

Active Shooter Training

Empower Your Employees to Survive!

Your employees are the first line of defense in an active shooter situation. Empower them with the survivor's mindset. Give them a plan for a response. Teach them the skills that could save a life.

This training is designed as active shooter training in a workplace situation but it applies to everyday life.

“Not today, not my life!”

Pre-Incident Awareness and Threat Recognition

Discusses the categories of active shooters, levels of awareness, the importance of situational awareness, and Cooper's Colors. This information empowers your employees to take action right away.

Responding to a Threat

Covers response options to give your employees the best chance for survival. Includes evacuation choices, barricading, power in numbers, and fighting back.

Life-Saving Medical Training

Shows employees how to apply a tourniquet, pressure dressing, wound packing, and chest seals, as well as how to move someone into the rescue position.

Interaction with First Responders and the Aftermath

Details the different roles of first responders and how to interact with them. Also covers dealing with the impact of the event on the business, the injured, and the witnesses.

“You have the power to make a difference, to stop a threat, to prevent the attack, to save others, to survive!”

Subject Matter Experts

ej4 partnered with ProActive Response Group to create this training. They have a combined:

- 24 years in law enforcement
- 31 years in SWAT
- 29 years as a US Army medic

ej4's experts worked with the team at ProActive to write the scripts, create the graphics, record the office scenes and the live presenters, and edit and produce the final courses.

“Having a plan drastically increases your chance of survival.”
