

## Advanced Planning Board

### The graphical planning tool for SAP ERP

#### The solution for simplifying and optimizing planning the resources in your SAP system

We know how much you've invested in SAP. We also know that you need good planning tools to help you maximise the potential of your ERP processes in SAP; whether in ECC or S/4 HANA.

That's why SOA People has built the Advanced Planning Board (APB). Our APB is fully integrated with SAP and supports human resource planning and tooling across services, maintenance and projects. It provides an efficient and centralised tool for your operational planners.

#### ABOUT APB

Because APB is fully integrated in SAP it is completely in line with all of SAP's technology and processes. It runs on the SAP HANA Cloud Platform and connects to your SAP backend.

APB gives you an easy-to-use graphical user experience. It is a state-of-the-art web app which works across many industries, is highly customizable and can be rapidly implemented.

It offers everything to simplify the work of your planners and ensures your team can meet changing market needs, reinforce customer satisfaction and respect your contractual commitments.

Increase your efficiency and performance

Manage the flexibility of your teams to respond to fluctuating needs

Accelerate the planning of your maintenance orders, services or projects

Optimize travel with function of geolocation

Save significant time with a 360° visibility of all information relating to planning

Increase customer satisfaction with real time schedules

## OUR EXPERTISE IN PLANNING

SOA People is both a 100% SAP specialist and an expert in resource planning for individuals in maintenance, services, project management and production.

The Advanced Planning Board has been developed using cutting edge technology: the SAP HANA Cloud Platform and is fully integrated with your SAP ERP or S/4HANA system.

The brand new graphical user experience is what you would expect from a state-of-the-art web app.

**The Advanced Planning Board simplifies the work of your planners:**

- Individual or mass scheduling
- Drag & drop
- Prioritization
- Relationships
- Google Maps integration
- Qualifications
- Reporting
