport's Board of Commissioners, Management and staff are committed to the protection of all aspects of the environment, while applying the principles of continuous improvement.

## Public Outreach

The Port is committed to providing public outreach and leadership on environmental issues. The Port will make this policy available to its staff, tenants, customers, vendors and the community.

# Regulatory Compliance

Port Freeport will comply with all applicable environmental regulations and other requirements while promoting sustainable growth and development.

# Statistical Section For the Years Ended September 30, 2015 and 2014

<sup>&</sup>lt;sup>®</sup>Total Collections are reported on the cash receipt basis. The financial statements are presented using the accrual basis of accounting. Since there is an inherent difference between the two methods of reporting, the collection reported on this schedule will not necessarily represent the total revenue reported in the financial statement:

<sup>&</sup>lt;sup>®</sup>Amounts shown are original levy amounts and exclude any subsequent supplemental assessments, and therefore collections may exceed total levy amount

<sup>&</sup>lt;sup>®</sup> Information prior to 2007 for adjusted tax levy is not readily available. Results will be added each year until ten years are presented.

#### Table 21, Miscellaneous Statistical Data

Located in Texas's Central Gulf Coast, Port Freeport currently encompasses approximately 85% of Brazoria County. Occupying the only frontal mainland coastline in Brazoria County, it also offers one of Texas's most fertile agricultural areas. The primary economic bases of the county include chemical manufacturing, petroleum processing, offshore production and maintenance services, diversified manufacturing, biochemical, electronics, commercial fishing and agriculture. In addition, the area's deepwater transportation waterway, port facilities, sport fishing services and tourism are major components of the county's economic base.

History of the Port<sup>®</sup>

The history of navigation in the Brazos River area can be traced to as early as 1528 when the Spanish explorer Cabeza de Vaca first arrived in the "New Land". In 1821, Stephen F. Austin chose the mouth of the Brazos River as the location of a colony and deepwater port to be developed. Throughout the nineteenth century and beyond, the area's importance as a trade and shipping area became more viable. A brief chronological history of the development of Port Freeport:

In 1889, Congress authorized the Brazos River and Dock Company to construct, own and operate sufficient jetties as might be necessary to create a navigable channel between the mouth of the Brazos River and the Gulf of Mexico. Granite jetties were constructed by the Brazos River and Dock Company at a cost of \$1,449,025.

The Brazos River Harbor Navigation District was created by an action of the voters on the 4th day of December 1925. In 1960, the size of the elected number of Commissioners was increased from three to six positions by an act of the Texas Legislature.

On December 4, 1925, the voters approved the issuance of \$989,000 of ad valorem tax bonds to be utilized for the elimination of the river jetty siltation shoaling problems by diversion of the "live" Brazos River to another course for its final flow to the Gulf of Mexico.

In January 1951, the voters approved the issuance of \$2,600,000 of ad valorem tax bonds to be utilized for the purchase of additional land for the construction of the Harbor and District's first dock and terminal facilities. In June 1957, the voters approved the issuance of \$1,500,000 of Port Revenue Bonds for construction of a second transit shed and dock facility. In 1961, the harbor and channel were first dredged to the original project depth of 36 - feet by the Federal Government.

In June 1963, the Interstate Commerce Commission granted the District an all-inclusive equalization of rail rates, placing the Ports of Houston, Galveston and Freeport on an equal rail rate basis.

In January 1964, Transit Shed No. 5 was opened for business. This 36,000 square foot cargo storage facility was constructed with retained Port revenues; no bonds were issued for its construction. In May 1969, the Board of Navigation and Canal

Commissioners authorized the issuance of \$865,000 of Port Revenue Bonds for the construction of a 60,000 square foot, warehouse, known as Warehouse 53, and modifications and improvements to other District warehouses, transit sheds and dock facilities. On October 5, 1980, the voters approved the issuance of \$20,000,000 of ad valorem tax bonds for the acquisition of 8,700 acres of land for future industrial development and for expenses related to the District's waterway and jetty system widening and deepening project, construction of additional office and warehouse space and improvements to existing port facilities.

In 1983, the Board of Navigation and Canal Commissioners entered into a lease agreement with Dole Fresh Fruit Company to construct a trailer marshaling yard and maintenance facility to handle Dole's weekly-containerized fruit import and commodity export trade. In 1985, the Board of Navigation and Canal Commissioners entered into a lease agreement with American Rice, Inc. to construct the largest state-of-the-art rice milling facility in the United States on a site leased to it by the Port and authorized the issuance of \$10,500,000 of Port Revenue Bonds for the construction of an additional berth, 180,000 square feet of transit sheds, a barge unloading facility along with numerous major infrastructure improvements.

On June 2, 1985, then Texas Governor Mark White signed a bill authorizing the Brazos River Harbor Navigation District to apply for and to accept, operate and maintain a Foreign-Trade Zone within its boundaries. The Foreign-Trade Zones Board on June 28, 1988, issued Order No. 385 approving the establishment of Foreign-Trade Zone No. 149 at specific sites located within the jurisdiction of the Brazos River Harbor Navigation District. On July 18, 1988, authorization to "activate" sites of Foreign-Trade Zone No. 149 was issued by the District Director of the U. S. Customs Service and on July 19, 1988, the first goods were received into Foreign-Trade Zone No. 149.

In 1962, the District requested the U. S. Army Corps of Engineers to study the widening and deepening of the Freeport jetty system, channels and harbor to improve navigation and to accommodate the larger ships that were first appearing at this time and were forecasted to be standard fleet size in the near future. Twenty-four years later, on November 17, 1986, President Ronald Reagan signed "The Water

History of the Port<sup>®</sup>

Resources Development Act of 1986" which authorized the first new waterway construction starts since 1976. The authorization included the Freeport Harbor, Texas, 45-Foot Project, at an estimated total project cost of \$88,600,000 of which \$29,200,000 was non-federal/local expense. To satisfy the recreational requirements of the project, the District completed the \$1,000,000 Surfside Jetty Park Complex in 1994, and through an Interlocal Cooperation Agreement with Brazoria County, turned the park over to the Brazoria County Parks Department for operation and maintenance.

In 1989, the Board of Navigation and Canal Commissioners authorized the purchase of the Canadian Millworks, Inc. leasehold improvements, now known as Warehouse 51, for \$350,000. The facility has undergone major upgrades and is presently being utilized for warehousing of domestic cargoes. On January 1, 1993, the Board of Navigation and Canal Commissioners entered into an Industrial Lease and Docking Agreement with McDermott, Inc. for the pre and post-mating hook-up and commissioning site for Shell Offshore, Inc.'s "Auger" Tension Leg Platform Project. In conjunction with the lease, the District realized over \$580,000 in permanent site improvements to District lands fronting on the Brazos River channel. Additionally, the District contracted for the dredging of a 60-foot deep berthing area in the Upper Turning Basin. In January 1994, the Board of Navigation and Canal Commissioners entered into a lease agreement with Western Towing, Inc. for the construction of a barge fleeting facility located on the Old Brazos River upstream from the Upper Turning Basin.

In June 1995, the Board of Navigation and Canal Commissioners adopted a long-term master plan developed with the assistance from the firm, Vickerman, Zachary and Miller. With input from the Board of Navigation and Canal Commissioners, staff, community leaders and local industry, the District's Mission Statement and Goals were developed. An update to the Master Plan was adopted in 1999.

In September 1995, the Board of Navigation and Canal Commissioners entered into a lease agreement with Chiquita Brands, Inc. for the construction of a Green Fruit Terminal on leased Port lands. The terminal includes space for up to 200 containers on chassis, interchange and maintenance facilities, as well as modular office units at a total cost of \$2.5 million. The facility went on line in March 1996. \$3,265,000

of Port Revenue Bonds were issued to finance the Green Fruit Terminal as well as renovations to Berth No. 1.

In December 1998, the voters approved the issuance of \$16,000,000 of ad valorem tax bonds to be utilized for the purchase and commissioning of a \$3.1 million mobile harbor crane and 500-foot extension of Berth No. 5 and berthing area improvements at Parcel 39. To facilitate the more efficient handling of containerized and project cargoes and to handle the additional loads from container handling equipment, the dock aprons of Berths No. 1 and No. 2 were widened from 45 – feet to 100 – feet in 1998-1999 by demolition of a portion of the transit sheds. These projects were funded by a combination of Port Revenue Bonds and retained earnings. In 1998, Warehouse 52, a 36,000 square foot facility, was constructed and is currently being used for domestic warehousing and cargo storage. This project was funded with Port retained earnings.

In 1999, the District acquired two tracts of land adjacent to the Port for future development and expansion. The first is a 2.5-acre tract, formerly occupied by Freeport Welding and Fabrication. The second is a 45-acre tract, formerly owned by Marathon Oil Company, with deep-water frontage on the Old Brazos River.

In 1999, the main Port entrance was rebuilt and widened, the 30-plus year old pavement west of the rail crossing on Pete Schaff Blvd. was replaced, and the final phase of a 5-acre open storage yard was completed. In 2000, the Deep Berthing Area was dredged to a depth of 70 feet, making it one of only two 70-foot deep berthing areas in the Upper Gulf Coast. The first phase of Berthing Area Improvements, Parcel 39, was completed in 2000, which included dredging a berthing area to 40-foot depth, the installation of monopile breasting/mooring dolphins and extending the Port's water distribution system. These projects were funded with proceeds from the 1998 bond issuance.

In March 2000, the Board of Navigation and Canal Commissioners entered into a lease agreement with Transit Mix Concrete and Materials, a division of Trinity Industries, to import limestone for the construction industry. In October, the first self-unloading vessel carrying over 60,000 tons of limestone discharged at their facility located on the Upper Turning Basin.

History of the Port<sup>®</sup>

In 2000-2001 the Port completed the Berth 5 Extension Project, increasing the number of public deepwater berths from three to four. A harbor tug berthing facility was constructed to provide a home base for harbor tugs serving vessels in Port Freeport. A portion of Transit Shed No. 5 was demolished and the balance renovated to provide for a 100-foot wide dock apron and more efficient handling of cargo. These projects were funded with proceeds from the 1998 bond issuance.

In 2001, the Board of Navigation and Canal Commissioners signed a lease agreement with Parker/Cabett Subsea Products Inc. to construct a state-of-the-art umbilical cable manufacturing facility to serve the offshore oil and gas industry. The facility is located adjacent to the recently completed Berth 5 and manufactured its first cable in early 2002.

In 2002, the Port contracted for the development of a Conceptual Master Plan that provides for the organized expansion of the Port over the next 20 years in order to better serve the marine industry. Also in 2002, the Port started the process of widening and deepening the Freeport Harbor Channel to serve larger vessels and the anticipated increase in vessel traffic. The U.S. Army Corps of Engineers issued the Section 216 Reconnaissance Phase Report that identified a federal interest in the project. In 2003, the Board of Navigation and Canal Commissioners entered into a \$6.5 million Feasibility Cost Sharing Agreement with the U.S. Army Corps of Engineers for the Freeport Harbor Improvement Project. The Feasibility Phase of the project is currently underway with scheduled for completion in the first quarter of 2013.

In 2004, the Port undertook three major projects in its efforts to diversify its cargo base. Construction of a 38,000 square foot Cool Storage Facility to handle palletized fruit as well as other temperature-sensitive commodities was completed in 2005. Design of the Velasco Terminal project was started in late 2004 and construction started in early 2007. The new 800-foot long berth is designed to handle the next generation of gantry cranes and accommodate vessels up to 48-foot draft. The signing of a land lease agreement with Freeport LNG was the first step in the construction of a liquefied natural gas receiving facility. Construction began in early 2005 and was completed in 2008. The first vessel of liquefied natural gas was received in April 2008.

In 2007, the State of Texas passed House Bill 542, which legally changed the name of the Brazos River Harbor Navigation District to "Port Freeport" and the name of the governing body of the Brazos River Harbor Navigation District to "Port Commission" and the name of each member of the Port Commission to be changed to "Port Commissioner." Development on Parcel 25 began and Wind energy started calling Port Freeport via Suzlon Wind Energy Corp. and other manufacturers.

The Port completed construction of a 60-acre project cargo area that is being leased for storage of wind power production components in 2009 at Parcel 25. In addition, the first 5-acres of an additional project cargo area at Parcel 19 were completed and the design for the next 10-acres was completed in 2009.

In 2010, Freeport LNG filed an application with the Federal Energy and Regulatory Commission to expand their facility to include re-liquefaction capabilities.

In 2011, the State of Texas passed House Bill 1305, which granted authority to Port Freeport to issue permits for the movement of oversize or overweight vehicles carrying cargo on highways located within a ten mile radius of Port Freeport.

In 2013, Velasco Terminal Phase 1, Berth 7 was completed and operational. The permit system for the movement of oversize or overweight vehicles carrying cargo on highways located within a ten mile radius of Port Freeport was implemented.

In 2014, the Port purchased two Post Panamax ship to shore container cranes for Velasco Terminal. Mediterranean Shipping Company, S.A. began servicing the Port in a vessel sharing agreement with Chiquita Brands International. In preparation of its new export facility, Freeport LNG signed an agreement with Port Freeport to widen the entrance of the channel.

In 2015 Hoegh Autoliners joined our family of partners in June of 2015 and has now created the first major OEM P3 Ro/Ro facility on the Gulf Coast offering all services to ocean carriers who move of all kinds of rolling stock. Port Freeport also signed leases with Zachry which started the construction phase for Freeport LNGs three new "trains".

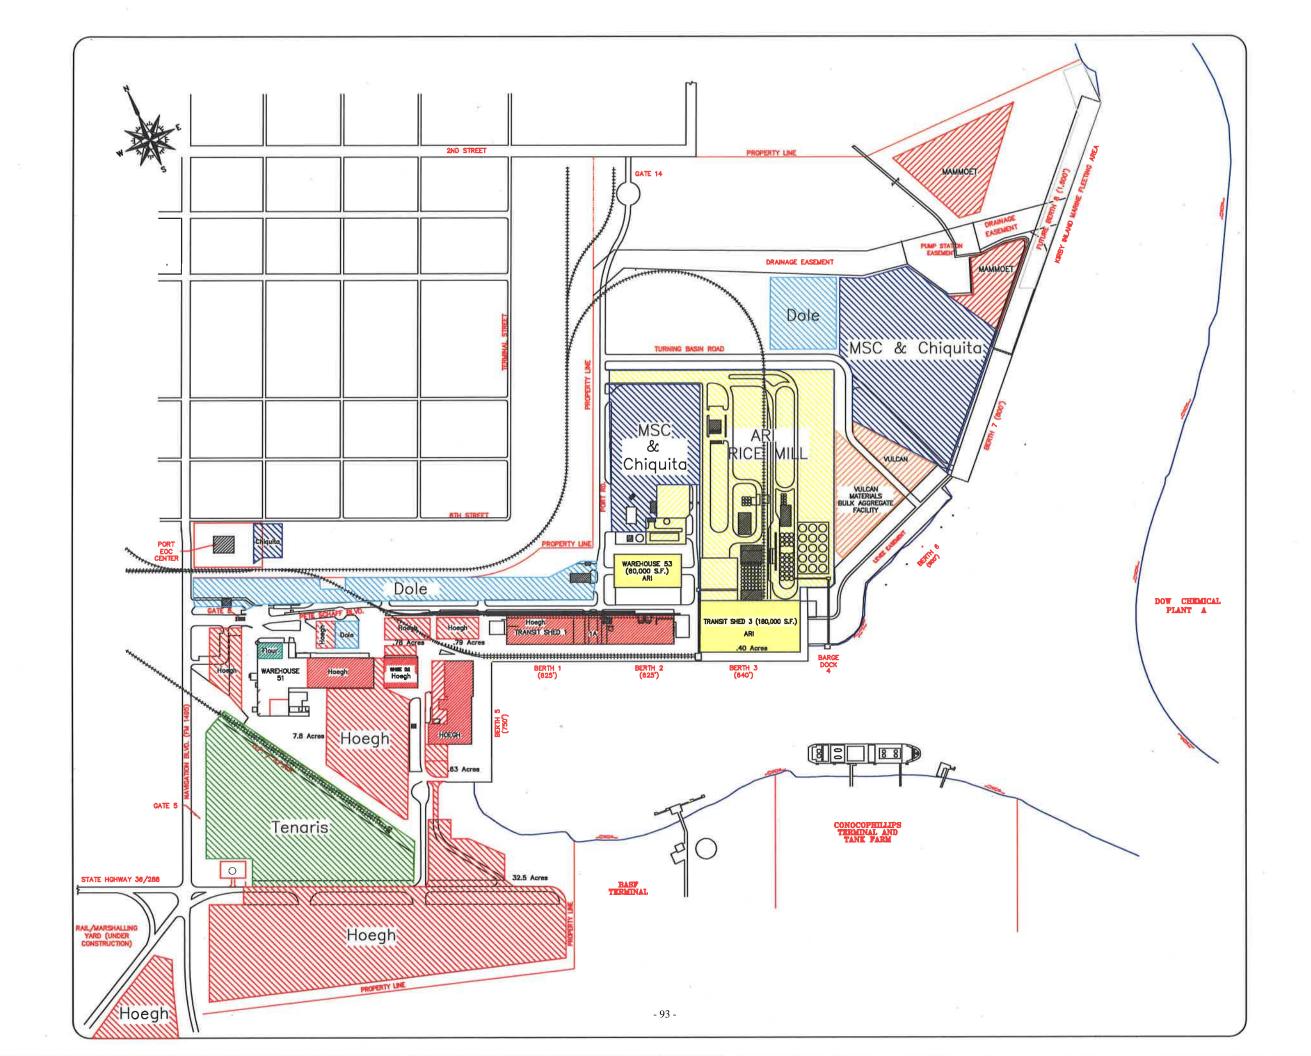

Congress approved the Water Resource Development Act designating the Port as an "authorized project"

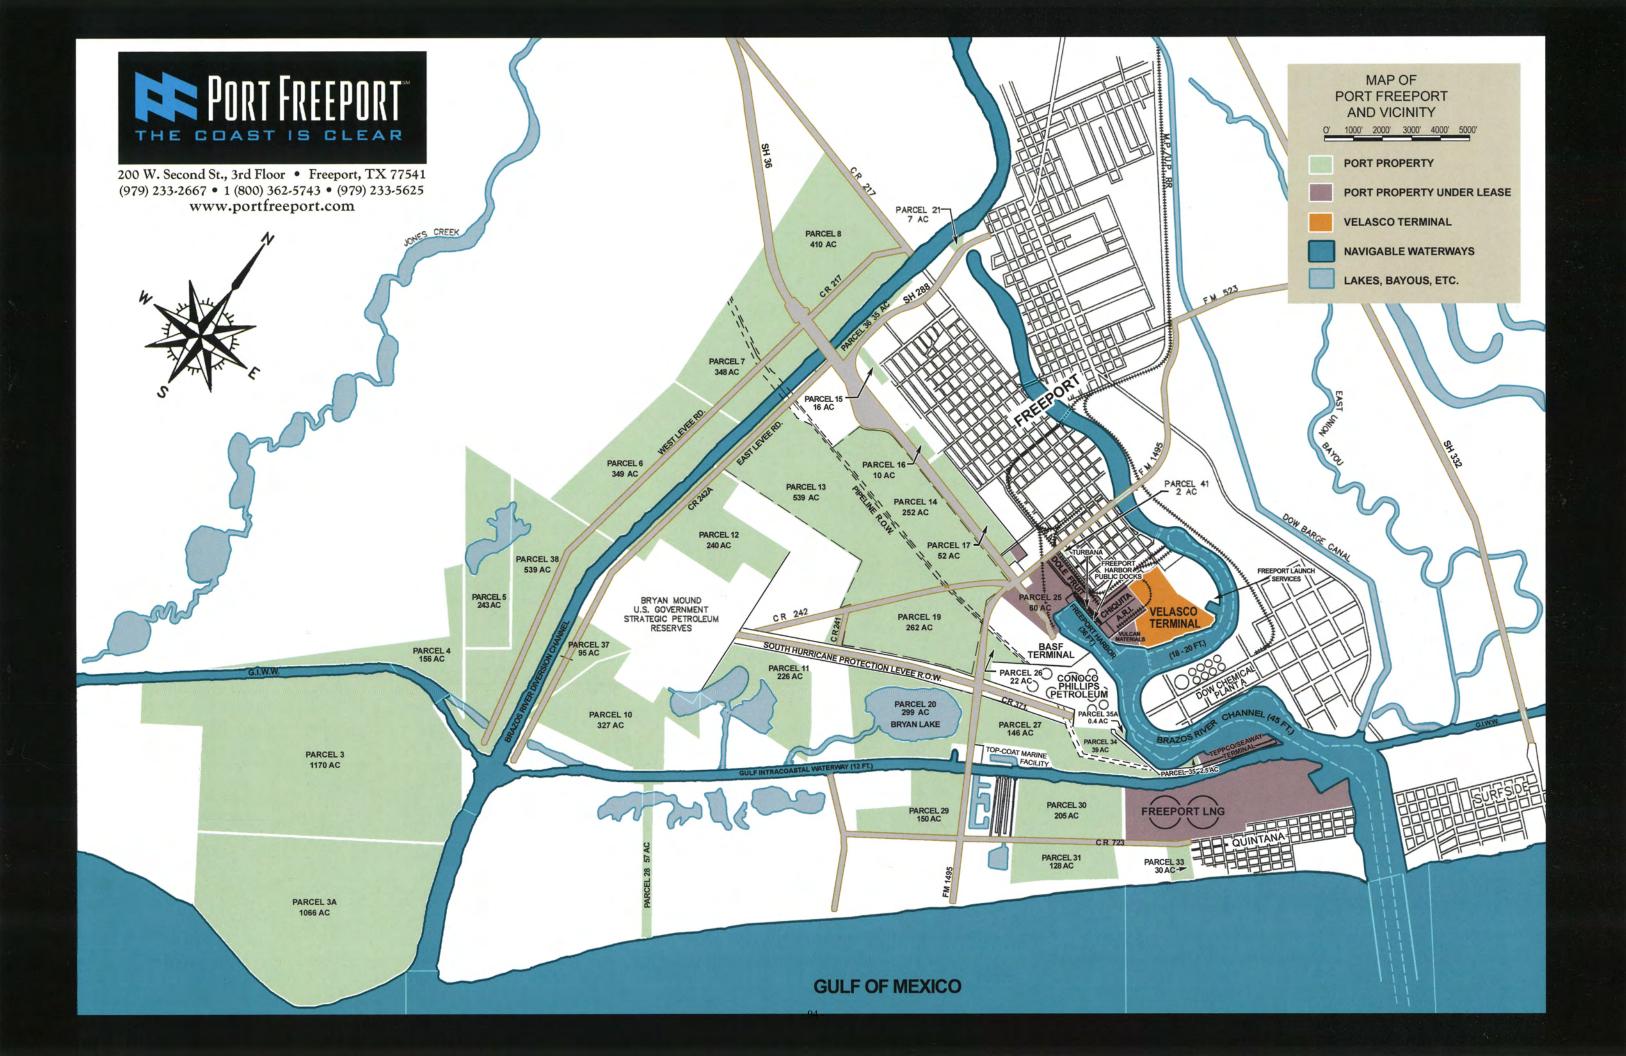

History of the Port<sup>®</sup>

which places our GRR and 55' channel deepening project as one of the top tier of federal projects considered for funding.

Port Freeport history documents the prior and current commitment of the Brazoria County residents, its industries, the Port Commission, administration and staff members to ensure the continued successful economic impact of the Port.
