

## Your SAP S/4HANA migration

Drive your SAP S/4HANA transition and accelerate your business processes to innovate and simplify your IT environment

**You've already heard a lot of about SAP S/4HANA, the newest generation of ERP. But why invest in this new solution and how can you enable the transition? You may want answers to questions like:**

- How will SAP S/4HANA migration address the specific pain points and challenges in my business?
- What impact will S/4HANA migration have on the day-to-day running of my business?
- How will my custom code be transitioned into S/4HANA?

We're here to help. Our goal is to make your SAP S/4HANA transition simple, transparent and quick. We take care of everything you need to migrate smoothly – from architecture to software licences and hardware requirements.

### WHY MOVE TO SAP S/4HANA?

- Give your users a mobile enabled experience – with many new functions and features from SAP Fiori to help them do their job faster and easier
- Connects you to people, devices, business networks and big data in real time, to do things previously unimagined
- Allows you to run all processes in real time, eliminating batch processing
- Enables you to conduct powerful predictive analytics and simulations based on live real-time data, empowering immediate decision in your executive meetings
- Speeds up deployment with on premise, managed cloud and public cloud editions combined with easy configuration.

## OUR APPROACH

As certified SAP experts and as one of the world's first SAP partners to adapt vertical solutions on SAP S/4HANA, we help you understand the benefits that SAP S/4HANA can bring to your business.

We support your complete journey to HANA technology as part of your digital transformation in the following ways:

- Creating awareness
- Holding innovation workshops
- Supporting your proof of value
- Managing implementation
- Ongoing support

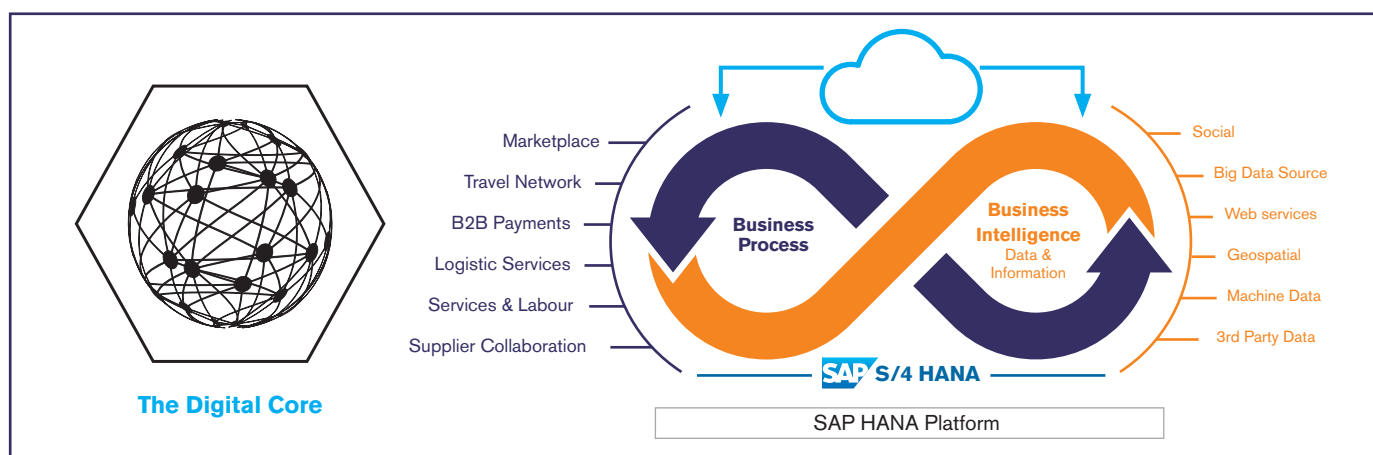

## THE DETAIL –

### OUR S/4HANA MIGRATION PROGRAMME

Our specialised functional and technical assessments will help you identify and prioritise your business processes and determine how they will change and improve in S/4HANA. Our programme includes:

- Creating a clear and detailed roadmap to help you transition from SAP ERP to S/4HANA
- Delivering a simple 5-step, highly pragmatic approach to your transitioning to SAP S/4HANA
- Providing proven experts in SAP S/4HANA and all SAP solutions
- Deep dive into custom code management
- Analysis of the different business processes involved for on premise or cloud
- Advice on number of man days needed for a migration

## 3 KEY ASPECTS OF S/4HANA – “THE INTELLIGENT ERP”

### Re-architecting for in-memory platform

- Increase in speed
- Embedded analytics
- Code push down
- No aggregation and no indices
- Data footprint reduction
- Machine learning, blockchain, etc.

### Principle of ONE

- Simplification of applications and underlying data model
- Higher flexibility and throughput
- Best and next practices

### Responsive user experience

- Simple & consistent
- Web-based & runs on all devices
- Role-based, manage by exception
- Digital assistant
